## **New Irish Constitution:**

*The Constitution of Ireland* Oran Doyle, 2018-11-29 This book provides a contextual analysis of constitutional governance in Ireland. It presents the 1937 Constitution as a seminal moment in an ongoing constitutional evolution rather than a foundational event. The book demonstrates how the Irish constitutional order revolves around a bipartite separation of powers. The Government is dominant but is legally constrained by the courts, particularly in their interpretations of the fundamental rights protected by the Constitution. In recent decades, the courts have weakened the constitutional constraints on the Government. Political constraints imposed by opposition parties in Parliament and new accountability institutions such as the Ombudsman have moderately strengthened but the Government remains by far the most powerful political actor. There is a risk that such executive dominance could lead to democratic decay; however, the referendum requirement for constitutional amendment has prevented Governments from accumulating greater constitutional power. The book begins with an overview of Irish constitutional history leading to the enactment of the 1937 Constitution, before exploring the foundational decisions made by the Constitution in relation to territory, people, and citizenship. Particular attention is paid to the constitutional relationship with Northern Ireland, currently unsettled by the decision of the United Kingdom to leave the European Union. The book details the key institutions of state: Government, Parliament, President, and courts, before analysing how different constitutional actors exercise their respective powers of governance, contestation, and oversight. A thematic approach is taken to the courts' interpretation of fundamental rights, showing how judicial attitudes have markedly changed over time. Further attention is paid to both formal amendment and informal constitutional change. The Constitution today is markedly different from 1937: it is non-committal on national reunification, less influenced by Roman Catholic natural law teaching, and generally more permissive of Government action. It is perhaps these developments, however, that explain its continued success or at least its longevity.

and capitalism as well as art and poetry The Long Shadow is stunningly broad in its historical perspective Reynolds throws light on the vast expanse of the last century and explains why 1914-18 is a conflict that America is still struggling to comprehend Forging connections between people places and ideas The Long Shadow ventures across the traditional subcultures of historical scholarship to offer a rich and layered examination not only of politics diplomacy and security but also of economics art and literature The result is a magisterial reinterpretation of the place of the Great War in modern history

**The Use of Foreign Precedents by Constitutional Judges** Tania Groppi, Marie-Claire Ponthoreau, 2013-03-28 In 2007 the International Association of Constitutional Law established an Interest Group on The Use of Foreign Precedents by Constitutional Judges to conduct a survey of the use of foreign precedents by Supreme and Constitutional Courts in deciding constitutional cases Its purpose was to determine through empirical analysis employing both quantitative and qualitative indicators the extent to which foreign case law is cited The survey aimed to test the reliability of studies describing and reporting instances of transjudicial communication between Courts The research also provides useful insights into the extent to which a progressive constitutional convergence may be taking place between common law and civil law traditions The present work includes studies by scholars from African American Asian European Latin American and Oceania countries representing jurisdictions belonging to both common law and civil law traditions and countries employing both centralised and decentralised systems of judicial review The results published here for the first time give us the best evidence yet of the existence and limits of a transnational constitutional communication between courts
