Uttering the Unutterable Louis F. Groarke,2023-01-15 Literature utters the unutterable not through logic not through science not through argument but through a pitch of eloquence so pronounced the conscientious reader cannot fail to pay attention Louis Groarke argues that literature is an honorific term we use to describe texts that are so overpowering they lift us to an encounter with an ineffable ultimate that is beyond logical or scientific explanation In Uttering the Unutterable he proposes a wisdom epistemology that identifies an experience of transcendence as the defining criterion of literature Offering four mutually reinforcing definitions of literature in line with Aristotle s theory of four causes Groarke compares the experience of reading to Aristotle s account of philosophical contemplation and maintains that literature has inevitable ethical content Moving beyond the Aristotelianism of the late Chicago School Groarke presents a new synthesis that breaks through essentialist stereotypes and contends that literature like religion points to an ineffable transcendental to something beyond what we can adequately explain prove systematize quantify or enclose in a theory Uttering the Unutterable explores how Aristotelian philosophy provides the most complete and compelling account of literature for philosophers literary critics and theorists *Big Miracle* Tom Rose,2024-09-04 Now a major motion picture starring Drew Barrymore Ted Danson Kristen Bell Tim Blake Nelson John Krasinski and Vinessa Shaw an account of the dramatic rescue of three gray whales trapped under the ice in Alaska in 1988 Set in Cold War era 1988 Big Miracle tells the real story behind the remarkable bizarre and oftentimes uproarious event that mesmerized the world for weeks On October 7 an Inuit hunter near Barrow Alaska found three California Gray whales imprisoned in the Arctic ice In the past as was nature s way trapped whales always died Not this time Tom Rose who was covering the event for a Japanese TV station compellingly describes how oil company executives environmental activists Inupiat people small business people and the U S military boldly worked together to

rescue the whales He also tells the stories of some of the more than 150 international journalists who brought the story to the world's attention The rescue was followed by millions of people around the world as Ronald Reagan and Mikhail Gorbachev joined the forces of their two nations to help free the whales *Wild Animal Story* Ralph Lutts, 2001-09-12 At the beginning of the twentieth century the wild animal story emerged in Canadian literature as a distinct genre in which animals pursue their own interests survival for themselves their offspring and perhaps a mate or the pure pleasure of their wildness Bringing together some of the most celebrated wild animal stories Ralph H Lutts places them firmly in the context of heated controversies about animal intelligence and purposeful behavior Widely regarded as entertaining and educational the early stories by Charles G D Roberts Ernest Thompson Seton John Muir Jack London and others had an avid readership among adults and children But some naturalists and at least one hunter Theodore Roosevelt discredited these writers as nature fakers accusing them of falsely portraying animal behavior The stories and commentaries collected here span the twentieth century As present day animal behaviorists psychologists and the public attempt to sort out the meaning of what animals do and our obligations to them Ralph Lutts maps some of the prominent features of our cultural landscape Tales include *The Springfield Fox* by Ernest Thompson Seton *The Sounding of the Call* by Jack London *Stickeen* by John Muir *Journey to the Sea* by Rachel Carson Other selections include essays by Theodore Roosevelt John Burroughs Margaret Atwood and Ralph H Lutts postamble [The Freethinker](#), 1895 **By The Book: A reader's guide to life** Ramona Koval, 2012-10-24 By the Book is Ramona Koval's love letter to books and writing What is it about reading that we love so much Why do books make our lives so much richer Ramona Koval's By the Book is about reading and living and about the authors that have written themselves into her life from Oliver Sacks to Oscar Wilde Christina Stead to Grace Paley It is about learning to read and asking her mother to buy her a copy of the Kama Sutra about love and science and her childhood ambition to be Marie Curie about arctic exploration and her ruminations on what part of a husky she would eat if she had to about poetry and travel and falling in love In our book devouring nation this is a book for every avid reader and every avid listener who has been spellbound by Ramona's interviews over the years By the Book is quintessentially Ramona warm bright erudite unmissable Ramona Koval is a writer journalist and broadcaster She is the editor of *Best Australian Essays* and was the presenter of ABC Radio National's *The Book Show* for many years She now interviews writers for The Monthly's online book club textpublishing.com.au After 16 years as the host of Australian Broadcasting Corporation's *The Book Show* Koval has a knack for conveying the essence of a book without spoiling it She also recounts key exchanges with interviewees as diverse as Grace Paley Oliver Sacks and Paul Theroux starred review *Shelf Awareness* By the Book takes us on intriguing journeys through books The excitement with which Koval still approaches each new book plunging in head first heart deep furnishes the last words of this urbane and enlightening work of her own *Weekend Australian* By the Book is a reminder of the role books can play in our lives If you celebrate their contribution and appreciate their influence and artistry then this is a story

Writing for an Endangered World Lawrence Buell, 2009-07-01 The environmental imagination does not stop short at the edge of the woods Nor should our understanding of it as Lawrence Buell makes powerfully clear in his new book that aims to reshape the field of literature and environmental studies Emphasizing the influence of the physical environment on individual and collective perception his book thus provides the theoretical underpinnings for an ecocriticism now reaching full power and does so in remarkably clear and concrete ways Writing for an Endangered World offers a conception of the physical environment whether built or natural as simultaneously found and constructed and treats imaginative representations of it as acts of both discovery and invention A number of the chapters develop this idea through parallel studies of figures identified with either natural or urban settings John Muir and Jane Addams Aldo Leopold and William Faulkner Robinson Jeffers and Theodore Dreiser Wendell Berry and Gwendolyn Brooks Focusing on nineteenth and twentieth century writers but ranging freely across national borders his book reimagines city and country as a single complex landscape
