Profane Christopher S. Grenda, 2014-08-15 Humans have been uttering profane words and incurring the consequences for millennia But contemporary events from the violence in 2006 that followed Danish newspaper cartoons depicting the Prophet Mohammed to the 2012 furor over the Innocence of Muslims video indicate that controversy concerning blasphemy has reemerged in explosive transnational form In an age when electronic media transmit offense as rapidly as profane images and texts can be produced blasphemy is bracingly relevant again In this volume a distinguished cast of international scholars examines the profound difficulties blasphemy raises for modern societies Contributors examine how the sacred is formed and maintained how sacrilegious expression is conceived and regulated and how the resulting conflicts resist easy adjudication Their studies range across art history politics law literature and theology Because of the global nature of the problem the volume's approach is comparative examining blasphemy across cultural and geopolitical boundaries Lives of the Novelists Carl Rollyson, 2005-10 Is there a right way to write a literary life In this collection of columns from the New York Sun Carl Rollyson explores the relationship between narrative and literary analysis Should biographies be written in the style and form of novels How to balance the life and the work How much literary criticism can a biography absorb into its narrative Rollyson proposes a number of apologies for biography including the thought that in the right hands the literary biography is a continuation not only of the writer's work and life In such instances there seems to be a symbiosis between biographer and subject In other cases biographies spearhead the rediscovery of important writers He rejects the idea that literary figures are not good subjects for biography because they are not men and women of action That literary biography is a kind of strip mining a pathography laying bare the subject's life to no good purpose is another canard this book demolishes The pieces here also expose the genre's weak points a proclivity for overstatement and excessive length the failure of biographers to build upon their predecessors work Rollyson invents a term biographology in order to discuss the biographical tradition **Dancing in the Dark: A Cultural History of the Great Depression** Morris Dickstein, 2010-09-06 From Agee to Axtell Steinbeck to Ellington the creative energies of the Depression against a backdrop of poverty and economic disaster In this timely and long awaited cultural history of the 1930s Morris Dickstein whom Norman Mailer called one of our best

and most distinguished critics of American literature explores the anxiety and hope the despair and surprising optimism of distressed Americans at a time of dire economic dislocation Bringing together a staggering range of materials from epic Dust Bowl migrations and sharecropper photographs to zany screwball comedies wildly popular swing bands and streamlined Deco designs this eloquent work highlights the pivotal role of culture and government intervention in hard times Exploding the myth that Depression culture was merely escapist it concentrates instead on the dynamic energy and insight the arts could provide and the enormous lift they gave to the nation s morale Dancing in the Dark shows how our worst economic crisis as it eroded American individualism and punctured the American dream produced some of the greatest writing photography and mass entertainment ever seen in this country

American Biography Carl Rollyson,2006-02-22 This collection of reviews selected from Rollyson s New York Sun column is as much about the romance of biography as it is about the American lives Certain concerns resonate throughout the book the American left s failure to reckon with Communist subversion McCarthyism and Stalinism the problematic nature of authorized biography the history of American biography definitive biographies literary biography the differences between autobiography and biography the importance of interviews in biographies of contemporary figures the differences between history and biography comparative biographies the virtues of short biographies and of biographies for children the tendency of biographers to fictionalize and of novelists to

biographize psychology and biography Rollyson's own experience as a biographer and the way biographers treat one another's work Too many biographers he believes evince no interest in the biographical tradition Concerned only with possession of their subjects their proprietorial attitude deforms not only their biographies but also the genre itself If biography is reviewed badly receiving hardly more than a summary of the subject's life with a perfunctory nod to the biographer it is because the biographical tradition has been disregarded or discounted This book in other words has been written on the behalf of biography a genre that still awaits a full vindication
