Terrorizing Images Charles Ivan Armstrong, Unni Langas, 2020-09-07 It is broadly accepted that terrorizing images are often instrumentalized in periods of conflict to serve political interests This volume proposes that paying attention to how images of trauma and conflict are described in literary texts i e to the rhetorical practice known as ekphrasis is crucial to our understanding of how such images work The volume's contributors discuss verbal images of trauma and terror in literary texts both from a contemporary perspective and as historical artefacts in order to illuminate the many different functions of ekphrasis in literature The articles in this volume reflect the vast developments in the field of trauma studies since the 1990s a field that has recently broadened to include genres beyond the memoir and testimony and that lends itself well to new postcolonial feminist and multimedia approaches By expanding the scholarly understanding of how images of trauma are described interpreted and acted out in literary texts this collected volume makes a significant contribution to both trauma and memory studies as well as more broadly to cultural studies **Pastoral Days or Memories of a New England Year**

William Hamilton Gibson, 1882 **Memory's Nation** John Seelye, 2000-11-09 Long celebrated as a symbol of the country's origins Plymouth Rock no longer receives much national attention In fact historians now generally agree that the Pilgrims

storied landing on the Rock never actually took place the tradition having emerged more than a century after the arrival of the Mayflower In *Memory's Nation* however John Seelye is not interested in the factual truth of the landing He argues that what truly gives Plymouth Rock its significance is more than two centuries of oratorical literary and artistic celebrations of the Pilgrims arrival Seelye traces how different political religious and social groups used the image of the Rock on behalf of their own specific causes and ideologies Drawing on a wealth of speeches paintings and popular illustrations he shows how Plymouth Rock changed in meaning over the years beginning as a symbol of freedom evoked in patriotic sermons at the start of the Revolution and eventually becoming an icon of exclusion during the 1920s Originally published in 1998 A UNC Press Enduring Edition UNC Press Enduring Editions use the latest in digital technology to make available again books from our distinguished backlist that were previously out of print These editions are published unaltered from the original and are presented in affordable paperback formats bringing readers both historical and cultural value *Memory* Elizabeth F.

Loftus,1988-01-01 Our memories are our most reliable sources of information about ourselves our friends and lovers our jobs Or are they We know we may occasionally forget someone's birthday miss appointments or lose track of details But what about the times we're sure we remember something only to find out it didn't happen that way Memory is a look at man's oldest nemesis Psychologist Elizabeth Loftus tells us not only about the workings of the memory but also why memory is a faulty faculty an often unreliable source for the truth She offers insightful analysis into the many dimensions of memory and discusses the ramifications of these findings in a variety of contexts and offers specific hints on fighting forgetting Good Literature ,1883 **Using Visual Evidence** Howells, Richard,Matson, Robert,2009-05-01 This is a book about visual literacy It both advocates and equips the scholarly use of visual images as visual evidence The visual is not mere illustration it is the text Enabling a rediscovery of the visual skills of the past facilitates the investigation of history and the understanding of the present Chapters by international authorities have been specially commissioned on the use of visual evidence from painting to political prints photographs documentary feature films television news and advertising

Memories of My Youth, 1844-1865 George Haven Putnam,1914 **Memory Unbound** Lucy Bond,Stef Craps,Pieter Vermeulen,2016-11-01 Though still a relatively young field memory studies has undergone significant transformations since it first coalesced as an area of inquiry Increasingly scholars understand memory to be a fluid dynamic unbound phenomenon a process rather than a reified object Embodying just such an elastic approach this state of the field collection systematically explores the transcultural transgenerational transmedial and transdisciplinary dimensions of memory four key dynamics that have sometimes been studied in isolation but never in such an integrated manner Memory Unbound places leading researchers in conversation with emerging voices in the field to recast our understanding of memory's distinctive variability

Memory and World War II Francesca Cappelletto,2005-08-01
Foreword by Michael Lambek The death and destruction of war leave behind scars and fears that can last for generations This book considers the connections between memory and violence in the wake of World War II Covering the range of European experiences from East to West Memory and World War II takes a long term approach to the study of trauma at the local level It challenges the notion of collective memory and calls for an understanding of memory as a fine line between the individual and society the private and the public International contributors from a range of disciplines seek new ways to incorporate local memory within national history and consider whether memories of extreme violence can be socially transformed Personal testimony reveals the myriad ways in which communities react to and reconstruct the horrors of war What we learn is that terrifying experiences reside not only in memories of the past but remain embedded in present day lives
