Henry, 1993 Written in an accessible style Henry s work places Texas architecture in the wider context of American architectural history by tracing the development of building in the state from late Victorian styles and the rise of neoclassicism to the advent of the International Style His work provides a welter of new facts both about the era s buildings and the architects who designed them and he has catalogued and described most of the important landmarks of the period Southwestern Historical Quarterly a significant

contribution to the study of Texas architecture Drury Blakeley Alexander author of *Texas Homes of the Nineteenth Century* Texas architecture of the twentieth century encompasses a wide range of building styles from an internationally inspired modernism to the Spanish Colonial Revival that recalls Texas earliest European heritage This book is the first comprehensive survey of Texas architecture of the first half of the twentieth century More than just a catalog of buildings and styles the book is a social history of Texas architecture Jay C Henry discusses and illustrates buildings from around the state drawing a majority of his examples from the ten to twelve largest cities and from the work of major architects and firms including C H Page and Brother Trost and Trost Lang and Witchell Sanguinet and Staats Atlee B and Robert M Ayres David Williams and O Neil Ford The majority of buildings he considers are public ones but a separate chapter traces the evolution of private housing from late Victorian styles through the regional and international modernism of the 1930s Nearly 400 black and white photographs complement the text Written to be accessible to general readers interested in architecture as well as to architectural professionals this work shows how Texas both participated in and differed from prevailing American architectural traditions

**Overdrive** Wim de Wit, Christopher James Alexander, 2013 This is a fascinating and intelligently illustrated study of architectural innovation in Los Angeles From 1940 to 1990 Los Angeles rapidly evolved into one of the most populous and influential industrial economic and creative capitals in the world During this era the region was transformed into a laboratory for cutting edge architecture Overdrive examines these experiments and their impacts on modern design reframes the perceptions of Los Angeles dynamic built environment and amplifies the exploration of the city's vibrant architectural legacy The drawings models and images highlighted by Overdrive reveal the complex and often underappreciated facets of Los Angeles and illustrate how the metropolis became an internationally recognized destination with a unique design vocabulary canonical landmarks and a coveted lifestyle

*Courtyard Housing in Los Angeles* Stefanos Polyzoides, Roger Sherwood, James Tice, 1992 Essays drawings plans and over 200 black and white photographs document the courtyard housing in Los Angeles The style expressed in both grand and humble dwellings was at its height in the 1920s and 1930s but is still around to provide privacy and greenspace in the dense urban area Annotation copyright by Book News Inc Portland OR
