## Notes Sur Heidegger:

Notes sur Heidegger Edmund Husserl, 1993 Ce volume contient les notes que Husserl crivit dans les marges d Etre et Temps et de Kant et le probl me de la m taphysique la conf rence o il prit publiquement position par rapport Heidegger ainsi que les deux premi res versions de l article Ph nom nologie de l Encyclopedia Britannica qui t moignent de leur collaboration En nous permettant de reconstituer la mani re dont Husserl interpr ta les premiers travaux de Heidegger o celui ci prenait position par rapport celui l ces textes nous restituent un dialogue comparable celui d Aristote et de Platon Notes sur Heidegger Maurice Blanchot, 2023-05-19 **Historical Dictionary of Heidegger's Philosophy** Frank Schalow, Alfred Denker, 2010-08-20 By the time Martin Heidegger passed away on May 26th 1976 he had become the most important and controversial philosopher of his age While many of his former students had become important philosophers and thinkers in their own right Heidegger also inspired countless others like Jacques Derrida Michel Foucault and Jean Paul Sartre The second edition of the Historical Dictionary of Heidegger s Philosophy is an historical perspective on the development of Heidegger s thought in all its nuances and facets Schalow and Denker cast light on the historical influences that shaped the thinker and his time through a chronology an introductory essay a bibliography appendixes that include German and Greek to English glossaries of terms and a complete listing of Heidegger s writings lectures courses and seminars and a cross referenced dictionary section offering over 600 entries on concepts people works and technical terms This volume is an invaluable resource for student and scholar alike *Edmund Husserl Bibliography* Steven Spileers, 2013-03-09 This bibliography contains the publications of Husserl and the main secondary literature on Husserl from Husserl s earliest publication 1887 till today 1997 As the collection of material was conduded in lune 1997 the list of publications for the year 1997 is of course incomplete In this bibliography publications in the following languages have been induded German English French Italian Spanish Portuguese and Dutch for both primary and secondary literature Since this bibliography has been based primarily on the consultation of the induded documents and not restricted to copying already existing bibliographies it was not possible to indude publications in languages other than those mentioned The bibliography has been constructed in the following way 1 The list of Husserl s works and secondary literature by individual authors is preceded by a list of all edited volumes in which a text by or on Husserl is published This list is ordered chronologica1ly and runs from 1921 ti11 1997 inclusive Edited volumes of the same year are classified according to language and this in the order mentioned above German English French etc Edited volumes with a title in more than one language are classified according to the above order of languages this of course concerns only the title of the edited volume not the title s of the individual contributions This order is maintained throughout the other parts of the bibliography **Transcendental Idealism and Metaphysics** Daniele De Santis, 2023-10-19 The book offers a systematic reconstruction of the disagreement between Husserl and Heidegger from the former s perspective but without falling into any form of Husserlian apologetics The main thesis is that Husserl s critique

of Heidegger's existential analytics as a form of philosophical anthropology entails a deeper fundamental thesis namely that Heidegger confuses the object of first philosophy the transcendental determination of the subject with metaphysics in the Husserlian sense of the expression Addressing the Husserl-Heidegger confrontation this text provides the first systematic reconstruction of Husserl's conception of the system of philosophy from the perspective of his later works with a special focus on the Cartesian Meditations At stake in Husserl's critique of Heidegger's philosophy in Being and Time is the refusal to transcendentalize the irrational aspects and nature of our human existence This first volume addresses Husserl's doctrine of transcendental idealism with the aim of elucidating the distinction between first philosophy second philosophies and what Husserl calls last philosophy This volume appeals to students and researchers

Althusser and Contingency Stefano Pippa, 2019-06-13T00:00:00+02:00 The notion of contingency plays a central role in Althusser's attempt to recast Marxist philosophy and to free the Marxist conception of history from notions such as teleology necessity and origin Drawing on a wealth of published and unpublished material Stefano Pippa discusses how Althusser's unfaltering commitment to contingency should encourage us to revisit our understanding of his conceptions of structural change ideology politics and materialism As grounded on contingency Althusser's so called Structural Marxism originates in fact a logic of interruption and a notion of structurally under determined becoming just like his theory of ideology is radically reinterpreted on the basis of his notion of overinterpellation Though constant Althusser's relationship with contingency has not been monolithic throughout his career As observed by Pippa it is possible to distinguish a political and a philosophical moment in Althusser's late materialism of contingency Perhaps as this volume suggests the problematic coexistence of these two aspects might account for the unstable character of Althusser's late philosophical project

**Anxiety** Bettina Bergo,2021 Philosopher Bettina Bergo studies the sweeping history of anxiety as manifested in European philosophy over the last 250 years Readers interested in intellectual history even with a superficial knowledge of philosophy will find rich material here and insight into our present day age of anxiety The book will trace important connections that link studies of anxiety in philosophy from Kant s transcendental relegation of emotions to philosophical anthropology to Levinas phenomenology among numerous others Focusing on anxiety as embodied sensation and an emotion Bergo opens new windows of thought putting philosophers whose work has never before been compared into dialogue with one another

**Sensibility and Singularity** John E. Drabinski,2012-02-01 Is Emmanuel Levinas a dismissive critic of Husserlian phenomenology or an important member of its movement The standard account of Levinas s work assumes his distance from Husserl In opposition to this account Sensibility and Singularity contends that Husserl was a vital living resource for Levinas throughout his philosophical career The singularity of the Other is the centerpiece of Levinas s thought The philosophical significance of this singularity however cannot be fully appreciated without attending to Levinas s transformation of the Husserlian themes of time materiality intentionality and sense This book documents those transformations and establishes their centrality to Levinas s notion of ethics What emerges from this reading is a thorough account of Levinas s constant and productive debate with the Husserlian tradition of phenomenology

**Phenomenology and Existentialism in the Twentieth Century** Anna-Teresa Tymieniecka,2009-09-30 Phenomenology and existentialism

transformed understanding and experience of the Twentieth Century to their core They had strikingly different inspirations and yet the two waves of thought became merged as both movements flourished The present collection of research devoted to these movements and their unfolding interaction is now especially revealing The studies in this first volume to be followed by two succeeding ones range from the predecessors of existentialism Kierkegaard Jean Wahl Nietzsche to the work of its adherents Shestov Berdyaev Unamuno Blondel Blumenberg Heidegger and Mamardashvili Dufrenne and Merleau Ponty to existentialism's congruence with Christianity or with atheism Among the leading Husserlian insights are treated essence and experience the place of questioning ethics and intentionality temporality and passivity and the life world The following book will uncover the perennial concerns guiding the wondrous interplay of these two inspirational sources Jacques Derrida (Routledge Revivals) William Schultz, Lewis L.B. Fried, 2016-06-17 First published in 1992 this book represents the first major attempt to compile a bibliography of Derrida's work and scholarship about his work It attempts to be comprehensive rather than selective listing primary and secondary works from the year of Derrida's Master's thesis in 1954 up until 1991 and is extensively annotated It arranges under article type a huge number of works from scholars across numerous fields reflecting the interdisciplinary and controversial nature of Deconstruction The substantial introduction and annotations also make this bibliography in part a critical guide and as such will make a highly useful reference tool for those studying his philosophy

Chiasms Fred Evans, Leonard Lawlor, 2012-02-01 Some of the best interpretations and evaluations of Merleau Ponty's innovative notions of chiasm and flesh are presented here by prominent scholars from the United States and Europe Divided into three sections the book first establishes the notion of the flesh as a consistent concept and unfolds the nuances of flesh that make it a compelling idea The second section adds to the force of this idea by showing how flesh can be extended to phenomena that Merleau Ponty was not able to treat such as the internet and virtual reality and the third offers criticisms of Merleau Ponty from feminist and Levinasian points of view All the essays attest to the fecundity of Merleau Ponty's later thought for such central philosophical issues as the bonds between self others and the world Contributors include Renaud Barbaras Mauro Carbone Edward S Casey Suzanne L Cataldi Tina Chanter Fran oise Dastur Jean Greisch Lawrence Hass Marjorie Hass James Hatley Henri Maldiney Linda Martin Alcoff Bernhard Waldenfels Gail Weiss Hugh J Silverman and Edith Wyschogrod *Crescent Moon over the Rational* Stephen Watson, 2009-09-23 This work reveals an evolving theoretical constellation of interpretations and their questions that address and continually renew Klee's rich legacies The World Unclaimed Lilian Alweiss, 2003 Annotation In Martin Heidegger set out an anti Cartesian attack on Husserl that argued Cartesian philosophy falsely separates the subject from the world In turn Alweiss philosophy Trinity College Ireland contends that Heidegger failed in his attempt to in her words reclaim the world She defends Husserl's work detailing the epistemological debate between the two philosophers and thereby examining a central concern of modern analytic philosophy as it played out in the very different tradition of Continental thinking Annotation c 2003 Book News Inc Portland

OR booknews com      **Intrigues** Gabriel Riera, 2006 This book examines the possibility of writing the other and explores whether an ethical writing that preserves the other as such is possible It also discusses what the implications are for an ethically inflected criticism Emmanuel Levinas and Maurice Blanchot whose works constitute the most thorough contemporary exploration of the question of the other and of its relation to writing are Riera's main focus Critics in recent years have discussed an ethical moment or turn characterized by the other's irruption into the order of discourse The other becomes a true crossroads of disciplines since it affects several aspects of discourse the constitution of the subject the status of knowledge the nature of representation and what that representation represses gender power Through close readings of texts by Heidegger Levinas and Blanchot this book examines how the question of the other engages the very limits of philosophy rationality and power      *The Soterial Implications of Heidegger's Concept of Being* Dirk Pereboom, 1972

Converts to the Real Edward Baring, 2019-05-01 Phenomenology has the strongest claim to the mantle of continental philosophy Edward Baring shows that credit for its prodigious growth goes to a surprising group of early enthusiasts Catholic intellectuals Tracing debates in Europe from existentialism to speculative realism he shows why European philosophy bears the mark of Catholicism      **Transcendence and the Concrete** Jean Wahl, 2016-11-01 Jean Wahl 1888 1974 once considered by the likes of Georges Bataille Gilles Deleuze Emmanuel Levinas and Gabriel Marcel to be among the greatest French philosophers has today nearly been forgotten outside France Yet his influence on French philosophical thought can hardly be overestimated Levinas wrote that during over a half century of teaching and research Wahl was the life force of the academic extra academic and even to a degree anti academic philosophy necessary to a great culture And Deleuze for his part commented that Apart from Sartre who remained caught none the less in the trap of the verb to be the most important philosopher in France was Jean Wahl Besides engaging with the likes of Bataille Bergson Deleuze Derrida Levinas Maritain and Sartre Wahl also played a significant role in some cases almost singlehandedly in introducing French philosophy to movements like existentialism and American pragmatism and literature and thinkers like Hegel Kierkegaard Nietzsche Jaspers and Heidegger Yet Wahl was also an original philosopher and poet in his own right This volume of selections from Wahl's philosophical writings makes a selection of his most important work available to the English speaking philosophical community for the first time Jean Wahl was Professor of Philosophy at the Sorbonne from 1936 to 1967 save during World War II which he spent in the United States having escaped from the Drancy internment camp His books to appear in English include *The Pluralist Philosophies of England and America* Open Court 1925 *The Philosopher's Way* Oxford UP 1948 *A Short History of Existentialism* Philosophical Library 1949 and *Philosophies of Existence* Schocken 1969
