Pain Death And The Law:

Pain, Death, and the Law Austin Sarat, 2009-09-11 This collection of essays examines the relationship between pain death and the law and addresses the question of how the law constructs pain and death as jurisprudential facts The empirical focus of these essays enables the reader to delve into both the history and the theoretical complexities of the pain death law relationship The combination of the theoretical and the empirical broadens the contribution this volume will undoubtedly make to debates in which the right to live or die is the core issue at hand This volume will be an important read for policy makers and legal practitioners and a valuable text for courses in law the social sciences and the humanities Austin Sarat is William Nelson Cromwell Professor of Jurisprudence and Political Science Amherst College *The Routledge Handbook of Law and Death* Marc Trabsky, Imogen Jones, 2024-10-01 The Routledge Handbook of Law and Death provides a comprehensive survey of contemporary scholarship on the intersections of law and death in the 21st century It showcases how socio legal scholars have contributed to the critical turn in death studies and how the sociology of death has impacted upon the discipline of law In bringing together prominent academics and emerging experts from a diverse range of disciplines the Handbook shows how far from shunning questions of mortality legal institutions incessantly talk about death Touching upon the epistemologies and materialities of death and problems of contested deaths and posthumous harms the Handbook questions what is distinctive about the disciplinary alignment of law and death how law regulates and manages death in the everyday and how thinking with law can enrich our understandings of the presence of death in our lives In a time when the world is facing global inequalities in living and dying and legal institutions are increasingly interrogating their relationships to death this Handbook makes for essential reading for scholars students and practitioners in law humanities and the social sciences

In the Moment of Greatest Calamity Susan F. Hirsch, 2021-06-08 On August 7 1998 bombs exploded at two United States embassies in East Africa American anthropologist Susan Hirsch and her husband Jamal a Kenyan were among the thousands of victims and Jamal died From there Hirsch went on to face devastating grief with the help of friends and families on two continents observing the mourning rituals of her husband's community to honor him When the alleged bombers were captured and sent to New York to stand trial she witnessed firsthand the attempts of America's criminal justice system to handle terrorism through the law In the Moment of Greatest Calamity is her story a tale told on many levels personal anthropological legal and finally political The book's central chapters describe Hirsch's experience of the bombing trials in a Manhattan federal court in 2001 including a behind the scenes look at the investigation leading up to the trial encounters with some of the FBI's leading terrorism investigators and many moments of drama from the proceedings themselves Hirsch reveals the inner conflict that results from her opposition to the death penalty and concludes that the trial was both flawed and indispensable Hirsch's story of this tragedy and its legal aftermath comes to life through and is enhanced by her skills as a social scientist Her unique viewpoint makes it unlike any other story about terrorism

Knowing the Suffering of Others Austin Sarat, 2014-07-14 In *Knowing the Suffering of Others* legal scholar Austin Sarat brings together essays that address suffering as it relates to the law highlighting the ways law imagines suffering and how pain and suffering become jurisprudential facts From fetal imaging to end of life decisions torts to international human rights domestic violence to torture and the law of war to victim impact statements the law is awash in epistemological and ethical problems associated with knowing and imagining suffering In each of these domains we might ask How well do legal actors perceive and understand suffering in such varied domains of legal life What problems of representation and interpretation bedevil efforts to grasp the suffering of others What historical political literary cultural and or theological resources can legal actors and citizens draw on to understand the suffering of others In *Knowing the Suffering of Others* Austin Sarat presents legal scholarship that explores these questions and puts the problem of suffering at the center of thinking about law The contributors to this volume do not regard pain and suffering as objective facts of a universe remote from law rather they examine how both are discursively constructed in and by law They examine how pain and suffering help construct and give meaning to the law as we know it The authors attend to the various ways suffering appears in law as well as the different forms of suffering that require the law's attention Throughout this book law is regarded as a domain in which the meanings of pain and suffering are contested and constituted as well as an instrument for inflicting suffering or for providing or refusing its relief It challenges scholars lawyers students and policymakers to ask how various legal actors and audiences understand the suffering of others Contributors Montr D Carodine Cathy Caruth Alan L Durham Bryan K Fair Steven H Hobbs Gregory C Keating Linda Ross Meyer Meredith M Render Jeannie Suk John Fabian Witt *Pain, Penance, and Protest* Sara M. Butler, 2021-11-18 In medieval England a defendant who refused to plead to a criminal indictment was sentenced to pressing with weights as a coercive measure Using *peine forte et dure* strong and hard punishment as a lens through which to analyse the law and its relationship with Christianity Butler asks where do we draw the line between punishment and penance And how can pain function as a vehicle for redemption within the common law Adopting a multidisciplinary approach this book embraces both law and literature When Christ is on trial before Herod he refused to plead his silence signalling denial of the court's authority England's discontented subjects from hungry peasant to even King Charles I himself stood mute before the courts in protest Bringing together penance pain and protest Butler breaks down the mythology surrounding *peine forte et dure* and examines how it functioned within the medieval criminal justice system

When the State Kills Austin Sarat,2018-06-05 Is capital punishment just Does it deter people from murder What is the risk that we will execute innocent people These are the usual questions at the heart of the increasingly heated debate about capital punishment in America In this bold and impassioned book Austin Sarat seeks to change the terms of that debate Capital punishment must be stopped Sarat argues because it undermines our democratic society Sarat unflinchingly exposes us to the realities of state killing He examines its foundations in ideas about revenge and retribution He takes us inside the courtroom of a capital trial interviews jurors and lawyers who make decisions about life and death and assesses the arguments swirling around Timothy McVeigh and his trial for the bombing in Oklahoma City Aided by a series of unsettling color photographs he traces Americans evolving quest for new methods of execution and explores the place of capital punishment in popular culture by examining such films as *Dead Man Walking* *The Last Dance* and *The Green Mile* Sarat argues that state executions once used by monarchs as symbolic displays of power gained acceptance among Americans as a sign of the people s sovereignty Yet today when the state kills it does so in a bureaucratic procedure hidden from view and for which no one in particular takes responsibility He uncovers the forces that sustain America s killing culture including overheated political rhetoric racial prejudice and the desire for a world without moral ambiguity Capital punishment Sarat shows ultimately leaves Americans more divided hostile indifferent to life s complexities and much further from solving the nation s ills In short it leaves us with an impoverished democracy The book s powerful and sobering conclusions point to a new abolitionist politics in which capital punishment should be banned not only on ethical grounds but also for what it does to Americans and what we cherish

The Modern Art of Dying Shai J. Lavi,2009-01-10 How we die reveals much about how we live In this provocative book Shai Lavi traces the history of euthanasia in the United States to show how changing attitudes toward death reflect new and troubling ways of experiencing pain hope and freedom Lavi begins with the historical meaning of euthanasia as signifying an

easeful death Over time he shows the term came to mean a death blessed by the grace of God and later medical hastening of death Lavi illustrates these changes with compelling accounts of changes at the deathbed He takes us from early nineteenth century deathbeds governed by religion through the medicalization of death with the physician presiding over the deathbed to the legalization of physician assisted suicide Unlike previous books which have focused on law and technique as explanations for the rise of euthanasia this book asks why law and technique have come to play such a central role in the way we die What is at stake in the modern way of dying is not human progress but rather a fundamental change in the way we experience life in the face of death Lavi argues In attempting to gain control over death he maintains we may unintentionally have ceded control to policy makers and bio scientific enterprises Health Care Ethics and the Law Donna K. Hammaker, Thomas M. Knadig, Jonathan D. Gombert, 2022-11-28 Health Care Ethics and the Law bridges research and practice reflecting real world knowledge of the health industry and government agencies It covers basic ethical principles and practical applications of ethics and the law in the world of health care delivery and practice *Edinburgh Companion to the Critical Medical Humanities* Anne Whitehead, 2016-06-14 In this landmark Companion expert contributors from around the world map out the field of the critical medical humanities This is the first volume to introduce comprehensively the ways in which interdisciplinary thinking across the humanities and social sciences might contribute to critique and develop medical understanding of the human individually and collectively The thirty six newly commissioned chapters range widely within and across disciplinary fields always alert to the intersections between medicine as broadly defined and critical thinking Each chapter offers suggestions for further reading on the issues raised and each section concludes with an Afterword written by a leading critic outlining future possibilities for cutting edge work in this area Topics covered in this volume include the affective body biomedicine blindness breath disability early modern medical practice fatness the genome language madness narrative race systems biology performance the postcolonial public health touch twins voice and wonder Together the chapters generate a body of new knowledge and make a decisive intervention into how health medicine and clinical care might address questions of individual subjective and embodied experience **A New Law-Dictionary ... Teaching What We Do Richard Todd,Douglas C. Wilson,1992-12-07 What goes on in a college classroom For all that has been written in recent years about higher education very little attention has been paid to the heart of the matter teaching This book by members of the Amherst College faculty helps to repair that oversight Amherst in defining itself places a large emphasis as it should on the life of the classroom No faculty member no matter how senior is excused from teaching no cadre of graduate students shoulders the load of introductory courses To teach is the central mission of an Amherst professor But seldom the only mission Almost everyone who teaches at Amherst also pursues research Maintaining the balance is sometimes frustrating but more often nourishing and exhilarating In his foreword Peter R Pouncey speaks of the way in which teaching and research cross fertilize each other He writes of the rejuvenating invitation of the classroom to confront the mild curiosity of the good natured young and see it rise in the face of your own interests and insistences first to eagerness and then to the sort of passion you remember and hope to sustain in yourself Again and again these essays by artist historian critic and scientist demonstrate that the pleasures and challenges of the classroom are inexhaustible And they provide us with glimpses of the true importance of the work that is done there As Professor Benjamin DeMott writes in a successful class the student is free to develop a thought to work up its implications to be unhurriedly serious about serious things in the company of attentive others At a time when the academy is under fire from various sides the reader will emerge from this book informed and heartened by its vision of the possibilities for higher education
