New Images of the Last Things Marie Murphy, 1989 **Paranormal Experience and Survival of Death** Carl B. Becker, 1993-09-06 Reviews accounts of demon possession memories of past lives ghostly apparitions and out of body experiences collected from Europe Asia and the Americas over the past century and examines the tension between religious and scientific perspectives on the phenomena the medical evidence and the taboo on studying such subjects in the social sciences Paper edition unseen 18 95 Annotation copyright by Book News Inc Portland OR Life after Death Anthony C. Thiselton, 2011-12-05 Writing in the wake of a near fatal stroke eminent theologian Anthony C Thiselton addresses a universally significant topic death and what comes next This distinctive study of the last things comprehensively explores questions about individual death the intermediate state the return of Christ the resurrection of the dead hell the final state of the redeemed and more At once scholarly and pastoral Thiselton's *Life after Death* offers biblically astute historically informed and intellectually sound answers making this book an invaluable resource for thinking Christians **Death and Dying** John F. Szabo, 2009-11-02 While it can be traced to the 1700s the term thanatology has gained traction in recent decades to refer to the study of death Because of the breadth of the published material and the challenges of discovery in large bibliographic databases and catalogs finding and identifying monographic material on death dying grief and bereavement can be extremely challenging Although there have been several bibliographical resources published on thanatology those titles were incomplete limited in scope or leaned heavily toward one area of the field In *Death and Dying An Annotated Bibliography of the Thanatological Literature* John F Szabo provides more than 2 200 citations of monographs on the science and study of death and dying Among the areas this volume addresses are the psychological philosophical and attitudinal aspects coping and dealing with the burdens of caregiving and working in the helping professions instructional and educational topics for practitioners primarily health care providers cultural differences in bereavement rituals and grief mourning and loss In addition notable titles on or relating to death and dying in popular culture death themes in literature methods of death or specific ethical policy or public issues are also included when they contribute important information to subject areas on which the book focuses This book will be helpful to students researchers academics caregivers health care professionals psychologists social workers and anyone with an interest in death dying bereavement or the care of the terminally ill The New Heaven and New Earth Raymond R. Hausoul, 2020-04-09 There is a growing focus on the Christian confession of God's completed kingdom the new heaven and the new earth This theme has time and again seduced people into elaborate fantasies that stimulated the senses How can we talk about it meaningfully Raymond R Hausoul relates systematic theology to biblical theology by comparing three theologians the Catholic theologian Karl Rahner the Protestant Jürgen Moltmann and the Reformed Gregory Beale This leads to reflections on differences between matter space and time of the new heaven and new earth and those of our present reality The hope for renewal and resurrection is thus linked to the

prophecies of the new Jerusalem the tree of life and the resurrection body The Unfinished Conversation Evangeline Thiessen, 2015-06-09 Brought up in a strict fundamentalist household Evangeline Thiessen like many Christians found herself at odds with complex dogma that kept her from a lucid understanding of her relationship with God It was the death of her father himself a former minister that finally brought her troubling spiritual disconnect into sharp focus and set her on a path that would afford her a new understanding of her own faith Stepping away from the petrified state of twenty first century fundamentalist Christian thought she decided to re examine the Greco Judeo Christian roots from which modern Christianity has grown What she found was that a great deal of what informs the many far flung Christian denominations has very little basis in the gospel of Christ These other influences can however be explained and even understood if one is willing to look at the broader contexts from which they arose The tone and message of the remarkable spiritual conversation started by Jesus has been shifted and stifled over the centuries but for those willing to listen it can still be discerned The Unfinished Conversation is at once erudite and readable It is an invitation for Christians to reconnect with the still vital core of faith voiced two thousand years ago Systematic Theology, Volume 2, Second Edition James Leo Garrett Jr., 2014-09-14 Rivals the major systematic theologies of this century Baptist History and Heritage Journal July 1996 One of the characteristics of Garrett s system that needs especially to be noted is its balanced judicious and nearly invariably objective presentation of materials While holding true to the teachings of his own Baptist faith Garrett so carefully and judiciously presents alternatives that teachers and students from other confessional and denominational positions will find his work instructive Consensus 1997 If one is searching for an extensive exposition of the biblical foundations and historical developments of the various loci of systematic theology there is no more complete presentation in a relatively short work than this Pastors will especially find this feature to be a real help in teaching theology It is an indispensable contribution to the task of systematic theology Journal of the Evangelical Theological Society September 1999 Many students and pastors will find all they need here and will in addition be helped to relate their knowledge to recent developments in the theological world The Churchman A Journal of Anglican Theology 1991 A gold mine of helpful material The Christian Century May 29 June 5 1991 No book that I know is more loaded with biblical and theological facts than this one The prodigious research that must have gone into the preparation of this volume is truly mind boggling Faith and Mission Fall 1991 Garrett has provided a massive and scholarly systematic theology from a thoroughly conservative and comprehensive viewpoint The work is well documented in both biblical and historical scholarship and will prove to be a classic William Hendrickson Southern Baptist Theological Seminary One of the most comprehensive concise books of its type available it should receive wide use in the classroom and in the study Robert H Culpepper Southern Baptist Theological Seminary *The Death of a Christian* Richard Rutherford, Tony Barr, 1990 This work encompasses the evolution reform and implementation of each specific part of the Order of Christian Funerals *Death Liturgy and Ritual* Paul P.J. Sheppy, 2017-07-05 This title was first published in 2003 Death Liturgy and

Ritual is a two volume study of Christian funerary theology and practice presenting an invaluable account of funeral rites and the central issues involved for compilers and users Paul Sheppy writes from direct experience of conducting funerals and of drafting liturgical resources for others In Volume I A Pastoral and Liturgical Theology Sheppy argues that the Church ought to construct its theological agenda in dialogue with other fields of study He proposes a Christian statement about death that finds its basis in the Paschal Mystery since human death must be explained by reference to Jesus death descent to the dead and resurrection Using the three phases of van Gennep s theory of rites of passage the author shows how the Easter triduum may be seen as normative for Christian liturgies of death The companion volume Volume II A Commentary on Liturgical Texts reviews a wide range of current Christian funeral rites and examines how they reflect both the Church s concern for the death and resurrection of Christ and the contemporary secular demand for funerals which celebrate the life of the deceased

Approaching the End David Albert Jones,2007-08-30 David Albert Jones considers two basic questions how can we live well in the face of death and when if ever is it legitimate deliberately to bring human life to an end He focuses upon the distinct theological approaches to death shown by four outstanding Christian thinkers Ambrose of Milan Augustine of Hippo Thomas Aquinas and Karl Rahner Jones s aim is not primarily to make a contribution to the history of theology but rather through engagement with the thought of theologians of the past to reflect on some of the practical and existential issues that the approach of death presents for all of us

God in a Single Vision David Brown,2016-05-26 In the ancient conversation between Western philosophy and Christian theology powerful contemporary voices are arguing for monologue rather than dialogue Instead of these two disciplines learning from and mutually informing each other both philosophers and theologians are increasingly disconnected from and thus unable to hear what the other is saying especially in Anglo American scholarship Some Christian philosophers are now found claiming methodological authority over doctrine while some Christian theologians even deny that philosophy has its own integrity as a separate discipline Against these trends David Brown has argued over the past thirty years that philosophy and theology are both necessary in order to grapple with the reality of divine mystery and Christian faith Neither discipline can be reduced to the other and each has its own contribution to make for a full understanding of what Brown describes as a single vision of God In this volume Brown addresses some key topics in philosophical theology including the created order experience and revelation incarnation and redemption and heaven and our communal destiny Combining analytic clarity doctrinal substance and historical depth this volume exemplifies Brown s project of truly integrating philosophy and theology It thus provides an ideal introduction to this vital conversation for undergraduate and postgraduate students as well as a connected argument of interest to specialists in both disciplines

The Last Things Donald G. Bloesch,2010-03-23 In The Last Things Donald G Bloesch takes up difficult and sometimes controversial themes such as the coming of the kingdom of God the return of Jesus Christ the life hereafter the millennial hope the final judgment hell heaven purgatory and paradise Wrestling with biblical texts that often take metaphorical form

Bloesch avoids rationalistic reductionism as well as timid agnosticism While he acknowledges mystery and even paradox Bloesch finds biblical revelation much more than sufficient to illuminate the central truths of a Christian hope articulated throughout the history of the church The Last Things is not just a review of past Christian eschatology but a fresh articulation of the grace and glory of God yet to be consummated The triumph of the grace of Jesus Christ and the dawning of hope beckon us to reach out in the power of the Spirit to receive that blessed future and the promise to renew the life of the church universal today

Samādhi Mike Sayama, 1985-10-01 The key to self development says Mike Sayama is the experience of Samadhi a state of relaxed concentration in which the individual neither freezes out of fear nor clings due to desire Simply stated samadhi is the free flow of vital energy within the body and between the body and the universe Moving effortlessly across traditions and techniques Sayama discovers that sages throughout history Greek philosophers German mystics Indian seers and our own Albert Einstein among others have taught that this experience of transcendental oneness lies at the heart of full self realization The first part of the book studies self realization in Zen Buddhism The author pinpoints its essence in Buddha's enlightenment The development of Zen is then traced continuing down to living masters who in very recent times have transplanted their lineages from Japan to the United States Sayama notes that we must choose as masters those to whom the authentic teaching has been transmitted through generations and he examines in loving detail the sometimes strange and astonishing behaviors of those whose very presence communicates the state of samadhi The second part of the book presents Zen therapy a way of self development emphasizing the cultivation of samadhi through psychophysical training Sayama compares the effects of Rolfing Feldenkrais and Zen therapy on the human body and mind He includes easy to follow directions for creating the inner state he describes He tells vivid stories of extraordinary cases treated from the point of view that the best therapy is nothing less than the removal of all dualism Four main practices are presented zazen meditation hara development circulation of the vital energy and communication

Human Development and Faith (Second Edition) Felicity B. Kelcourse, 2015-07-28 This book now in its second edition brings together the best available understandings of human development from a multidisciplinary perspective Uniquely inclusive of the moral and faith dimensions of context and life cycle development Human Development and Faith examines the interplay of mind body family community and soul at every stage of development It addresses two central questions What are the good enough conditions of parenting family and community in each phase of life from birth to death which support growth and development What gives life adequate meaning as development proceeds If human development describes the normative and hoped for passages of life then faith provides the necessary component of meaning Throughout the various perspectives offered in this volume is the premise that faith is that quality of living that makes it possible to fully live The Journal of Pastoral Theology called the first edition of Human Development and Faith an excellent text for pastoral theology courses because it fulfills its ambitious goal of bringing a holistic faith perspective to the usual topics of development This second

edition includes a new chapter on infancy updates reflecting our growing awareness of cultural diversity and a new preface

A Nonviolent Theology of Love Sharon L. Baker Putt, 2021-02-02 The impetus behind the ease with which the church has periodically justified violent behavior lies in its conceptual image of God as a violent deity This book emerges out of a passion to think differently albeit biblically about the character of God and articulates a theological construction of a nonviolent God an alternative to any image of God that seems to condone human violence It calls the church to rethink theology as something other than what might be termed redemptive violence and encourages Christians to reinterpret Scripture and traditional theological beliefs in ways that are more faithful to the God disclosed in Jesus of Nazareth Students of theology need a fresh glimpse of the love mercy and redemptive power of God through Jesus As it follows the structure of the Apostles Creed through the various theological topics this book reminds Christians to share in God's desires for peace and love and to recommit themselves to the call of God to be ministers of reconciliation and lovers of both neighbors and enemies even while at times responding to violence with nonviolent resistance

Story Theology Terrence W. Tilley, Terrence Tilley, 1990 The author reminds us that our Christian stories are at the heart of the faith Without these stories formulated doctrines and theological systems would be bereft of meaning and substance With the breadth of bright Vision he explains what story theology is all about and he tells us why it is gripping the minds and hearts of so many

The Hermeneutics of Doctrine Anthony C. Thiselton, 2007-11-08 Throughout the book Thiselton shows how perspectives that arise from hermeneutics shed fresh light on theological method reshape horizons of understanding and reveal the relevance of doctrine for formation and for life
