Decision Making and Change in Human Affairs H. Jungermann, G. De Zeeuw, 2012-12-06 It is only just recently that people have the tools to judge how well they are doing when making decisions These tools were conceptualized in the seventeenth century Since then many people have worked to sharpen the concepts and to explore how these can be applied further The problems of decision making and the theory developed correspondingly have drawn the interest of mathematicians psychologists statisticians economists philosophers organizational experts sociologists not only for their general relevance but also for a more intrinsic fascination There are quite a few institutionalized activities to disseminate results and stimulate research in decision making For about a decade now a European organizational structure centered mainly around the psychological interest in decision making There have been conferences in Hamburg Amsterdam Uxbridge Rome and Darmstadt Conference papers have been partly published The organization has thus stabilized and its relatively long history makes it interesting to see what kind of developments occurred within the area of interest

The Making of Religion Andrew Lang, 2019-12-04 In *The Making of Religion* Andrew Lang embarks on a scholarly exploration of the origins and evolution of religious beliefs and practices This nuanced work combines ethnographic observations with a historical lens presenting religion as a complex tapestry woven from human experience cultural exchange and societal needs Lang employs a comparative method to analyze various religions emphasizing their similarities and divergences within a framework that is both accessible and intellectually rigorous His prose reflects a Victorian sensibility blending literary finesse with meticulous research making the book both an engaging narrative and an academic resource Andrew Lang a prominent Scottish poet and anthropologist delved into the intersection of folklore and religion throughout his prolific career As a member of the early anthropology movement his interest in mythology and beliefs was deepened by his scholarly pursuits and personal travels Lang's involvement in collecting folk tales and his understanding of cultural anthropology inform this work as he seeks to untangle the threads of human belief and ritualistic behavior that shape societal norms across different civilizations For readers intrigued by the foundations of belief systems and the human propensity for spiritual expression *The Making of Religion* is an essential text Lang's comprehensive approach invites the reader to ponder profound questions about faith culture and the shared narratives that bind humanity This book is highly recommended for both scholars and general readers eager to gain insight into the transformative power of religion In this enriched edition we have carefully created added value for your reading experience A succinct Introduction situates the work's timeless appeal and themes The Synopsis outlines the central plot highlighting key developments without spoiling critical twists A detailed Historical Context immerses you in the era's events and influences that shaped the writing A thorough Analysis dissects symbols motifs and character arcs to unearth underlying meanings Reflection questions prompt you to engage personally with the work's messages connecting

 Willie James Jennings, 2010-05-25 Why has Christianity a religion premised upon neighborly love failed in its attempts to heal
 social divisions In this ambitious and wide ranging work Willie James Jennings delves deep into the late medieval soil in
 which the modern Christian imagination grew to reveal how Christianity s highly refined process of socialization has
 inadvertently created and maintained segregated societies A probing study of the cultural fragmentation social spatial and
 racial that took root in the Western mind this book shows how Christianity has consistently forged Christian nations rather
 than encouraging genuine communion between disparate groups and individuals Weaving together the stories of Zurara the
 royal chronicler of Prince Henry the Jesuit theologian Jose de Acosta the famed Anglican Bishop John William Colenso and
 the former slave writer Olaudah Equiano Jennings narrates a tale of loss forgetfulness and missed opportunities for the
 transformation of Christian communities Touching on issues of slavery geography Native American history Jewish Christian
 relations literacy and translation he brilliantly exposes how the loss of land and the supersessionist ideas behind the
 Christian missionary movement are both deeply implicated in the invention of race Using his bold creative and courageous
 critique to imagine a truly cosmopolitan citizenship that transcends geopolitical nationalist ethnic and racial boundaries
 Jennings charts with great vision new ways of imagining ourselves our communities and the landscapes we inhabit The
Ways That Never Parted Adam H. Becker, Annette Yoshiko Reed, The first paperback edition of the hardcover published by
 Mohr Siebeck in 2003 Startling state of the art essays on Jewish Christian relations in antiquity Includes a new preface by
 the editors discussing scholarships since 2003 **Religion** David Chidester, 2018-04-20 Religion Material Dynamics is a
 lively resource for thinking about religious materiality and the material study of religion Deconstructing and reconstructing
 religion as material categories social formations and mobile circulations the book explores the making ordering and
 circulating of religious things The book is divided into three sections Part One revitalizes basic categories animism and
 sacred space and time by situating them in their material production and testing their analytical viability Part Two examines
 religious formations as configurations of power that operate in material cultures and cultural economies and are most clearly
 shown in the power relations of colonialism and imperialism Part Three explores the material dynamics of circulation through
 case studies of religious mobility change and diffusion as intimate as the body and as vast as the oceans Each chapter offers
 insightful orientations and surprising possibilities for studying material religion Exploring the material dynamics of religion

from poetics to politics David Chidester provides an entry into the study of material religion that will be welcomed by students and specialists in religious studies anthropology and history

NEW ENTRY IN THE NATIONALLY BEST SELLING LIADEN UNIVERSE SERIES Sequel to national bestseller The Gathering Edge Menace from Back Space Looming out of the Dust of Time The Complex Logic Laws were the result of a war waged hundreds of years in the past when two human powers threw massive AI navies at each other and nearly annihilated themselves Being human they blamed their tools for this near miss they destroyed what was left of the sentient ships and made it illegal to manufacture or shelter an independent logic Strangely however the Free Ships and other AIs did not turn themselves in or suicide they merely became wary of humans and stayed under their scans A clandestine support network grew up including hidden yards where smart ships were manufactured and mentors humans specially trained to ease a new intelligence into the universe socialized them and taught them what they needed to know to survive Among those with a stake in the freedom of Independent Logics is Theo Waitley who is somewhat too famously the captain of intelligent ship Bechimo Theo's brother Val Con yos Phelium presides over a household that has for a generation employed an AI butler Recently he approved the birth of the butler's child who was sent with human mentor Tolly Jones to rescue or destroy an orphaned AI abandoned at a remote space station Then there's Uncle the shadowy mastermind from the Old Universe whose many projects often skirt the boundaries of law both natural and man made and the puppet masters at the Lyre Institute whose history is just as murky and a good deal less honorable All have an interest in the newly awakening Self Aware Logic that is rumored to have the power to destroy universes The question is Who will get to it first At the publisher's request this title is sold without DRM Digital Rights Management About Dragon in Exile S prawling and satisfying Space opera mixes with social engineering influenced by Regency era manners and delicate notions of honor It's like spending time with old friends Publishers Weekly About Necessity's Child Compelling and wondrous as sharp and graceful as Damascus steel Necessity's Child is a terrific addition to Lee Miller's addictive series 1 New York Times best seller Patricia Briggs About the Liaden Universe series Every now and then you come across an author or in this case a pair who write exactly what you want to read the characters and personalities that make you enjoy meeting them I rarely rave on and on about stories but I am devoted to Lee and Miller novels and stories Anne McCaffrey These authors consistently deliver stories with a rich textured setting intricate plotting and vivid interesting characters from fully realized cultures both human and alien and each book gets better Elizabeth Moon Delightful stories of adventure and romance set in a far future space opera milieu It's all a rather heady mix of Gordon R Dickson the Forsythe Saga and Victoria Holt with Lee and Miller's own unique touches making it all sparkle and sizzle Anyone whose taste runs toward SF in the true romantic tradition can't help but like the Liaden Universe Analog The many fans of the Liaden universe will welcome the latest continuing young pilot Theo Waitley's adventures Booklist on Saltation A ficionados of intelligent space opera will be thoroughly entertained The authors craftsmanship is top

notch Publishers Weekly on Lee and Miller's popular Liaden Universe thriller *I Dare* *Heathen* Kathryn Gin Lum, 2022-05-17 Philip Schaff Prize American Society of Church History S USIH Book Award Society for U S Intellectual History Merle Curti Award in Intellectual History Organization of American Historians A fascinating book Gin Lum suggests that in many times and places the divide between Christian and heathen was the central divide in American life Kelefa Sanneh New Yorker Offers a dazzling range of examples to substantiate its thesis Rare is the reader who could dip into it without becoming much better informed on a great many topics historical literary and religious So many of Gin Lum's examples are enlightening and informative in their own right Philip Jenkins Christian Century Brilliant Gin Lum's writing style is nuanced clear detailed yet expansive and accessible which will make the book a fit for both graduate and undergraduate classrooms Any scholar of American history should have a copy Emily Suzanne Clark S USIH Society for U S Intellectual History In this sweeping historical narrative Kathryn Gin Lum shows how the idea of the heathen has been maintained from the colonial era to the present in religious and secular discourses discourses specifically of race Americans long viewed the world as a realm of suffering heathens whose lands and lives needed their intervention to flourish The term heathen fell out of common use by the early 1900s leading some to imagine that racial categories had replaced religious differences But the ideas underlying the figure of the heathen did not disappear Americans still treat large swaths of the world as other due to their assumed need for conversion to American ways Race continues to operate as a heathen inheritance in the United States animating Americans sense of being a world apart from an undifferentiated mass of needy suffering peoples *Heathen* thus reveals a key source of American exceptionalism and a prism through which Americans have defined themselves as a progressive and humanitarian nation even as supposed heathens have drawn on the same to counter this national myth
