Looking Backward and Looking Forward Harvey J. Graff, 2005 Asserting the need for social science historians to examine their own field this wide ranging volume offers an intellectual history and critical evaluation of interdisciplinary social science and social science historiography The editors present a creative experimental mix of topics and genres spanning a range of contemporary thought in the field exploring the past present and future of social science history This book comes at a time when there is great academic interest in the future of the disciplines and in their place within the organization of university education Based on the 25th anniversary conference of the Social Science History Association 2000

Understanding Literacy in Its Historical Contexts Harvey J. Graff, Alison Mackinnon, Bengt Sandin, Ian Winchester, 2009-01-10 In this detailed study of the history of universal literacy in Sweden a group of renowned scholars review and explore the possibilities for the wider circulation and broader application of central dimensions of the early literacy studies expounding upon the work of the Swedish Lutheran pastor and pioneering social historian Egil Johansson Working initially with parish registers especially examination registers from northern Sweden Johansson discovered the extraordinary usefulness of these documents to determine how literacy in Sweden occurred well before any other European nation despite the fact that Sweden was industrialized about 100 years later than the European norm Egil Johansson also developed imaginative data analysis techniques that help historians around the world to better picture the complete human cast of the past With the help of numerous contributors Johansson founded a giant database of church records and other information which now can help the understanding of preindustrial society Johansson s work spans over many aspects of literacy and social history and their respective relation to religion and gender **Literacy Myths, Legacies, and Lessons**

Harvey J. Graff, 2017-07-05 In his latest writings on the history of literacy and its importance for present understanding and future rethinking historian Harvey J Graff continues his critical revisions of many commonly held ideas about literacy The book speaks to central concerns about the place of literacy in modern and late modern culture and society and its complicated historical foundations Drawing on other aspects of his research Graff places the chapters that follow in the context of current thinking and major concerns about literacy and the development of both historical and interdisciplinary studies Special emphasis falls upon the usefulness of the literacy myth as an important subject for interdisciplinary study and understanding Critical stock taking of the field includes reflections on Graff s own research and writings of the last three decades and the relationships that connect interdisciplinary rethinking and the literacy myth The collection is noteworthy for its attention to Graff s reflections on his identification of the literacy myth and in developing LiteracyStudies OSU Ohio State University as a model for university wide interdisciplinary programs It also deals with ordinary concerns about literacy or illiteracy that are shared by academics and concerned citizens These nontechnical essays will speak to both academic and nonacademic audiences across disciplines and cultural orientations **Development and Social Change** Philip

Macdonald Retrospective 2-Book Bundle](#) Ged Martin, 2014-10-29 This special 2 book bundle contains a number of perspectives on a man who was arguably Canada's most famous political leader a figure of legendary proportions in the history of Canada's birth and development Ged Martin's biography tells Macdonald's story Shocked by Canada's 1837 rebellions Macdonald sought to build alliances and avoid future conflicts Thanks to financial worries and an alcohol problem he almost quit politics in 1864 The challenge of building Confederation harnessed his skills and in 1867 he became the country's first prime minister He drove the Dominion's westward expansion rapidly incorporating the Prairies and British Columbia before a railway contract scandal unseated him in 1873 He conquered his drinking problem and rebuilt the Conservative Party to regain power in 1878 The centrepiece of his protectionist National Policy was the transcontinental railway but a western uprising in 1885 was followed by the controversial execution of rebel leader Louis Riel Although dominant nationally this popular hero had many flaws Macdonald at 200 presents fifteen fresh interpretations of Canada's

founding prime minister published for the occasion of the bicentennial of his birth in 1815 Crisply written by recognized scholars and specialists the collection throws new light on Macdonald s formative role in shaping government promoting women s rights managing the nascent economy supervising westward expansion overseeing relations with Native peoples and dealing with Fenian terrorism A special section deals with how Macdonald has or has not been remembered by historians as well as the general public The book concludes with an afterword by prominent Macdonald biographer Richard Gwyn Macdonald emerges as a man of full dimensions an historical figure that is surprisingly relevant to our own times Includes John A Macdonald Macdonald at 200 **Thematic Teaching of Women's Rights Issues with Social Studies Trade**

Organizations Thomas Calvard,2020-12-29 Decades of investigations into diversity in the workplace have created mixed answers about what kinds of effects it has on employees and teams and whether or not it can be managed effectively to generate positive outcomes for organizations In contrast to mainstream work from management and psychology critical views on workplace diversity have emerged that seek to grasp more fully the messy social and political realities of workplace diversity as they operate in context Critical Perspectives on Diversity in Organizations therefore seeks to review integrate and build upon emerging critical perspectives on workplace diversity to help give a fuller understanding of how employee differences affect workplace interactions relationships employment inequality culture and society Critical perspectives help to fill in and openly recognize many of the more far reaching issues that pure management and psychology approaches can leave out issues of power inequality politics history culture and lived experiences If organizations do not try to take these issues into account and critically reflect on them then diversity management is likely to remain a relatively blunt instrument or worse a hollow piece of rhetoric This book will be of interest to international graduate students and researchers working on topics associated with equality diversity and inclusion in organizations as well as various organizational practitioners and

activists engaged with these issues

Resources in Education ,1999-10 Irrigation in Early States Stephanie Rost, 2022-06-30 Irrigation has long been of interest in the study of the past Many early civilizations were located in river valleys and irrigation was of great economic importance for many early states because of the key role it played in producing an agricultural surplus which was the main source of wealth and the basis of political power for the elites who controlled it Agricultural surplus was also necessary to maintain the very features of statehood such as urbanism full time labor specialization state institutions and status hierarchy Yet the presence of large scale or complex irrigation systems does not necessarily mean that they were under centralized control While some early states organized the construction operation and maintenance of irrigation works and resolved conflicts related to water distribution other early governments left most of the management to local farmers and controlled only the surplus The cross cultural studies in this volume reexamine the role of irrigation in early states Ranging geographically from South America and the southwestern United States to North Africa the Middle East and Asia they describe the physical attributes and environments of early irrigation systems various methods for empirical investigation of ancient irrigation and irrigation s economic sociopolitical and cosmological dimensions Through their interdisciplinary perspectives the authors all experts in the field of irrigation studies advance both methodological and theoretical approaches to understanding irrigation in early civilizations *Diasporic Chinese Ventures* GREGOR BENTON, Hong Liu, 2004-07-31

economic health and somatic progress of Baltic countries during the period 1918 2018 framed by the outline of the historical sociological theory of modern social restorations as originally conceived by the Austrian American comparative historian Robert A Kann The author reworks Kann s theory to analyse post communist transformations in the Baltic region The book argues that the purpose of modern social restorations is to make restoration societies safe against a recurrence of revolution There were two waves of modern social restorations post Napoleonic and post communist Most post Napoleonic restorations were brief because they failed to economically and socially outperform the pre revolutionary and post revolutionary systems It considers Baltic restorations as laboratory cases of second wave modern social restorations because they encompass a

triple restoration of the nation state capitalism and democracy The book assesses the performance success of Baltic restorations by comparing economic and social progress of Baltic countries during the periods of original independence 1918 1940 foreign imposed state socialism 1940 1990 and restored independence since 1990 It then elaborates the criteria to assess the ultimate performance success of these restorations by 2040 when restored Baltic states may endure longer than their ancestors in 1918 1940 and the complete foreign occupations era 1940 1990 The author an expert in historical sociology uses extensive historical statistical data in cross time comparisons to develop his analysis and create future projections This book is of wide interest to sociologists social demographers political scientists and economists studying the Baltic region This is an open access book

The Non-Religious and the State Jeffrey Tyssens, Niels De Nutte, Stefan Schröder, 2024-11-04 As the number of the non affiliated and religiously indifferent is on the rise this book adds a hitherto absent historical dimension to the field of secular studies It shows a variety of ways in which the non religious at large be it organizations networks or even committed individuals impact upon the interface between the state and the religious or the non religious To what specific legal statuses have these processes led What elements were taken into consideration when making these decisions Who opted for a recognition of a non confessional lifestate and why Conversely who opted for a wall of separation and why Are things that clear cut Doesn't the variety of choices and frameworks offer a more varied spectrum What continuities and discontinuities are to be observed in the history of seculars and their organizations These patterns divergent and entangled are developed and explained within the broader conception of multiple secularisms
