Sharks Jellyfish And Other Deadly Things

Tim Collins

Sharks Jellyfish And Other Deadly Things:

Slippery Slopes & Other Deadly Things Nancy Tesler, 2003 Biofeedback specialist single mom and very amateur sleuth Carrie Carlin is up to her neck in snow sex and strangulation when her pain and stress management conference is abruptly terminated by murder at a ski resort

Mystery Women, Volume Three (Revised) Colleen Barnett, 2010-12-31 Like other fictional characters female sleuths may live in the past or the future They may represent current times with some level of reality or shape their settings to suit an agenda There are audiences for both realism and escapism in the mystery novel It is interesting however to compare the fictional world of the mystery sleuth with the world in which readers live Of course mystery readers do not share one simplistic world They live in urban suburban and rural areas as do the female heroines in the books they read They may choose a book because it has a familiar background or because it takes them to places they long to visit Readers may be rich or poor young or old conservative or liberal So are the heroines What incredible choices there are today in mystery series This three volume encyclopedia of women characters in the mystery novel is like a gigantic menu Like a menu the descriptions of the items that are provided are subjective Volume 3 of *Mystery Women* as currently updated adds an additional 42 sleuths to the 500 plus who were covered in the initial Volume 3 These are more recently discovered sleuths who were introduced during the period from January 1 1990 to December 31 1999 This more than doubles the number of sleuths introduced in the 1980s 298 of whom were covered in Volume 2 and easily exceeded the 347 series and some outstanding individuals described in Volume 1 which covered a 130 year period from 1860 1979 It also includes updates on those individuals covered in the first edition changes in status short reviews of books published since the first edition through December 31 2008

Sleuths in Skirts Frances A. DellaCava, Madeline H. Engel, 2002 This volume is a comprehensive collection of critical essays on *The Taming of the Shrew* and includes extensive discussions of the play's various printed versions and its theatrical productions Aspinall has included only those essays that offer the most influential and controversial arguments surrounding the play The issues discussed include gender authority female autonomy and unruliness courtship and marriage language and speech and performance and theatricality

Shark Life Peter Benchley,2008-12-18 From the bestselling author of Jaws comes a firsthand guide to one of the most feared and often misunderstood animals sharks In direct and accessible prose Peter Benchley sets the record straight about the many types of sharks including the ones that pose a genuine threat to us the behavior of sharks and other sea creatures we fear the odds against an attack and how to improve them even further He also teaches us how to swim safely in the ocean by reading the tides and currents and respecting all the inhabitants Here are the lessons Peter has learned the mistakes he has made the danger he has faced and the spectacular sights he has seen in the world s largest environment The book includes 16 pages of black and white photographs

Simple Habits for Complex Times Jennifer Garvey Berger,Keith Johnston,2015-02-25 When faced with complex challenges or uncertain outcomes many leaders believe that if they are smart enough work hard enough or turn to

the best management tools they will be able to find the right answer predict and plan for the future and break down tasks to produce controllable results But what are leaders to do when this isn't the case Rather than offering one size fits all tips and tricks drawn from the realm of business as usual Simple Habits for Complex Times provides three integral practices that enable leaders to navigate the unknown By taking multiple perspectives asking different questions and seeing more of their system leaders can better understand themselves their roles and the world around them They can become more nimble respond with agility and guide their organizations to thrive in an ever shifting business landscape The more leaders use these simple habits the more they enhance their performance and solve increasingly common sticky business issues with greater acumen Whether in large or small organizations in government or the private sector in the U S or overseas leaders will turn to this book as a companion that helps them grow into the best version of themselves
