Saving The Text Literature Derrida Philosophy:

Saving the Text Geoffrey H. Hartman, 1982 Distinguished critic and scholar Geoffrey Hartman explores the usefulness of Derrida's style of close reading for English and American scholarship and establishes its relevance to the division that has arisen between European and Anglo American critical approaches In addition he discusses Derrida's exegesis in relation to theological commentary

A Companion to Literary Theory David H. Richter, 2018-02-16 Introduces readers to the modes of literary and cultural study of the previous half century A Companion to Literary Theory is a collection of 36 original essays all by noted scholars in their field designed to introduce the modes and ideas of contemporary literary and cultural theory Arranged by topic rather than chronology in order to highlight the relationships between earlier and most recent theoretical developments the book groups its chapters into seven convenient sections I Literary Form Narrative and Poetry II The Task of Reading III Literary Locations and Cultural Studies IV The Politics of Literature V Identities VI Bodies and Their Minds and VII Scientific Inflections Allotting proper space to all areas of theory most relevant today this comprehensive volume features three dozen masterfully written chapters covering such subjects as Anglo American New Criticism Chicago Formalism Russian Formalism Derrida and Deconstruction Empathy Affect Studies Foucault and Poststructuralism Marx and Marxist Literary Theory Postcolonial Studies Ethnic Studies Gender Theory Freudian Psychoanalytic Criticism Cognitive Literary Theory Evolutionary Literary Theory Cybernetics and Posthumanism and much more Features 36 essays by noted scholars in the field Fills a growing need for companion books that can guide readers through the thicket of ideas systems and terminologies Presents important contemporary literary theory while examining those of the past The Wiley Blackwell Companion to Literary Theory will be welcomed by college and university students seeking an accessible and authoritative guide to the complex and often intimidating modes of literary and cultural study of the previous half century

Rehabilitating Literary Theory Khaled Besbes, 2011 The present work seeks to bring literary theory in line with the most recent practical turn the humanities are witnessing When simplified succinctly presented and skillfully used in multi coded interpretation within a semicritical framework literary theories become practical exercises in criticism not only facilitating the interpretation of literature but also making it more enjoyable and more rewarding This book is different from its counterparts in the sense that it includes an exceptionally expanded model of the practice of literary theories and replaces long and theoretical discussions with brief synopses of the examined theories It relies on less overused texts for illustration as it compiles and organizes the terms and phrases that are often used by the proponents of the discussed theories The most influential literary theories that have so far been developed in academia are included the New Criticism reader response criticism structuralism deconstruction feminism Marxism psychoanalytic criticism linguistic criticism cultural materialism new historicism postcolonialism and semiotics Through eliminating the excesses made in the name of theory this book will restore the faith of students teachers and practitioners in the useful and enduring nature of literary theory for the analysis

and appreciation of literature The Saving Lie Agata Bielik-Robson, 2011-03-30 Hailed as our era's most profound theorist of literary influence Harold Bloom's own influence on the landscape of literary criticism has been decisive His wide ranging critical writings have plumbed the depths of Romanticism explored the anxiety caused by the influence of one generation of poets on another wrestled with the idea of a literary canon and examined the relationship between religion and literature

Voice Terminal Echo (Routledge Revivals) Jonathan Goldberg, 2014-10-10 First published in 1986 this title examines a set of English Renaissance texts by Shakespeare Spenser Herbert Marvell and Milton within the theoretic framework of postmodern thought Following an opening chapter that argues for the value of this conjunction as a way of understanding literary history subsequent chapters draw upon Jacques Derrida's deconstruction of photocentrism and Jacques Lacan's analysis of the agency of the letter to offer fully theorized readings Throughout there is a sustained concern with the transformations of such Ovidian figures as Narcissus and Echo Perseus and Medusa Orpheus and Eurydice and with the echo effects of Virgilian pastoral as paradigms for the interplay of voice and writing Jonathan Swift Nigel Wood, 2014-06-11 This collection of critical thinking situates the satire of Jonathan Swift within both its eighteenth century contexts and our modern anxieties about personal identity and communication Augustan satire at its most provocative is not simply concerned with the public matters of politics or religion but also offers a precise medium in which to express the paradox of ironic detachment amidst deep conviction The critics chosen for this volume demonstrate the complexity of Swift's work Its four sections explore matters of authorial identity the relation between Swift's writing and its historical context the full range of his comments on gender and his deployment of metaphor and irony to engage the reader Swift has often been regarded as a writer who anticipated many twentieth century cultural preoccupations and this volume provides an opportunity to test just how modern he actually was It also provides an answer to those who would wish to simplify his writing as that of Tory and misogynist The theoretical perspectives of the contributors are lucidly explained and their critical terms located in the wider contexts of contemporary theory in the introduction and headnotes The volume places Swift historically within the philosophical and religious traditions of eighteenth century thought Profiles in Contemporary Social Theory Anthony Elliott, Bryan S Turner, 2001-05-18 This comprehensive book provides an indispensable introduction to the most significant figures in contemporary social theory Grounded strongly in the European tradition the profiles include Michel Foucault Jürgen Habermas Roland Barthes Jean Baudrillard Pierre Bourdieu Zygmunt Bauman Martin Heidegger Fredric Jameson Richard Rorty Nancy Chodorow Anthony Giddens Stuart Hall Luce Irigaray and Donna Haraway In guiding students through the key figures in an accessible and authoritative fashion the book provides detailed accounts of the development of the work of major social theorists and charts the relationship between different traditions of social cultural and political thought Profiles in Contemporary Social Theory will become a major reference work in the field of social theory because it offers in depth commentaries that comprehensively examine the contents contexts and critical evaluation of key theorists of the day

Reading and Responsibility Derek Attridge, 2011-09-14 Newly available in paperback this book traces a close engagement with Derrida's writing over two decades examining the relationship between deconstruction literature and ethics

Handbook of Phenomenological Aesthetics Hans Rainer Sepp, Lester Embree, 2010-03-11 Historically phenomenology began in Edmund Husserl's theory of mathematics and logic went on to focus for him on transcendental philosophy and for others on metaphysics philosophical anthropology and theory of interpretation The continuing focus has thus been on knowledge and being But if one began without those interests and with an understanding of the phenomenological style of approach one might well see that art and aesthetics make up the most natural field to be approached phenomenologically Contributions to this field have continually been made in the phenomenological tradition from very early on but so to speak along the side The situation has been similar with phenomenological ethics A great deal of thought about art and aesthetics has nevertheless accumulated during a century and a handbook like the present one is long overdue The project of this handbook began in conversations over dinner in Sepp's apartment in Baden Baden at one evening of the hot European summer in the year 2003 As things worked out he knew more about whom to ask and how much space to allocate to each entry and Embree knew more about how to conduct the inviting preliminary editing and prodding of contributors who were late returning their criticized drafts and copyedited entries and was able to invest the time and other resources from his endowed chair That process took longer than anticipated and there were additional unfortunate delays due to factors beyond the editors' control

Postmodern Pooh Frederick Crews, 2006-08-17 Originally published New York North Point Press 2001

Isak Dinesen and the Engendering of Narrative Susan Hardy Aiken, 1990-04-24 Although Isak Dinesen has been widely acclaimed as a popular writer her work has received little sustained critical attention In this revisionist study Susan Hardy Aiken takes up the complex relations of gender sexuality and representation in Dinesen's narratives Drawing on feminist psychoanalytic and post structuralist theories Aiken shows how the form and meaning of Dinesen's texts are affected by her doubled situations as a Dane who wrote in English a European who lived for many years in Africa and a woman who wrote under a male pseudonym within a male centered literary tradition In a series of readings that range across Dinesen's career Aiken demonstrates that Dinesen persistently asserted the inseparability of gender and the engendering of narrative She argues that Dinesen's texts anticipate in remarkable ways some of the most radical insights of contemporary literary theories particularly those of French feminist criticism Aiken also offers a major rereading of *Out of Africa* that both addresses its distinctiveness as a colonialist text and places it within Dinesen's larger oeuvre In Aiken's account Dinesen's work emerges as a compelling inquiry into sexual difference and the ways it informs culture subjectivity and the language that is their medium This important book will at last give Isak Dinesen's work the prominence it deserves in literary studies

Erring Mark C. Taylor, 2013-11-22 Erring is a thoughtful often brilliant attempt to describe and enact what remains of and for theology in the wake of deconstruction Drawing on Hegel Nietzsche Derrida and others Mark Taylor

extends and goes well beyond pioneering efforts The result is a major book comprehensive and well informed G Douglas Atkins Philosophy and Literature Many have felt the need for a study which would explicate in coherent and accessible fashion the principal tenets of deconstruction with particular attention to their theological implications This need the author has addressed in a most impressive manner The book s effect upon contemporary discussion is apt to be and deserves to be far reaching Walter Lowe Journal of Religion

Postmodern Use of the Bible Edgar McKnight, 2005-12-01 Harry Emerson Fosdick s classic volume entitled The Modern Use of the Bible enabled readers in the first part of this century to make the pilgrimage into the modern era and to understand the Bible in an idiom informed by critical and historical assumptions and approaches The exchange of the historical context for the dogmatic transformed biblical study into an exciting discipline both spiritually and intellectually The critical distancing of the text in the historical approach however has gradually transformed biblical writings into museum pieces without contemporary relevance For contemporary readers a satisfying approach cannot be uncritical but it must move beyond the critical Postmodern Use of the Bible encourages a continual pilgrimage In this book readers are provided resources to enable them to make sense for themselves in the light of challenges to major critical assumptions and strategies of The Modern Use of the Bible The same goal is in mind to allow the Bible to speak in a contemporary idiom from the Introduction Contents Introduction 1 How Have We Made Sense of the Bible 2 Toward the Postmodern 3 Literary Perspectives and Resources for Postmodern Use Structures Codes and the Readers 4 The Role of the Reader Imaging the Sacred 5 The Role of the Reader Actualizing of Biblical Discourse Conclusion

Literary Theories in Praxis Shirley F. Staton, 1987 Literary Theories in Praxis analyzes the ways in which critical theories are transformed into literary criticism and methodology To demonstrate the application of this analysis critical writings of Roland Barthes Harold Bloom Cleanth Brooks Jacques Derrida Northrop Frye Norman Holland Barbara Johnson Jacques Lacan Adrienne Rich and Robert Scholes are examined in terms of the primary critical stance each author employs New Critical phenomenological archetypal structuralist semiotic sociological psychoanalytic reader response deconstructionist or humanist The book is divided into nine sections each with a prefatory essay explaining the critical stance taken in the selections that follow and describing how theory becomes literary criticism In a headnote to each selection Staton analyzes how the critic applies his or her critical methodology to the subject literary work Shirley F Staton s introduction sketches the overall philosophical positions and relationships among the various critical modes

John, a Postmodern Gospel Patrick Chatelion Counet, 2021-11-15 This study deals with the postmodern philosophy of language as developed mainly by French authors as R Barthes J Derrida and J F Lyotard The four chapters of the first part are theoretical and relate the literary concepts of postmodernity poststructuralism and deconstruction to the practice of biblical exegesis One of the important conclusions is that deconstruction affects both diachronic and synchronic approaches of texts Each chapter closes with not suggestions but implications for a postmodern deconstructive strategy of reading The four chapters of the second part apply this postmodern

deconstructive strategy of reading to the Fourth Gospel as a whole chapter five to John 6 chapter six to John 17 chapter seven and to John 21 24 25 chapter eight This deconstructive reading shows the differential and apophatic character of Saint John s Gospel *Deconstruction: A Critique* A. Rajnath,1989-06-18 This collection of essays examines a wide range of topics relating to deconstruction which emerged in France as a reaction to structuralism but has found its greatest response in America where literary critics have built on its basic assumptions to create a new critical movement *Colonising Egypt* Timothy Mitchell,1991-10-11 Extending deconstructive theory to historical and political analysis Timothy Mitchell examines the peculiarity of Western conceptions of order and truth through a re reading of Europe s colonial encounter with nineteenth century Egypt Literary Voice Donald Wesling,Tadeusz Slawek,1995-08-23 This response to Derrida s critique of the spoken uses dozens of examples in four languages to explore the voice that is in writing Historiography: Ideas Robert M. Burns,2006 This collection aims to enable the reader to disentangle some of the ambiguities and confusions which have characterized the use of the term historiography **The One and the Others** Andrew Cutrofello,2025-11-15 An original account of Western metaphysics based on Plato s Parmenides At the end of Plato s Parmenides Parmenides concludes that whether the One is or is not it and the Others both are and are not and both appear and do not appear all things in all ways Throughout the history of philosophy various attempts have been made to make sense of Plato s puzzling dialectical exercise In this ambitious book Andrew Cutrofello shows how Kant and Hegel extended it how contemporary philosophers including Graham Priest and Alain Badiou have reinterpreted it and how poets such as Dante Shakespeare Blake Wordsworth and Susan Howe have channeled it What emerges is an original conception of the history of metaphysics as a series of antinomies and of metaphysical poetry as a type of antinomianism
