## **Losing Nelson:**

Losing Nelson Barry Unsworth, 2012-01-10 Barry Unsworth's *Losing Nelson* is a novel of obsession the story of a man unable to see himself separately from the hero he mistakenly idolizes Admiral Lord Nelson Charles Cleasby is in fact a Nelson biographer run amok He is convinced that Nelson Britain's greatest admiral who finally defeated Napoleon and lost his own life in the Battle of Trafalgar is the perfect hero but in his research he has come upon an incident of horrifying brutality in Nelson's military career that simply stumps all attempts at glorification      **Losing Nelson** Barry Unsworth, 2014-12

*Romances of the Archive in Contemporary British Fiction* Suzanne Keen, 2003-01-01 A detailed examination of the growing genre of British fiction featuring archives and archival research from A S Byatt's Booker Prize winning *Possession* to the paperback thrillers of popular novelists      **Nelson's Navy in Fiction and Film** Sue Parrill, 2009-12-21 This book

provides summaries and analyses of more than 250 novels and nearly 30 films and examines the extent to which they accurately reflect the history mores and manners of the period and the extent to which they reveal the ideas and attitudes of their authors and of the periods in which they were written Particular emphasis is placed on the nature and importance of the war at sea for the British and on the role of famous naval officers such as Nelson Pellew Duncan Smith and Cochrane in the defeat of Napoleon      *The Nelson Touch* Terry Coleman, 2004-07-08 Admiral Horatio Nelson captures our imaginations

like few other military figures A mixture of tactical originality raw courage cruelty and romantic passion Nelson in action was daring and direct a paramount naval genius and a natural born predator Now in *The Nelson Touch* novelist Terry Coleman provides a superb portrait of Britain's most revered naval figure Here is a vivid account of Nelson's life from his childhood and early career at sea where a high placed uncle helped speed his advancement to post captain to gripping accounts of his greatest sea battles Readers will witness the Battle of the Nile where Nelson crushed a French squadron of thirteen ships of the line and the Battle of Trafalgar where he died at the moment of his greatest triumph What emerges is a man of strength of mind amounting to genius frequently generous always fascinated with women often uneasy with his superior officers and absolutely fearless Nelson was a ruthless commander whose instinct was not just to defeat the enemy but to annihilate him Sure to appeal to readers of Patrick O Brian and other seafaring fiction as well as all military history and naval history buffs this is a superbly written biography that gives readers the texture and feel of this magnificent life      *Nelson* Andrew

Lambert, 2010-12-09 Fascinating Shot through with fresh insights No previous biography has attempted anything so comprehensive *Observer* *Nelson* is a thrilling new appraisal of Horatio Nelson the greatest practitioner of naval command the world has ever seen It explores the professional personal intellectual and practical origins of one man's genius to understand how the greatest warrior that Britain has ever produced transformed the art of conflict and enabled his country to survive the challenge of total war and international isolation In *Nelson* Andrew Lambert described by David Cannadine as the outstanding British naval historian of his generation is able to offer new insights into the individual quality which led

Byron rightly to celebrate Nelson's genius as Britannia's God of War. He demonstrates how Admiral Nelson elevated the business of naval warfare to the level of the sublime. Nelson's unique gift was to take that which other commanders found complex and reduce it to simplicity. Where his predecessors and opponents saw a particular battle as an end in itself, Nelson was always a step ahead, even in the midst of terrifying close quarters action with officers and men struck down all around him. Excellent. Worthy of the stirring events it celebrates. Independent *The Biography Book* Daniel S. Burt, 2001-02-28

From Marilyn to Mussolini, people captivate people. A.E.'s Biography, best-selling autobiographies and biographical novels testify to the popularity of the genre. But where does one begin? Collected here are descriptions and evaluations of over 10,000 biographical works, including books of fact and fiction, biographies for young readers, and documentaries and movies all based on the lives of over 500 historical figures, from scientists and writers to political and military leaders to artists and musicians. Each entry includes a brief profile, autobiographical and primary sources, and recommended works. Short reviews describe the pertinent biographical works and offer insight into the qualities and special features of each title, helping readers to find the best biographical material available on hundreds of fascinating individuals. Campus Express to Masochistville Edward K. Burbridge, 2011-06

On board the southbound Illinois Central, stopping at Maybrook, the State insane asylum, before arriving at the university town of Masochistville, two unlikely passengers were thrown together: Nelson, a star athlete and cultural anthropology graduate who also happened to be black, and Joy, an apprehensive eighteen-year-old high school graduate beginning her first year of college who also happened to be white. This was 1957, two years after Rosa Parks refused to give up her segregated bus seat, yet social restraints on the crowded train didn't prevent the young couple's eventual copulation, which led to an unwanted pregnancy and secretive abortion. As the enlightened philosophers would say, love led to fornication, female jealousy led to betrayal and sorrow, and heartbreak morphed into what is called Masochism.

**The Man from Clear Lake** Bill Christofferson, 2009-08-15

On Earth Day 1970, twenty million Americans displayed their commitment to a clean environment. It was called the largest demonstration in human history, and it permanently changed the nation's political agenda. More than 1 billion people now participate in annual Earth Day activities. The seemingly simple idea, a day set aside to focus on protecting our natural environment, was the brainchild of U.S. Senator Gaylord Nelson of Wisconsin. It accomplished far beyond his expectations, his lifelong goal of putting the environment onto the nation's and the world's political agendas.

The life of Nelson, a small-town boy who learned his values and progressive political principles at an early age, is woven through the political history of the twentieth century. Nelson's story intersects at times with Fighting Bob La Follette, Joe McCarthy, and Bill Proxmire in Wisconsin, and with George McGovern, Lyndon Johnson, Hubert Humphrey, Russell Long, Walter Mondale, John F. Kennedy, and others on the national scene.
