Understanding Scripture Robert P. Vande Kappelle, 2020-12-16 The Bible is the single most important book in the history of Western civilization it is also the most widely misunderstood To understand the Bible we must consider its historical and literary context Utilizing the contributions of three disciplines biblical introduction biblical theology and biblical interpretation Understanding Scripture sets the record straight Intended as a handbook or study guide this work provides forty practical guidelines to make your reading of the Bible more useful and your understanding clearer The goal of this book is not simply to persuade you to read the Bible more frequently but to encourage you to read it with discernment The forty concepts alluded to in the book's subtitle are not factual in nature meaning they are little concerned with biblical information Rather they comprise interpretive tools insider techniques used by biblical scholars but widely unknown or ignored by average readers or believers Parabolic in nature the forty statements are designed to promote conversation rather than close or clinch an argument This book is designed to keep you awake at night romancing Scripture rather than mastering it nourishing your spirituality rather than gorging or starving it Understanding Scripture is useful for individual or group study Each chapter concludes with questions suitable for discussion or reflection

The American Novel of War Wallis R. Sanborn, III, 2012-10-30 In song verse narrative and dramatic form war literature has existed for nearly all of recorded history Accounts of war continue to occupy American bestseller lists and the stacks of American libraries This innovative work establishes the American novel of war as its own sub genre within American war literature creating standards by which such works can be classified and

critically and popularly analyzed Each chapter identifies a defining characteristic analyzes existing criticism and explores the characteristic in American war novels of record Topics include violence war rhetoric the death of noncombatants and terrain as an enemy

American Fiction in Transition Adam Kelly, 2013-04-25 American Fiction in Transition is a study of the observer hero narrative a highly significant but critically neglected genre of the American novel Through the lens of this transitional genre the book explores the 1990s in relation to debates about the end of postmodernism and connects the decade to other transitional periods in US literature Novels by four major contemporary writers are examined Philip Roth Paul Auster E L Doctorow and Jeffrey Eugenides Each novel has a similar structure an observer narrator tells the story of an important person in his life who has died But each story is equally about the struggle to tell the story to find adequate means to narrate the transitional quality of the hero's life In playing out this narrative struggle each novel thereby addresses the broader problem of historical transition a problem that marks the legacy of the postmodern era in American literature and culture

Curating and Re-Curating the American Wars in Vietnam and Iraq Christine Sylvester, 2019-03-04 We have long saved and curated objects from wars to commemorate the war experience These objects appear at national museums and memorials and in war novels and memoirs Through them we institutionalize narratives and memories of national identity power and purpose This book asks whose vantage points on the American wars in Vietnam and Iraq are available and where for public consumption it also considers whose war experiences are not represented are minimized or ignored in ways that advantage contemporary militarism In looking at how professional curators ordinary civilian curators and veteran and civilian writers exhibit the American wars in Vietnam and Iraq Sylvester shows that war authority is widely dispersed and nonconsensual By looking beyond official renditions of a war scholars policymakers and other citizens are able to grasp war as a violent rather than abstractly heroic mode of politics

Securing Life Robert P. Vande Kappelle, 2016-06-02 *Securing Life* represents a novel yet timely approach to reading and understanding the Bible While reverence for the Bible and respect for its authority remain high in our society biblical illiteracy misinterpretation and selective reading place us at risk The Bible seems to have a conserving effect on conservative readers a moderating effect on moderate readers and a liberating effect on liberal readers Do biblical texts contain conserving and liberating messages simultaneously Should biblical texts be limited to specific meaning and perspective acceptable by all or do they contain multiple levels of meaning While this book addresses these questions it does not approach the Bible as an answer book but rather as a collection of books multifaceted in nature its enduring purpose being to provide us with perspective for living faithfully and fully through the stages and seasons of our lives in harmony with God nature others and self Rather than starting chronologically with creation followed by accounts of the patriarchs the exodus the conquest and the monarchy this book follows a compositional approach used by the Yahwist an unknown author in Judea who composed Israel's first religious epic Like the Yahwist this book moves backward from Covenant through Community to Creation but because it includes the New Testament it moves forward to New Covenant

through New Community to New Creation A chapter is devoted to each topic These motifs are preceded by five preparatory chapters three dealing with introductory matters one with biblical theology the doctrine of God and one with biblical anthropology the doctrines of sin and salvation Utilizing the contributions of three disciplines biblical introduction biblical theology and biblical interpretation Dr Vande Kappelle demonstrates that the Bible like religion in general has both a conserving and liberating effect providing perspective for formation and for transformation

The Grand Finale Anton Wessels, 2020-07-13 We often hear that we are living in apocalyptic times Wars like those in the Middle East are just more signs that the end is near That however is a misunderstanding of the message of the Bible and the Qur an The basic meaning of apocalypse is disclosure revelation bringing to light what is happening now and what has happened throughout all of history The apocalypse is not about making predictions about the future but about determining who bears responsibility for injustice in the world In that sense all times including ours are apocalyptic though in a different way than what is usually thought Since the devastating Greek conquest of the world by Alexander the Great there have been apocalyptic insights and revelatory readings of the whole Hebrew Bible The same is true of the New Testament with Rome as the world power then The same apocalyptic message is confirmed by the Qur an when the Byzantines and the Persians fought for mastery of the world The apocalyptic message is that God will put an end to the unjust dominion of violence money and lies God s kingdom will certainly arrive but not through violence after all there is no violence in God Diognetus

Pynchon and History Shawn Smith, 2013-11-05 First Published in 2005 While many previous books on Pynchon allude to his fictional engagement with historical events and figures this book explores Pynchon as a historical novelist and by extension historical thinker The book interprets Pynchon s four major novels V Gravity s Rainbow Vineland and Mason Dixon through the prism of historical interpretation and representation In doing so it argues that Pynchon s innovative narrative techniques express his philosophy of history and historical representation through the form of his texts

Christian Fundamentalism and the Culture of Disenchantment Paul Maltby, 2013-02-05 Within the familiar clash of religious conservatism and secular liberalism Paul Maltby finds a deeper discord an antipathy between Christian fundamentalism and the postmodern culture of disenchantment Arguing that each camp represents the poles of America s virulent culture wars he shows how the cultural identity lifestyle and political commitments of many Americans match either the fundamentalist profile of one who cleaves to metaphysical and authoritarian beliefs or the postmodern profile of one who is disposed to critical inquiry and radical democratic values Maltby offers a critique that operates in both directions His use of the resources of postmodern theory to contest fundamentalism s doctrinal claims ultra right politics anti environmentalism and conservative aesthetics informs his engagement with contemporary fundamentalist painting spiritual warfare fiction dominionist attitudes to nature and a profoundly undemocratic interpretation of Christianity At the same time Maltby identifies some of fundamentalism s legitimate spiritual concerns assesses the cost of perpetual critique and exposes the deficit of spiritual meaning that haunts

the culture of disenchantment Tragic Novels, René Girard and the American Dream Carly Osborn, 2020-05-14 This book draws on the philosopher René Girard to argue that three twentieth century American novels Jeffrey Eugenides's *The Virgin Suicides* Rick Moody's *The Ice Storm* and Richard Yates's *Revolutionary Road* are tragedies Until now Girardian literary analysis has generally focused on representations of human desire in texts and neglected both other emotions and the place of tragedy Carly Osborn addresses these omissions by using Girardian theory to present evidence that novels can indeed be tragedies The book advances the scholarship of tragedy that has run from Aristotle to Nietzsche to Terry Eagleton proposing a new way to read modern novels through ancient traditions In addition this is the first work to examine the place of women as victims or in Girardian terms scapegoats in twentieth century fiction specifically by considering the representation of women's bodies and ambivalence about their identities In deploying a rich and vivid array of tragic tropes *The Virgin Suicides* *The Ice Storm* and *Revolutionary Road* participate in a deep rooted American tragic tradition *Tragic Novels the American Dream and René Girard* will be of interest to those working at the intersection of philosophy and literature as well as Girard specialists The Hero and the Victim Gregory Brazeal, 2024-10-08 How American fiction represents soldiers and soldier criminality in depictions of the Iraq War Monsters and Monstrosity Daniela Carpi, 2019-06-17 Every culture knows the phenomenon of monsters terrifying creatures that represent complete alterity and challenge every basic notion of self and identity within a cultural paradigm In Latin and Greek culture the monster was created as a marvel appearing as something which like transgression itself did not belong to the assumed natural order of things Therefore it could only be created by a divinity responsible for its creation composition goals and stability but it was triggered by some in or non human action performed by humans The identification of something as monstrous denotes its place outside and beyond social norms and values The monster evoking transgression is most often indistinguishable from reactions to the experience of otherness merging the limits of humanity with the limits of a given culture The topic entails a large intersection among the cultural domains of law literature philosophy anthropology and technology Monstrosity has indeed become a necessary condition of our existence in the 21st century it serves as a representation of change itself In the process of analysis there are three theoretical approaches psychoanalytical representational ontological The volume therefore aims at examining the concept of monstrosity from three main perspectives technophobic xenophobic superdiversity Today's globalized world is shaped in the unprecedented phenomenon of international migration The resistance to this phenomenon causes the demonization of the Other seen as the antagonist and the monster The monster becomes therefore the ethnic Other the alien To reach this new perspective on monstrosity we must start by examining the many facets of monstrosity also diachronically from the philological origin of the term to the Roman and classical viewpoint from the Renaissance medical perspective to the religious background from the new filmic exploitations in the 20th and 21st centuries to the very recent ethnological and anthropological points of view to the latest technological perspective dealing with artificial intelligence

Building a Republican Nation in Vietnam, 1920-1963 Nu-Anh Tran, Tuong Vu, 2022-12-31 Western observers have long considered communism to be synonymous with Vietnam's modern historical experience Eager to make sense of the North Vietnamese victory in the Vietnam War scholars and journalists have spilled much ink on the history of Vietnamese communists But this preoccupation has obscured the diversity of ideas and experiences that defined Vietnam in the twentieth century in which communism represented just one of many tendencies Building a Republican Nation in Vietnam 1920 1963

posits that republicanism shaped modern Vietnam no less profoundly than communism. Republicans championed representative government, the universal rights of man, civil liberties, and the primacy of the nation. These ideas infused the thinking of Vietnamese reformers, dissidents, and revolutionaries from the 1900s onward, including many men and women who went on to lead the struggle for independence. Republicanism was also one of the chief inspirations for the establishment of the Republic of Vietnam, also known as South Vietnam, in 1955. This interdisciplinary volume brings together eleven essays by historians, political scientists, literary scholars, and sociologists who make use of fresh sources to study the development of republicanism from the colonial period to the First Republic of Vietnam, 1955–1963. The introduction by coeditors Nu Anh Tran and Tuong Vu critically analyzes the existing scholarship on the First Republic, explains how the concept of republicanism can illuminate developments in the Saigon-based state, and situates the regime in a comparative context with South Korea. Peter Zinoman's chapter reviews the historiography on republicanism and modern Vietnam and heralds the arrival of the republican moment in the field of Vietnam studies. Several chapters by Nguyen L ng H i Kh i, Martina Thucnhi Nguyen, and Yen Vu examine the transformation of republican ideas. Nu Anh Tran and Duy Lap Nguyen explore competing concepts of democracy and the factional politics of the First Republic. The essays by Jason Picard, Cindy Nguyen, Ho ng Phong Tu n, Nguyen Th Minh, and Y Thien Nguyen analyze nation and state building efforts in the 1950s and 1960s. Collectively, the essays give voice to Vietnamese republicans, from the ideas they espoused to the institutions they built and the legacies they left behind.

Living Water Robert P. Vande Kappelle, 2022-10-27. Everyone loves a good story, one with interesting characters, an intriguing plot, lots of twists and turns, and a surprise ending. Jesus was a master storyteller, teaching primarily through a technique we call parables. In fact, over one-third of the gospel material in the New Testament is parabolic in nature. Examining the parables of Jesus, *Living Water* views parables as a wisdom genre belonging to the Jewish tradition of sacred poetry, stories, proverbs, riddles, and dialogues through which wisdom is conveyed. In the Hebrew Bible, the Old Testament, *mashal* is often associated with perplexing sayings for its meaning is deliberately obscured in order to force the reader or listener to deeper thought and higher consciousness. While examining the parables of Jesus, *Living Water* focuses not so much on traditional explanations and interpretations but on their paradoxical and perplexing nature. In addition, this book encourages us to take a parabolic approach to all Scripture, viewing it as an aid to help us move from egoic existence to unitive existence. This Spirit-led way of living, thinking, and being requires a transformation from our False Self to our True Self, from dualist self-obsession to nondualist consciousness, characterized by risk-taking, compassion, generosity, availability, and joy, a path charted by the parables of Jesus. Benefitting from recent scholarly research, *Living Water* is unique in content and conception and is useful for individual or group study. Each chapter concludes with questions suitable for discussion or reflection.
