New Jersey Architecture:

The Architecture of Bergen County, New Jersey T. Robins Brown, Schuyler Warmflash, 2000 The Architecture of Bergen County New Jersey presents an accessible overview of the county's architectural heritage and its historic structures. The volume explores the styles, trends, and events that influenced the design and setting of the region's buildings. More than 150 photos document Bergen County's architectural treasures, generating awareness and appreciation for these structures and their history. The Architecture of Bergen County New Jersey demonstrates the close association between architectural development at the national and local levels and shows how social, technological, and political changes occurring within the county have been reflected in the building types and styles of the area.

Building by the Book Robert P. Guter, Janet W. Foster, 1992 Books and popular periodicals shaped New Jersey's built landscape from the colonial era to the advent of World War II. Although it presents a wealth of Gothic cottages, Italianate villas, Craftsman bungalows, and Sears ready cuts, *Building by the Book* is far more than a catalog of architectural styles. By relating the work of architects and pattern book authors to the experiences of ordinary people who hungered for beautiful surroundings, Guter and Foster assess the impact of these publications on the built environment.

State-By-State Guide to Architect, Engineer, and Contractor Licensing Richard A. Holderness, Walker, Stephen D. Butler, Stephen G. Turn to the resource that provides comprehensive guidance on the architecture, engineering, and contractor license laws for all 50 states and the District of Columbia. *State by State Guide to Architect, Engineer, and Contractor Licensing* gathers all of the vital information you need in one convenient source to help you develop a cost-effective compliance strategy. With *State by State Guide to Architect, Engineer, and Contractor Licensing*, practitioners will be prepared to handle virtually any state licensing question, including: Is a license required for the design or construction work that is going to be performed? Is a license required before the bid or proposal is submitted? What are the special licensing requirements for partnerships or corporations? Is a seal for stamping drawings required of design professionals? If so, which design documents must be stamped? Is a license necessary when bidding for work? Who in the organization must stamp these documents? What are the penalties if the license is not received on time? If an agent is managing the construction for an owner, must he obtain a license?
