Media Ownership and Concentration in America Eli M. Noam,2009-10-19 People have worried for many years about the concentration of private power over the media as evidenced by controversy over Federal Communication Commission rulings on broadcast ownership limits The fear it seems is of a media mogul with a political agenda a new William Randolph Hearst who could help start wars or run for political office using the power of the media In the light of these concerns about freedom of speech Eli Noam provides a comprehensive survey of media concentration in America covering everything from the early media empire of Benjamin Franklin to the modern day cellular phone industry *Play: A Theory of Learning and Change* Tara Brabazon,2015-12-12 This book examines the question of why play is a happy and benevolent verb in childhood yet a subjective label of behaviour in adulthood It studies the transformation of the positively labelled term child s play used to refer to our early years into an aberrance or deviation from normal social relationships in later life when we speak of playing up or playing around It answers the question by proposing play as a theory of learning an ideology that circumscribes behaviour and a way of thinking Written by scholars of early childhood through to further and higher education the book presents research on play enacted in a way that arches beyond the specificity of age groups or predictive normative patterns It is international in its focus moving beyond insular inward and parochial educational standards and limitations in one city

province state or nation Finally it demonstrates the value of play to educational policy and theories of learning
