New Women in the Old West Winifred Gallagher,2022-07-19

A riveting and previously untold history of the American West as seen by the pioneering women who advocated for their rights amidst challenges of migration and settlement and transformed the country in the process Between 1840 and 1910 hundreds of thousands of men and women traveled deep into the underdeveloped American West lured by adventure opportunity and the spirit of Manifest Destiny These settlers soon realized that survival in a new society required women to compromise eastern sensibilities and take on some of their husbands responsibilities At a time when women had very few legal or economic much less political rights these women soon proved just as essential as men to westward expansion During the mid nineteenth century the traditional domestic model of womanhood shifted to include public service with the women of the West becoming town mothers who established schools churches and philanthropies while also coproviding for their families They claimed their own homesteads and graduated from new free coeducational colleges that provided career alternatives to marriage In 1869 the men of the Wyoming Territory gave women the right to vote partly to persuade more of them to move west but with this victory in hand western suffragists fought relentlessly until the rest of the region followed suit By 1914 western women became the first American women to vote a right still denied to women in every eastern state In *New Women in the Old West* Winifred Gallagher brings to life the riveting history of the little known women the White Black and Asian settlers and the Native Americans and Hispanics they displaced who played monumental roles in one of America s most transformative periods Drawing on an extraordinary collection of research Gallagher weaves together the striking legacy of the persistent individuals who not only created homes on weather wracked prairies but also played a vital unrecognized role in the women s rights movement and forever redefined the American woman

Playing House in the American West Cathryn Halverson,2013-11-26 Examines an eclectic group of western women s autobiographical texts canonical and otherwise Playing House in the American West argues for a distinct regional literary tradition characterized by strategic representations of unconventional domestic life The controlling metaphor Cathryn Halverson uses in her engrossing study is playing house From Caroline Kirkland and Laura Ingalls Wilder to Willa Cather and Marilynne Robinson from the mid nineteenth to the late twentieth centuries western authors have persistently embraced wayward or eccentric housekeeping to prove a woman s difference from western neighbors and eastern readers alike The readings in Playing House investigate the surprising textual ends to which westerners turn the familiar terrain of the home evaluating community arguing for different conceptions of race and class and perhaps most especially resisting traditional gender roles Western women writers Halverson argues render the home as a stage for autonomy resistance and imagination rather than as a site of sacrifice and obligation The western women examined in Playing House in the American West are promoted and read as representatives of a region as insiders offering views of distant and intriguing ways of life even as they conceive of themselves as outsiders By playing with domestic conventions they recast the region they describe portraying the West as a place that fosters female agency individuality and subjectivity
