Headhunting Practices of the Asmat of Netherlands New Guinea, **New Guinea Headhunt** Caroline Mytinger,1946 **Papua New Guinea Headhunt** Caroline Mytinger,2010-02 In the 1920 s Papua New Guinea and the Solomon Islands were among the world s last wild places Caroline Mytinger and Margaret Warner set out from San Francisco in 1926 armed with little more than art supplies and a ukelele Headhunting and the Body in Iron Age Europe Ian Armit,2012-03-19 This book examines the widespread evidence for the removal curation and display of the human head in Iron Age Europe **Kuru Epidemiological Patrol from the New Guinea Highlands to Papua** Daniel Carleton Gajdusek,1963 **Substantial Justice** Michael Goddard,2009-07-01 Papua New Guinea s village court system was introduced in 1974 partly in an effort to overcome the legal geographical and social distance between village societies and the country s formal courts There are now more than 1100 village courts all over PNG hearing thousands of cases each week This anthropological study is grounded in ethnographic research on three different village courts and the communities they serve It also explores the colonial historical background to the establishment of the village court system and the local and global processes influencing the efforts of village courts to deal with everyday disputes among grassroots Melanesians

The Rotarian ,1947-04 Established in 1911 The Rotarian is the official magazine of Rotary International and is circulated worldwide Each issue contains feature articles columns and departments about or of interest to Rotarians Seventeen Nobel Prize winners and 19 Pulitzer Prize winners from Mahatma Ghandi to Kurt Vonnegut Jr have written for the magazine **South Coast New Guinea Cultures** Bruce M. Knauff,1993-03-25 The communities of south coast New Guinea were the subject of classic ethnographies and fresh studies in recent decades have put these rich and complex cultures at the centre of anthropological debates Flamboyant sexual practices such as ritual homosexuality have attracted particular interest In the first general book on the region Dr Knauff reaches striking new comparative conclusions through a careful ethnographic analysis of sexuality the status of women ritual and cosmology political economy and violence among the region s seven major language culture areas The findings suggest new Melanesian regional contrasts and provide for a general critique of the way regional comparisons are constructed in anthropology Theories of practice and political economy as well as post modern insights are drawn upon to provide a generative theory of indigenous social and symbolic development

Bookseller's catalogues Thornton J. and son,1883 *Warfare in Primitive Societies* William Tullio Divale,1971 Racial Science and Human Diversity in Colonial Indonesia Fenneke Sysling,2016-07-15 Indonesia is home to diverse peoples who differ from one another in terms of physical appearance as well as social and cultural practices The way such matters are understood is partly rooted in ideas developed by racial scientists working in the Netherlands Indies beginning in the late nineteenth century who tried to develop systematic ways to define and identify distinctive races Their work helped spread the idea that race had a scientific basis in anthropometry and craniology and was central to people s identity but their

encounters in the archipelago also challenged their ideas about race In this new monograph Fenneke Sysling draws on published works and private papers to describe the way Dutch racial scientists tried to make sense of the human diversity in the Indonesian archipelago The making of racial knowledge it contends cannot be explained solely in terms of internal European intellectual developments It was on the ground that ideas about race were made and unmade with a set of knowledge strategies that did not always combine well Sysling describes how skulls were assembled through the colonial infrastructure how measuring sessions were resisted what role photography and plaster casting played in racial science and shows how these aspects of science in practice were entangled with the Dutch colonial Empire **Sport Diver** ,2007-11

From Primitive to Postcolonial in Melanesia and Anthropology Bruce Knaft,2025-10-01 What have anthropologists taught us about Melanesia one of anthropology s most important and intensively studied world regions In this book Professor Bruce Knaft draws together and critically reanalyzes what we know about major features of Melanesian cultural history warfare and politics gender bodily practices and spirituality as discerned from more than a century of academic study From Primitive to Postcolonial in Melanesia and Anthropology is arguably the most comprehensive single reassessment of Melanesia as an ethnographic world area to have been published in several decades Written for students as well as professional scholars this work further broadens our understanding by analyzing the history of Melanesian ethnography and relating this history to the larger relationship between Melanesia as a contemporary world area and anthropology as a field of contemporary human study Bruce M Knaft is Professor of Anthropology Emory University and the author of three previous books as well as some thirty journal articles and chapters Knaft s interests span a wide range of issues in the anthropology of Melanesia and he is articulate with general issues of cultural theory and anthropological history

Continuum Encyclopedia of Native Art Hope B. Werness,2003-01-01 This lavishly produced volume is the first reference work to focus on the symbols meaning and significance of art in native or indigenous cultures The Illustrated London News ,1928 The Garland Encyclopedia of World Music J.W. Love,Adrienne Kaeppler,2017-09-25 In the most comprehensive collection of information ever published on the performing arts of Oceania 168 scholars in thirty countries and on every continent describe the music of the indigenous peoples of Australia New Guinea Melanesia Micronesia and Polynesia in forty in depth articles **The Bamboo Fire** William E. Mitchell,2017-09-29 Anthropology is primarily done in the field unlike the laboratory oriented experimental sciences Experimental sciences make their observations in constructed settings that permit variables influencing the outcome of the experiment to be known and controlled In contrast anthropology s object of inquiry like the science of ethology is life experience in its natural setting To understand how people organize their lives both in thought and in action one must settle among them for a very long time The Wape of Papua New Guinea inhabit a mountainous rain forest and live in sedentary villages They are slash and burn horticulturalists marriage is by bride wealth and polygyny is permitted but rare Male status is egalitarian and although the society is hierarchical in terms of sex

and age differences both women and the young enjoy higher status than in many other New Guinea societies While most Wape are nominal Christians traditional religious beliefs and practices are of major importance This book concentrates on describing the field work process by giving the reader a feeling of the reflexive nature of this experience It demonstrate not only how the anthropologist proceeds in her or his work but describes the social and psychological context in which that work evolves and how anthropologists respond to it both within oneself and in communication with others While it is a book about the Wape people it is also a book about how one anthropologist tried to understand them It integrates the subjective and objective into a common research method Related to the book the author has published a film *Magical Curing* and a CD *The Living Dead and Dying Music of the New Guinea Wape*
