Performance of Native English Speakers and Learners Elaheh Nosrati-rad, 2023-04-18 This book is an original empirical study which contributes to the knowledge and scholarship in the fields of variational interlanguage and cross cultural pragmatics on a number of important levels It highlights the potential influence of individual regional and contextual variations on the language use of native speakers and pragmatic performance of English as a Foreign Language learners arguing that factors such as gender operationalised via sex e.g female and male and native culture should be considered in one single study The book discusses the complexity of the influence of gender on language use given that its influence may manifest in different ways in different cultures and contexts Thus researchers should focus on gender culture and contextual variation when analysing language use conventions of native speakers and language learners with data highlighting the role of gender in learners first and second languages and cultures The book also introduces findings which show the importance of cross cultural comparison of Western Anglo Saxon and Middle Eastern Persian cultures in a single study and through a cross culturally comparable data collection method *Forthcoming Books* Rose Arny, 2003-12 Making Requests by

Chinese EFL Learners Vincent X. Wang, 2011 Requests a speech act people frequently use to perform everyday social interactions have attracted particular attention in politeness theories, pragmatics and second language acquisition. This book looks at request behaviours in a significant EFL population: Chinese speaking learners of English. It will draw on recent literature such as politeness theories and cognitive models for interlanguage pragmatics development as well as placing special emphasis on situational context and formulaic language to provide a more fine grained investigation. A range of request scenarios has been specifically designed for this project from common service encounters to highly face threatening situations such as borrowing money and asking a favour of police officer. Our findings on Chinese style pragmatic behaviours and patterns of pragmatic development will be of value to cross cultural pragmatics researchers, TESOL professionals and university students with an interest in this area of study.

Aspects of Language Development in an Intensive English Program Alan Juffs, 2020-03-02 While there is much in the literature on ESL development this book is the first of its kind to track the development of specific language abilities in an Intensive English Program (IEP) longitudinally and highlights the implications of this particular study's findings for future IEP implementation and practice and ESL and SLA research. The volume draws on many years worth of data from learners at an IEP at the University of Pittsburgh to explore selected aspects of language development including lexical, grammatical, speaking and writing abilities in addition to placement assessment practices and student learning outcomes. A concluding chapter points to the ways in which these findings can be applied to decision making around IEP curriculum development and the future role of IEPs in higher education more broadly. With its focus on students in IEP settings and the concentration on data from students evaluated over multiple semesters this volume offers a unique opportunity in which to examine longitudinal developmental patterns of different L1 groups on a variety of measures from the same learners and will be key reading for students and researchers in second language acquisition. English for Academic Purposes language education and applied linguistics.
