Improved Cities

Helen Gyger, 2019-03-12 Beginning in the 1950s an explosion in rural urban migration dramatically increased the population of cities throughout Peru leading to an acute housing shortage and the proliferation of self built shelters clustered in *barriadas* or squatter settlements *Improved Cities* examines the history of aided self help housing or technical assistance to self builders which took on a variety of forms in Peru from 1954 to 1986 While the postwar period saw a number of trial projects in aided self help housing throughout the developing world Peru was the site of significant experiments in this field and pioneering in its efforts to enact a large scale policy of land tenure regularization in improvised unauthorized cities Gyger focuses on three interrelated themes the circumstances that made Peru a fertile site for innovation in low cost housing under a succession of very different political regimes the influences on and movements within architectural culture that prompted architects to consider self help housing as an alternative mode of practice and the context in which international development agencies came to embrace these projects as part of their larger goals during the Cold War and beyond

Revolution of Forms John A. Loomis, 1999 A revolution of forms is a revolution of essentials Jos Mart Cuban intellectual and independence leader Although the current surge of interest in Cuba has extended to that country's architecture few know that the most outstanding architectural achievement of the Cuban Revolution stands neglected just outside Havana The

Escuelas Nacionales de Arte National Art Schools constructed from 1961 to 1965 were the result of an educational program initiated by Fidel Castro and Che Guevara soon after the Revolution of 1959 The architects they commissioned created an organic complex of brick and terra cotta Catalan vaulted structures that reflected the optimism and exuberance of the period The schools attempted to reinvent architecture just as the Revolution hoped to reinvent society However even before construction was completed the schools fell out of official favor and were subjected to an attack that resulted in their subsequent disappearance An ideological campaign branded them politically incorrect a bourgeois luxury that was not in keeping with the Revolution The buildings fell into disuse and abandoned to the jungle were literally overgrown Now almost 40 years later Cuba is beginning to recognize and reclaim these significant works of architecture Revolution of Forms investigates the history and politics surrounding the creation of these structures as well as their subsequent abandonment The text is accompanied by archival photographs plans and images of the present condition of these structures

Architecture Henry-Russell Hitchcock, 1987-01-01 This book examines a period which is far more than a prelude to the age of steel and concrete The first half century culminated in the bold iron and glass of the Crystal Palace There follows the creation of the modern styles of the era based on traditions of the past and finally in the 20th century Art Nouveau and the modern architects in their generations Perret Wright Gropius Corbusier Mies van der Rohe and others in many parts of the world The Taylorized Beauty of the Mechanical Mauro F. Guillén, 2020-11-10 The dream of scientific management was a rationalized machine world where life would approach the perfection of an assembly line But since its early twentieth century peak this dream has come to seem a dehumanizing nightmare Henry Ford's assembly lines turned out a quarter of a million cars in 1914 but all of them were black Forgotten has been the unparalleled new aesthetic beauty once seen in the ideas of Ford and scientific management pioneer Frederick Winslow Taylor In *The Taylorized Beauty of the Mechanical* Mauro Guillén recovers this history and retells the story of the emergence of modernist architecture as a romance with the ideas of scientific management one that permanently reshaped the profession of architecture Modernist architecture's pioneers Guillén shows found in scientific management the promise of a new functional machine like and beautiful architecture and the prospect of a new role for the architect as technical professional and social reformer Taylor and Ford had a signal influence on Bauhaus founder Walter Gropius and on Le Corbusier and his *Towards a New Architecture* the most important manifesto of modernist architecture Architects were so enamored with the ideas of scientific management that they adopted them even when there was no functional advantage to do so Not a traditional architectural history but rather a sociological study of the profession of architecture during its early modernist period *The Taylorized Beauty of the Mechanical* provides a new understanding of the degree to which modernist architecture emerged from a tradition of engineering and industrial management **Dimensions of the Americas** Shifra M. Goldman, 1994 Acclaimed art historian Shifra Goldman here provides the first overview of the social history of modern and contemporary Latin American and Latino art Long needed in

the field of art history this collection of thirty three essays focuses on Latin American artists throughout Mexico Central and South America the Caribbean and the United States Goldman s extensive introduction provides an up to date chronology of modern Latin American art a history of social art history in the United States and synopses of recent theoretical and historical writings by major scholars from Mexico Cuba Brazil Peru Uruguay Chile and the United States In her essays Goldman discusses a vast array of topics including the influence of the Mexican muralists on the American continent the political and artistic significance of poster art and printmaking in Cuba Puerto Rico and among Chicanos the role of women artists such as Guatemalan painter Isabel Ruiz and the increasingly important role of politics and multinational businesses in the art world of the 1970s and 1980s She explores the reception of Latin American and Latino art in the United States focusing on major historical exhibits as well as on exhibits by artists such as Chilean Alfredo Jaar and Argentinian Leandro Katz Finally she examines the significance of nationalist and ethnic themes in Latin American and Latino art Written in a straightforward style equally accessible to specialists students and general audiences this book will become essential reading for anyone interested in understanding the importance of Latin American art and the complex dynamic shaping it
