**Transforming the Rough Places** Kenneth Pohly, 2016-09-25 The word supervision can have a negative connotation to those being supervised and leaders alike You don t have to read very far in Transforming the Rough Places to realize that there is nothing negative about the supervision that Dr Pohly describes The result of years of

research and experience Dr Pohly's method and rationale offer tools to make supervision a positive experience for all those involved. What he describes is a value-centered leadership style that focuses equally on the ministry or task to be done and the person doing the task. Practicing these skills in supervision can easily enhance all business ministry and personal relationships. Discover what it means to lead in a way that can be transformative for the individual and the institution.

**Turning Tyrants into Tools in Health Practice** Justin Amery, 2022-01-26 In order to provide integrated healthcare we need to integrate a huge number of entities. Each one of these entities can be a useful tool for our practice. To be effective practitioners we hope to gain some mastery of them. But sometimes we feel as if they have mastery of us. There are days when we feel on top of our game, we keep to time, we know instantly what's wrong, the right treatment is immediately to hand, our colleagues are supportive and helpful, and birdsong drifts through our open summer window. Then there are the other days. Justin Amery. This extraordinary new series fills a void in practitioner development and well-being. The books take a reflective step back from the tick-box, target-driven and increasingly regulated world of 21st-century health practice and invite us to revisit what health and health practice actually are. Building carefully on the science and philosophy of health, each book addresses the messy, complex and often chaotic world of real-life health practice and offers an ancient but now almost revolutionary understanding for students and experienced practitioners alike that health practice is a fundamentally creative and compassionate activity. The series as a whole helps practitioners to redefine and recreate their daily practice in ways that are healthier for both patients and practitioners. The books provide a welcome antidote to demoralisation and burn-out amongst practitioners, reversing cynicism and reviving our feeling of pride in and our understanding of health practice. By observing practice life through different lenses, they encourage the development of efficiency, effectiveness and above all satisfaction. The third book in the series, *The Integrated Practitioner: Turning Tyrants into Tools in Health Practice*, explores the relationship between practitioners and their tangible external tools such as time, computers, money, information, colleagues, equipment, targets and office spaces, along with less tangible elements like knowledge, understanding, language, values and beliefs. These tools can be of great benefit when fully integrated and balanced, but they often end up controlling practitioners, dictating the manner in which the practice operates and ultimately reducing efficacy. It suggests ways for practitioners to harness the positive forces of these tools and regain control. Brilliantly written, practitioners, students and trainees, and GP trainers will find the enlightening, witty, conversational style a joy to read. *Food for Thought* Justin Amery, 2022-03-02 Everything that exists exists against a background. All of our experiences, beliefs and understandings of health practice derive from a living, organic and constantly moving context, whether scientific, philosophical, cultural, aesthetic, biological or spiritual. It is useful, therefore, to spend a little time understanding and reflecting on these building blocks of who we are. As practitioners, we don't always have time to do this. A little luxury, not essential but hopefully a bit nourishing. Like a fireside cup of cocoa. Justin Amery. This extraordinary new series fills a void in practitioner development and well-being. The

**Integrating Everything** Justin Amery,2020-07-15 Health practice has always been many things with many constraints and pressures These things have changed over time and still vary from place to place Being a practitioner here and now is from one perspective no different to the way it has always been It involves integration It involves weaving together many threads into one whole tapestry It involves taking a constrained and limited palate and painting freely It may be a science it may be technical it may be psychological it may be spiritual but it is always an art because it integrates everything in order to create And what we create is better health Justin Amery This extraordinary new series fills a void in practitioner development and well being The books take a reflective step back from the tick box target driven and increasingly regulated world of 21st century health practice and invite us to revisit what health and health practice actually are Building carefully on the science and philosophy of health each book addresses the messy complex and often chaotic world of real life health practice and offers an ancient but now almost revolutionary understanding for students and experienced practitioners alike that health practice is a fundamentally creative and compassionate activity The series as a whole helps practitioners to redefine and recreate their daily practice in ways that are healthier for both patients and practitioners The books provide a welcome antidote to demoralisation and burn out amongst practitioners reversing cynicism and reviving our feeling of pride in and our understanding of health practice By observing practice life through different lenses they encourage the development of efficiency effectiveness and above all satisfaction The fourth book in the series The Integrated Practitioner Integrating Everything considers the we the me and the other perspectives of books 1 3 and

integrates everything into health practice as a single entity It recognises the multifaceted nature of healthcare its different constraints and varied pressures but also views it from a new perspective fostering a happier healthier and more skilful whole within the real life complex and often messy world of health practice Brilliantly written practitioners students and trainees and GP trainers will find the enlightening witty conversational style a joy to read
