New Jackals:

Jackals John-Matthew DeFoggi, 2021-02-04 The Zaharets the land between the Vori Wastes and the Plains of Aeeco is well known as the Land of Risings Dominated by the rising city states of Ameena Noani and Sentem facing each other along the great War Road the Zaharets has always been home to powerful civilizations Beastmen ruins dot the landscape a constant reminder of the Kingdom of Sin and the fragility of the Law of Men Even older are the great ruins of the Hulathi the legendary sea peoples and the Hannic mansions sealed beneath the mountains awaiting those who would seek out the Lost Folk Scars abound from the wars between ruined Keta in the north and Gerwa in the south And far to the east the legends of Muadah still beckon occultists and Jackals who seek to plunder its corrupted ruins Inspired by the myths cultures and history of the Ancient Near East and by such ancient texts as the Iliad the Epic of Gilgamesh and the Old Testament Jackals is a Sword Sorcery roleplaying game set in a Fantasy Bronze Age With mechanics based on the popular OpenQuest system the game places players in the role of Jackals adventurers explorers sellswords and scavengers and sends them out into the peril filled land of the Zaharets to make their fortune or perhaps fulfill a greater destiny **Chasing Ghosts** John E.

Mueller, Mark G. Stewart, 2016 *Chasing Ghosts* exposes the ill founded paranoia that has allowed the national security state to both feed at the public trough and undermine America's civil liberties tradition *America's War against Global Jihad* William R. Nester, 2018-03-06 A specter haunts America the specter of Global Jihad Islamic Holy War This specter was never more horrific than on September 11 2001 when nineteen fanatics hijacked four jetliners and used them as guided missiles to destroy the twin World Trade Towers damage the Pentagon murder nearly 3 000 people and cause as much as several hundred billion dollars worth of direct and indirect damage to New York City and the national economy But Jihadists have periodically attacked Americans ever since November 1979 when mobs shouting death to America overran the American embassy in Tehran and held 52 officials hostage for 444 days President George W Bush responded to the September 11 atrocities by declaring a global war on terror Now in its second decade that war has cost the United States thousands of lives and trillions of dollars Americans are haunted by horrific televised images from across a swath of the Muslim world of bomb blasted cities hundreds of slaughtered bodies thousands of refugees huddled in squalid camps and American journalists in orange jump suits kneeling in the desert before the black robed and masked men who will behead them Americans increasingly question whether the global war on terror has been worth those costs for their own nation and the lands where it is fought This book analyzes America's crusade against Jihadism The key related questions it addresses are these Looking back what were the successes and failures of Washington's counter Jihadist strategy before and after September 11 Looking ahead should Americans stay the course or cut their losses in Iraq Afghanistan and elsewhere Was the catastrophic September 11 attack a one time event or could its equivalent or worse in death and destruction happen again Renowned Harvard professor Samuel Huntington asserted that The underlying problem for the West is not Islamic fundamentalism it is

Islam a different civilization whose people are convinced of the superiority of their culture and are obsessed with the inferiority of their power Is that true Just what of Muhammad s words and deeds if any justifies the barbarism of al Qaeda Islamic State and other Jihadists Finally just how corporeal is that specter of global Jihad to the United States A startling surprise awaits the reader in the final chapter as acclaimed expert William Nester weighs the specter of global Jihad against an array of other national security threats

International Aviation and Terrorism John Harrison,2009-03-03 This book examines terrorism s impact on the international aviation security regime with a focus on the role of the United States Tracing the historical development of the international civil aviation system the volume examines how it has dealt with the evolving security environment caused by international terrorism It begins by exploring the practical implications of the debates over the meaning of terrorism and how the international civil aviation community developed practical solutions to avoid the debilitating debates over the concept while crafting important if weak international conventions As a major civil aviation power the United States was a predominant influence in security developments in the 1960s and 1970s yet US civil aviation policy failed to keep pace with the changing nature of the terrorist threat The commanding position that the United States maintains in international civil aviation provides a microcosm of the promise and perils faced by the world s sole superpower The author examines US efforts to upgrade civil aviation security in the wake of 9 11 and the impacts of these developments on the international civil aviation system The detailed discussion of terrorism past and present places the threat in its proper context for both the international civil aviation community and its largest individual actor the United States This book will be of much interest to students of terrorism aviation security international security and IR in general John Harrison is an Assistant Professor at the S Rajaratnam School of International Studies and Head of Terrorism Research at the International Center for Political Violence and Terrorism Research

The Road to 9/11 Peter Dale Scott,2007-09-04 This is an ambitious meticulous examination of how U S foreign policy since the 1960s has led to partial or total cover ups of past domestic criminal acts including perhaps the catastrophe of 9 11 Peter Dale Scott whose previous books have investigated CIA involvement in southeast Asia the drug wars and the Kennedy assassination here probes how the policies of presidents since Nixon have augmented the tangled bases for the 2001 terrorist attack Scott shows how America s expansion into the world since World War II has led to momentous secret decision making at high levels He demonstrates how these decisions by small cliques are responsive to the agendas of private wealth at the expense of the public of the democratic state and of civil society He shows how in implementing these agendas U S intelligence agencies have become involved with terrorist groups they once backed and helped create including al Qaeda

What Every American Should Know About the Rest of the World Melissa Rossi,2003-04-29 Confused about the news Slip out of the room when friends talk current events Now you can keep up with ease and learn to talk like a diplomat Among the things you ll soon be able to slip into everyday conversation What is the difference between Kurdistan and Kazakhstan Why did North Korea s leader kidnap his

favorite actress Why is Osama bin Laden so mad Which countries still have slaves Why is Kashmir the most dangerous place in the world What country has the most Muslims Why are they fighting in Chechnya What little box prompted Hutus to kill Tutsis Who is Prince Turki and how did his hunting trip change history How are cows fueling the fighting between India s Muslims and Hindus Which country drew maps that have resulted in the most intractable wars What is controversial UN Resolution 242 What makes Qatar stand out What country does Sumatran coffee come from What country s fakes forced the US to redesign the 100 bill Who is the FARC and why have they been fighting for decades An entertaining guide to political science current events foreign affairs and history What Every American Should Know about the Rest of the World gives you the vocabulary and background you need to decipher the modern world in a simple to understand format *Osama Jonathan Randal*,2007-12-18 How is it possible for one middle aged Saudi millionaire to threaten the world s only superpower This is the question at the center of Jonathan Randal s riveting timely account of Osama bin Laden s life and role in the rise of terrorism in the Middle East Randal traces the current sources of Osama s money and tells us why the Iraq war has played into the hands of the terrorists while also providing essential insight and background on the history of American involvement in the Middle East With his long maintained sources in the Middle East and his intimate understanding of the region Randal gives us a clearer explanation than any we have had of the whys and wherefores of the world s most prominent and feared terrorist **Islamic Terror** Avner Falk,2008-07-30 Independent scholar Falk analyzes the genesis of Islamic terror from many standpoints including religious cultural historical political social economic and above all psychological Drawing on his training as a clinical psychologist Falk s writings specialize in psychohistory and political psychology Here he examines topics including infantile experience and adult terrorism the meaning of terror terrorists and their mothers narcissistic rage and Islamic terror and whether terrorists are normal people as some scholars claim He also describes the infantile development of terrorist pathology non psychoanalytic theories of terrorism globalization s effect on terrorism and the notion of the clash of civilizations Other topics addressed in this reader friendly analysis include history s first Islamic terrorists and three important cases two recent deadly terrorists and a primary figure in our current war on terror Independent scholar Falk analyzes the genesis of Islamic terror from many standpoints including religious cultural historical political social economic and above all psychological Drawing on his training as a clinical psychologist Falk s writings specialize in psychohistory and political psychology Here he examines topics including infantile experience and adult terrorism the meaning of terror terrorists and their mothers narcissistic rage and Islamic terror and whether terrorists are normal people as some scholars claim He also describes the infantile development of terrorist pathology non psychoanalytic theories of terrorism globalization s effect on terrorism and the notion of the clash of civilizations Examining the emotional structure of traditional Muslim families Falk shows us the Muslim child s ambivalence toward his or her parents ways in which Muslims abuse women and children and the roots of Muslim rage and why all of that plays into the development of future terrorism

Other topics addressed in this reader friendly analysis include history's first Islamic terrorists and three important cases two recent deadly terrorists and a primary figure in our current war on terror The central idea throughout the book is that a person's attitude toward terror and terrorism as well as whether he or she becomes a murderous terrorist or even who wages a global war on terror has much to do with that person's own terrifying experiences in infancy and childhood Such terror usually experienced first in the earliest interactions with the mother is symbolically expressed as Falk shows in fairy tales and myths about terrifying witches and female monsters Further terror may be experienced in the relationship with the father and also in various other traumatic ways It is these early terrors when extreme and uncontrollable that most often produce terrorists and wars on terror Falk argues Thus his book focuses on the conscious but also on the irrational and unconscious causes of terrorism

Images of Terror R.L. Bruckberger, Philip Jenkins, 2018-01-16 The book acts as a guide to the images of terrorism that we see daily in the mass media The author believes that our perceptions of terrorism are formed by the interaction of bureaucratic agencies academics and private experts These images and stereotypes that we are offered do not necessarily reflect objective reality

To Protect and Defend Tom Lansford, Robert J. Pauly Jr, 2016-12-05 In response to the terrorist attacks of 11 September 2001 the United States embarked on a dramatic and sustained effort to reform and revitalize its homeland security policies and structures This book offers an examination of the evolution of policy and the concurrent restructuring of existing agencies as well as the creation of new bodies designed to counter the threat of transnational terrorism Detailing the historical roots of US homeland security policy and its evolution in the aftermath of the 9/11 attacks this book provides a unique overview of the emerging and existing agencies and bureaux at the national state and local levels which are tasked with homeland security Furthermore by integrating the existing paradigms of contemporary security policy with the changing nature of threat and response it provides an invaluable overview of existing and likely future security threats to the US homeland

Deception Adrian Levy, Catherine Scott-Clark, 2010-08-10 The shocking three decade story of A Q Khan and Pakistan's nuclear program and the complicity of the United States in the spread of nuclear weaponry On December 15 1975 A Q Khan a young Pakistani scientist working in Holland stole top secret blueprints for a revolutionary new process to arm a nuclear bomb His original intention and that of his government was purely patriotic to provide Pakistan a counter to India's recently unveiled nuclear device However as Adrian Levy and Catherine Scott Clark chillingly relate in their masterful investigation of Khan's career over the past thirty years over time that limited ambition mushroomed into the world's largest clandestine network engaged in selling nuclear secrets a mercenary and illicit program managed by the Pakistani military and made possible in large part by aid money from the United States Saudi Arabia and Libya and by indiscriminate assistance from China Based on hundreds of interviews in the United States Pakistan India Israel Europe and Southeast Asia *Deception* is a masterwork of reportage and dramatic storytelling by two of the world's most resourceful investigative journalists Urgently important it should stimulate debate and command a reexamination of our

national priorities **Encyclopedia of United States National Security** Richard J. Samuels, 2005-12-21 Since the tragic events of September 11 2001 the topic of national security has never been of broader concern to all Americans Rarely have we felt as threatened as we do in our current security environment With over 750 entries the Encyclopedia of United States National Security is the first single concise reference source to provide accurate and informative answers to the many challenging questions of how why when and where national security has evolved In addition to presenting historical facts and analyses this two volume encyclopedia is designed to provide a comprehensive introduction to some of the more complicated and abstract questions concerning world politics and national security A thoroughly interdisciplinary work this Encyclopedia views national security from historical economic political and technological perspectives Key Features Examines the full range of contemporary weapons systems including air sea and land warfare ballistic missile defense space weapons stealth technology antisubmarine warfare and biological weapons Explores much more than the use of force as protection by introducing competing paradigms such as economic and diplomatic tools in security strategy Includes excerpts from treaties speeches and other sources and provides an overview of important events such as scandals and breaches of national security Offers a close look at the leaders and thinkers that shaped U S security policy as well as individuals who have had the greatest impact upon U S national security Key Themes Armed Forces and Other Defenders Alliances Pacts and Treaties Armaments and Weapons Systems Concepts and Theories Decision Makers and Others Key Events Movements Military Hardware Military and Non Military Strategy Organizations Institutions and Groups Places Politics and Policy Special Populations Technology Wars and Warfare The Encyclopedia of United States National Security encourages curiosity about international affairs and in particular the long list of issues that affect our national security A first of its kind this encyclopedia is a must have resource for all school community and academic libraries **Mastermind** Richard Miniter, 2011-05-03 The bestselling author of Shadow War and Losing Bin Laden exposes the sinister Al Qaeda mastermind behind 9 11 Khalid Shaikh Mohammed the architect of the 9 11 attacks has carried out many of the biggest terrorist plots of the past twenty years including the 1993 World Trade Center bombing the Millennium Plots and the beheading of Daniel Pearl As the world awaits his trial bestselling author and investigative journalist Richard Miniter brings to life his shocking true story Based on more than one hundred interviews with government officials generals diplomats and spies from the United States Europe the Arab world and Afghanistan and on the ground reporting from Morocco Egypt Israel Afghanistan Pakistan the Philippines and Guant namo Bay Miniter reveals never before reported Al Qaeda plots and surprising new details about the 9 11 attacks He also shows how Khalid Shaikh Mohammed was radicalized in America and takes us inside terrorist safe houses CIA war rooms and the cages of Guant namo Bay While thoroughly reported and strongly sourced this is a pounding narrative that reads like a thriller **Understanding Terrorism** Gus Martin, 2017-09-05 Gus Martin has expertly curated the most important topics and sources in the field and put them together in an ideal manner to assist

students in understanding the breadth and complexity of modern day terrorism Coupled with the instructor and student resources this text is a perfect introduction to the field Ryan Vogel Director of National Security Studies Utah Valley University Understanding Terrorism Challenges Perspectives and Issues offers a multidisciplinary comprehensive exploration of domestic and international terrorism that helps students develop the knowledge and skills needed to critically assess the expressions and underlying causes of terrorism The Sixth Edition has been updated with new information on terrorist attacks and organizations as well as key topics such as failed states the lone wolf model state terrorism human rights violations and cyberterrorism Discussion of policies and counterterrorism has been augmented to help students understand the challenges perspectives and issues relevant to terrorism today Give your students the SAGE edge SAGE edge offers a robust online environment featuring an impressive array of free tools and resources for review study and further exploration keeping both instructors and students on the cutting edge of teaching and learning Learn more at edge.sagepub.com martin6e

Critical Issues in Homeland Security James D. Ramsay, Linda A. Kiltz, 2018-04-27 Critical Issues in Homeland Security A Casebook encourages analytical and careful examination of practical homeland security problems through the presentation of contemporary cases involving major state or national events Case studies demonstrate the complexity of challenges within the domain of homeland security policy and administration Editors James D Ramsay and Linda Kiltz carefully curated fourteen cases all from top scholars and practitioners to cover a broad range of legal policy and operational challenges within the field of homeland security Timely and interesting cases on such issues as arctic security the use of drones in targeted killings cyber security and the emergency management lessons of the 2010 Haiti earthquake give students a deeper understanding of the relationship between the theories and the practices of homeland security Discussion questions at the end of each case and an online instructor's manual make Critical Issues in Homeland Security an even more effective learning tool for any homeland security program

September 11 in Popular Culture Sara E. Quay, Amy M. Damico, 2010-09-14 This book offers an exploration of the comprehensive impact of the events of September 11 2001 on every aspect of American culture and society On Thanksgiving day after September 11 2001 comic strip creators directed readers to donate money in their artwork generating 50 000 in relief funds The world's largest radio network Clear Channel sent a memo to all of its affiliated stations recommending 150 songs that should be eliminated from airplay because of assumptions that their lyrics would be perceived as offensive in light of the events of 9 11 On the first anniversary of September 11th choirs around the world performed Mozart's Requiem at 8 46 am in each time zone the time of the first attack on the World Trade Center These examples are just three of the ways the world but especially the United States responded to the events of September 11 2001 Each chapter in this book contains a chronological overview of the sea of changes in everyday life literature entertainment news and media and visual culture after September 11 Shorter essays focus on specific books TV shows songs and films

Terrorism's War with America Dennis Piskiewicz, 2003-11-30 For most

Americans terrorism made the transformation from theoretical threat to frightening reality on September 11 2001 yet America has been the target of terrorist acts for over four decades Piskiewicz recounts the changing political orientation of terrorists and highlights the challenge that faces America and the community of nations in putting terrorists out of business without adopting their tactics Piskiewicz tells the history of modern international terrorism from its beginning in 1958 with the Cuban hijacking of an airliner en route from Miami He recounts the changing political orientation of the enemy the growing viciousness of their attacks and the blundering responses by the U S government inaction impotent verbal assaults and ill conceived acts of retaliation This book highlights the challenge that faces America and the community of nations in putting terrorists out of business without adopting their tactics The assault began with the hijacking of airliners but soon included the bombing of embassies as well as attacks on military units and navy ships Terrorism has evolved from a disorganized activity of individuals and small groups through its adoption of political warfare by nationalists insurgents and the disenfranchised to its current incarnation as a weapon of political change used by rogue states and radical religious movements

Wanted Dead or Alive Benjamin Runkle, 2011-08-02 Early May 2011 in a dramatic late night appearance at the White House President Obama declared that justice has been done as he announced that Osama bin Laden was dead After more than a decade of military operations across Central Asia and the Middle East the Al Qaida leader who orchestrated the 9 11 terrorist attacks was finally killed in a firefight with U S Navy SEALs in Pakistan Although this daring raid marked the end of the longest strategic manhunt in American history bin Laden was not the first individual targeted as the objective of a military campaign From Geronimo to Pancho Villa to Manuel Noriega to Saddam Hussein the United States has deployed military forces to kill or capture a single person nearly a dozen times since 1885 Part military history part action thriller and part strategic policy analysis **Wanted Dead or Alive** chronicles the extraordinary efforts of the military and intelligence agencies to bring America's enemies to justice

Defusing Armageddon: Inside NEST, America's Secret Nuclear Bomb Squad Jeffrey T. Richelson, 2009-02-02 The first in depth examination of NEST America's super secret government agency operating to prevent nuclear terrorist attacks Jeffrey T. Richelson reveals the history of the Nuclear Emergency Support Team from the events leading to its creation in 1974 to today **Defusing Armageddon** provides a behind the scenes look at NEST's personnel operations and detection and disablement equipment employed in response to attempts at nuclear extortion lost and stolen nuclear material crashed nuclear powered Soviet satellites and al Qaeda's quest for nuclear weapons Richelson traces the Cosmos satellite that crashed into the Canadian wilderness nuclear threats to Los Angeles New York and other cities and the surveillance of Muslim sites in the United States after 9 11 Relying on recently declassified documents and interviews with former NEST personnel Richelson's extensive research reveals how NEST operated during the Cold War how the agency has evolved and its current efforts to reduce the chance of a nuclear device decimating an American city

Lone Wolf Terror and the Rise of Leaderless Resistance George Michael, 2012-09-15

On July 22 2011 Anders Behring Breivik detonated a car bomb in downtown Oslo Norway He didn't stop there traveling several hours from the city to ambush a youth camp while the rest of Norway was distracted by his earlier attack That's where the facts end But what motivated him Did he have help staging the attacks The evidence suggests a startling truth that this was the work of one man pursuing a mission he was convinced was just If Breivik did indeed act alone he wouldn't be the first Timothy McVeigh bombed a federal building in Oklahoma City based essentially on his own motivations Eric Robert Rudolph embarked on a campaign of terror over several years including the Centennial Park bombing at the 1996 Olympics Ted Kaczynski was revealed to be the Unabomber that same year And these are only the most notable examples As George Michael demonstrates in *Lone Wolf Terror and the Rise of Leaderless Resistance* they are not isolated cases Rather they represent the new way warfare will be conducted in the twenty-first century *Lone Wolf Terror* investigates the motivations of numerous political and ideological elements such as right-wing individuals ecoextremists foreign jihadists and even quasi-governmental entities In all these cases those carrying out destructive acts operate as lone wolves and small cells with little or no connection to formal organizations Ultimately Michael suggests that leaderless resistance has become the most common tactical approach of political terrorists in the West and elsewhere

Right here, we have countless books **New Jackals** and collections to check out. We additionally manage to pay for variant types and then type of the books to browse. The normal book, fiction, history, novel, scientific research, as capably as various supplementary sorts of books are readily open here.

As this New Jackals, it ends happening subconscious one of the favored ebook New Jackals collections that we have. This is why you remain in the best website to see the unbelievable book to have.

New Jackals Introduction

In the digital age, access to information has become easier than ever before. The ability to download New Jackals has revolutionized the way we consume written content. Whether you are a student looking for course material, an avid reader searching for your next favorite book, or a professional seeking research papers, the option to download New Jackals has opened up a world of possibilities. Downloading New Jackals provides numerous advantages over physical copies of books and documents. Firstly, it is incredibly convenient. Gone are the days of carrying around heavy textbooks or bulky folders filled with papers. With the click of a button, you can gain immediate access to valuable resources on any device. This convenience allows for efficient studying, researching, and reading on the go. Moreover, the cost-effective nature of downloading New Jackals has democratized knowledge. Traditional books and academic journals can be expensive, making it difficult for individuals with limited financial resources to access information. By offering free PDF downloads, publishers and authors are enabling a wider audience to benefit from their work. This inclusivity promotes equal opportunities for learning and personal growth. There are numerous websites and platforms where individuals can download New Jackals. These websites range from academic databases offering research papers and journals to online libraries with an expansive collection of books from various genres. Many authors and publishers also upload their work to specific websites, granting readers access to their content without any charge. These platforms not only provide access to existing literature but also serve as an excellent platform for undiscovered authors to share their work with the world. However, it is essential to be cautious while downloading New Jackals. Some websites may offer pirated or illegally obtained copies of copyrighted material. Engaging in such activities not only violates copyright laws but also undermines the efforts of authors, publishers, and researchers. To ensure ethical downloading, it is advisable to utilize reputable websites that prioritize the legal distribution of content. When downloading New Jackals, users should also consider the potential security risks associated with online platforms. Malicious actors may exploit vulnerabilities in unprotected websites to distribute malware or steal personal information. To protect themselves, individuals should ensure their devices have reliable antivirus software installed and validate the legitimacy of the websites they are downloading from. In conclusion, the ability to download New Jackals has transformed the way we access information. With the convenience, cost-effectiveness, and accessibility it offers, free PDF downloads have become a popular choice for students, researchers, and book lovers worldwide. However, it is crucial to engage in ethical downloading practices and prioritize personal security when utilizing online platforms. By doing so,

individuals can make the most of the vast array of free PDF resources available and embark on a journey of continuous learning and intellectual growth.

FAQs About New Jackals Books

What is a New Jackals PDF? A PDF (Portable Document Format) is a file format developed by Adobe that preserves the layout and formatting of a document, regardless of the software, hardware, or operating system used to view or print it. **How do I create a New Jackals PDF?** There are several ways to create a PDF: Use software like Adobe Acrobat, Microsoft Word, or Google Docs, which often have built-in PDF creation tools. Print to PDF: Many applications and operating systems have a "Print to PDF" option that allows you to save a document as a PDF file instead of printing it on paper. Online converters: There are various online tools that can convert different file types to PDF. **How do I edit a New Jackals PDF?** Editing a PDF can be done with software like Adobe Acrobat, which allows direct editing of text, images, and other elements within the PDF. Some free tools, like PDFescape or Smallpdf, also offer basic editing capabilities. **How do I convert a New Jackals PDF to another file format?** There are multiple ways to convert a PDF to another format: Use online converters like Smallpdf, Zamzar, or Adobe Acrobats export feature to convert PDFs to formats like Word, Excel, JPEG, etc. Software like Adobe Acrobat, Microsoft Word, or other PDF editors may have options to export or save PDFs in different formats. **How do I password-protect a New Jackals PDF?** Most PDF editing software allows you to add password protection. In Adobe Acrobat, for instance, you can go to "File" -> "Properties" -> "Security" to set a password to restrict access or editing capabilities. Are there any free alternatives to Adobe Acrobat for working with PDFs? Yes, there are many free alternatives for working with PDFs, such as: LibreOffice: Offers PDF editing features. PDFsam: Allows splitting, merging, and editing PDFs. Foxit Reader: Provides basic PDF viewing and editing capabilities. How do I compress a PDF file? You can use online tools like Smallpdf, ILovePDF, or desktop software like Adobe Acrobat to compress PDF files without significant quality loss. Compression reduces the file size, making it easier to share and download. Can I fill out forms in a PDF file? Yes, most PDF viewers/editors like Adobe Acrobat, Preview (on Mac), or various online tools allow you to fill out forms in PDF files by selecting text fields and entering information. Are there any restrictions when working with PDFs? Some PDFs might have restrictions set by their creator, such as password protection, editing restrictions, or print restrictions. Breaking these restrictions might require specific software or tools, which may or may not be legal depending on the circumstances and local laws.
