journeys Library Journal starred review **China's Changing Legal System** Thomas W. Simon, Chuan Feng, Leyton P. Nelson, 2016-04-29 While much international attention has been focused on China's developing economy dramatic changes are also taking place in its legal system This book is a groundbreaking comprehensive introduction to China's legal system covering the major areas of both civil and criminal law The authors present fascinating cases and balanced accounts of controversial issues from copyright law to punishment By letting Chinese lawyers and judges speak for themselves the authors also allow readers a surprisingly candid insider's view of real life legal practice **Detention Camps in Asia**, 2022-05-20 Why have Asian states colonial and independent imprisoned people on a massive scale in detention camps How have detainees experienced the long months and years of captivity And what does the creation of camps and the segregation of people in them mean for society as a whole This ambitious book surveys the systems of detention camps set up in Asia from the beginning of the 20th century in The Philippines Indonesia Japan Malaya Myanmar Burma Vietnam Timor Korea and China *The Xinjiang emergency* Michael Clarke, 2022-02-08 The Xinjiang Uyghur Autonomous Region is the site of the largest mass repression of an ethnic and or religious minority in the world today Researchers estimate that since 2016 one million people have been detained there without trial In the detention centres individuals are exposed to deeply invasive forms of surveillance and psychological stress while outside them more than ten million Turkic Muslim minorities are subjected to a network of hi tech surveillance systems checkpoints and interpersonal monitoring Existing reportage and commentary on the crisis tend to address these issues in isolation but this ground breaking volume brings them together exploring the interconnections between the core strands of the Xinjiang emergency in order to generate a more accurate understanding of the mass detentions significance for the future of President Xi Jinping's China *The Next Frontier* David T Johnson, Franklin E Zimring, 2009-02-02 Today two thirds of the world's nations have abolished the death penalty either officially or in practice due mainly to the campaign to end state executions led by Western European nations Will this success spread to Asia where over 95 percent of executions now occur Do Asian values and traditions support capital punishment or will development and democratization end executions in the world's most rapidly developing region David T Johnson an expert on law and society in Asia and Franklin E Zimring a senior authority on capital punishment combine detailed case studies of the death penalty in Asian nations with cross national comparisons to identify the critical factors for the future of Asian death penalty policy The clear trend is away from reliance on state execution and many nations with death penalties in their criminal codes rarely use it Only the hard line authoritarian regimes of China Vietnam Singapore and North Korea execute with any frequency and when authoritarian states experience democratic reforms the rate of executions drops sharply as in Taiwan and South Korea Debunking the myth of Asian values Johnson and Zimring demonstrate that politics rather than culture or tradition is the major obstacle to the end of executions Carefully researched and full of valuable lessons *The Next Frontier* is the authoritative resource on the death penalty in Asia for scholars policymakers and advocates

Nationalism, Democracy and National Integration in China Leong H. Liew, Shaoguang Wang, 2012-11-12 This book examines the changing role of nationalism in China in the light of the immense political and economic changes there during the 1990s. It analyses recent debates between the nationalists, New Left, and liberals in China and examines the roles played by state-sponsored and populist nationalism in China's foreign relations with the West in general and the USA in particular. The issues of Taiwanese nationalism and Tibet and Xinjiang separatism are discussed with a focus on the questions of the impact of globalisation on national integration or fragmentation and the relationship between democracy and national integration: should democracy precede national integration or could democracy be realised only after national integration or are democracy and national integration mutually exclusive objectives? The book also examines the roles played by the People's Liberation Army and fiscal system in China in promoting Chinese nationalism and national integration.

China Cross Talk Scott Kennedy, 2002-12-17 The biggest untapped market in the world. The last great communist threat. The free trade partner. The human rights scourge. China Cross Talk provides a front row seat to the most memorable scenes in the American debate over China policy since 1978. Representing the full spectrum of opinion on this divisive issue, selections range from op-ed articles and commentaries to speeches by leading government officials, from congressional testimony to editorial cartoons. They touch upon the whole range of security, economic, and political issues that have affected the relationship, including the benefits and dangers of diplomatic recognition, managing Taiwan, most favored nation status, China's Olympic bids, proliferation, growing Chinese power, and the April 2001 plane collision incident over the South China Sea. As firsthand intellectual history, this anthology allows participants in the debate to speak in their own voices. Spanning a quarter century, it offers readers the chance to see how the dispute has evolved and how even some individuals have changed their positions, sometimes radically. While the book focuses on China policy, the debate is emblematic of the broader conversation America has engaged in over the past century about its proper role in the world. As such, China Cross Talk should interest students of U.S. China relations and American foreign policy, the policy community, and general readers.
