New Juvenile Justice:

A New Juvenile Justice System Nancy E. Dowd, 2015-05-15 A New Juvenile Justice System aims at nothing less than a complete reform of the existing system not minor change or even significant overhaul but the replacement of the existing system with a different vision The authors in this volume academics activists researchers and those who serve in the existing system all respond in this collection to the question of what the system should be Uniformly they agree that an ideal system should be centered around the principle of child well being and the goal of helping kids to achieve productive lives as citizens and members of their communities Rather than the existing system with its punitive destructive undermining effect and uneven application by race and gender these authors envision a system responsive to the needs of youth as well as to the community's legitimate need for public safety How they ask can the ideals of equality freedom liberty and self determination transform the system How can we improve the odds that children who have been labeled as delinquent can make successful transitions to adulthood And how can we create a system that relies on proven family focused interventions and creates opportunities for positive youth development Drawing upon interdisciplinary work as well as on the ground programs and experience the authors sketch out the broad parameters of such a system Providing the principles goals and concrete means to achieve them this volume imagines using our resources wisely and well to invest in all children and their potential to contribute and thrive in our society

Juvenile Law Violators, Human Rights, and the Development of New Juvenile Justice Systems Eric L. Jensen, Jørgen Jepsen, 2006-10-04 This volume brings together scholars and practitioners specialising in juvenile justice from the US Europe alongside scholars from Africa and Asia who are working on human rights issues in developing countries or countries in transition The book thus presents two types of papers the first being descriptive and analytical academic papers on whole systems of juvenile justice or certain parts thereof e.g. aftercare restorative justice etc These topics are presented as essential for the development of new juvenile justice systems The second group of papers deal with efforts to promote reform through international activity PRI DCI DIHR and through efforts to utilise modern theory in national reforms in developing countries Malawi Nepal and Serbia or in countries experiencing current or recent political and systemic changes or developments South Africa Germany and Poland The volume is also intended to throw light on recent trends in juvenile crime in various countries the relationship between actual developments and popular and political perceptions and reactions to such developments including the efforts to locate effective alternatives to the incarceration of young offenders At the same time as the search for such alternatives is being intensified through international exchange and experimentation the amelioration of harsh measures against juvenile law violators is often countered by political and public outcries for security and demonstrative public intervention against misbehavior A streak of new moralism is clearly discernable as a counteracting force against more humane reform efforts The volume throws light on developments in the actual parameters of juvenile offending public and political demands for security and public intervention and measures to

provide interventions which are at the same time compatible with international human rights instruments Juvenile Justice and Delinquency Prevention United States. Katzmman,2004-05-13 A Brookings Institution Press and Governance Institute publication A nation of great resources the United States is confronted all too often with headlines about shootings in schools and with the unsettling reality that homicide rates for juveniles far exceed that of other industrialized nations The challenge of reducing youth violence has prompted a flurry of commentary legislative activity and scholarly studies much of it skewed by lurid pronouncements alarmist sentiments and misleading categorizations Focusing on the role of institutions in combating youth violence this volume seeks to reflect its complex and multidimensional character Copublished by the Governance Institute and the Brookings Institution the book brings together a wide range of skilled professionals and academics across disciplines to focus on the coordination and implementation of youth anti violence strategies The work redefines the way we think institutionally about youth violence and collaborative initiatives providing a pragmatic roadmap for constructive change The essays constitute a new framework to guide key players in the juvenile justice system prosecutors the defense bar the courts correction and probation departments faith based institutions schools the media nonprofit institutions and the private sector Juvenile Justice Frank Schmalleger,Catherine D.
