Reeves and Richard Campbell explore how TV news not only interprets reality in ways that reflect prevailing ideologies but is in many respects responsible for constructing that reality Their

examination of the complexity of television and its role in American social cultural and political conflict is focused specifically on the ways in which American television during the Reagan years helped stage and legitimate the war on drugs one of the great moral panics of the postwar era The authors persuasively argue for example that powder cocaine in the early Reagan years was understood and treated very differently on television and by the state than was crack cocaine which was discovered by the news media in late 1985 In their critical analysis of 270 news stories broadcast between 1981 and 1988 Reeves and Campbell demonstrate a disturbing disparity between the earlier presentation of the middle and upper class white drug offender for whom therapeutic recovery was an available option and the subsequent news treatment of the inner city black drug delinquent often described as beyond rehabilitation and subject only to intensified strategies of law and order Enlivened by provocative discussions of Nancy Reagan s antidrug activism the dramatic death of basketball star Len Bias and the myth of the crack baby the book argues that Reagan s war on drugs was at heart a political spectacle that advanced the reactionary agenda of the New and Religious Right an agenda that dismissed social problems grounded in economic devastation as individual moral problems that could simply be remedied by just saying no Wide ranging and authoritative Cracked Coverage Television News the Anti Cocaine Crusade and the Reagan Legacy is a truly interdisciplinary work that will attract readers across the humanities and social sciences in addition to students scholars journalists and policy makers interested in the media and drug related issues *The Family Novel in Russia and England, 1800-1880* Anna A.

Berman,2022-08-25 This book offers a new understanding of the relationship between family structures and narrative structure in the nineteenth century novel Comparing Russia and England it argues that the two nations had fundamentally different conceptions of the family and that these in turn shaped the way they constructed plots The English placed primary value on the vertical diachronic family axis looking back to ancestors and head to progeny while the Russians emphasized the lateral synchronic axis family expanding outward in the present from nuclear core to extended and chosen kin This difference shaped the way authors plotted consanguineal relations courtship and marriage and alternative kinship constructions Idealizing the domestic sphere and emphasizing family continuity the English novel made family a conservative force while Russian novels approached it as a backward site of patriarchal tyranny in desperate need of reform Russian family plots offered a progressive liberalizing push toward new nontraditional family constructions The book s comparative approach calls for a re evaluation of reigning theories of the novel theories that are based on the linear English family model and cannot accommodate the more complex Russian alternative It reveals where these theories fall short explains the reasons for their shortcomings and offers a new way of conceptualizing family s role in shaping the nineteenth century novel Classics from Dickens Eliot and Trollope to Dostoevsky Tolstoy and Turgenev are contextualized in the broader literary landscape of their day and Russia s great women writers regain their rightful place alongside their male counterparts as the book draws together family history literary analysis and novel theory Military Intelligence ,1987 **Women, History, and Theory**

Joan Kelly,2014-01-30 These posthumous essays by Joan Kelly a founder of women s studies represent a profound synthesis of feminist theory and historical analysis and require a realignment of perspectives on women in society from the Middle Ages to the present Mothering Evelyn Nakano Glenn,Grace Chang,Linda Rennie Forcey,2016-04-29 This volume presents a variety of unique perspectives on mothering as a socially constructed relationship assessing many of the political legal and cultural debates surrounding the issue *Inheritance Law And The Evolving Family* Ralph Brashier,2004 Nontraditional families are today an important part of American family life Yet when a loved one dies our inheritance laws are often stingy even towards survivors in the nuclear family With humor enthusiasm and a bit of righteous outrage Ralph C Brashier explores how probate laws ignore gender roles and marital contributions of the spouse often to the detriment of the surviving widow how probate laws pretend that unmarried couples particularly gay and lesbian ones do not exist how probate laws allow a parent to disinherit even the neediest child and how probate laws for nonmarital children adopted children and children born of surrogacy or other forms of assisted reproductive technology are in flux or simply don t exist A thoughtful examination of the current state of probate law and the inability of legislators to recognize and provide for the broad range of families in America today this book will be read by those with an interest in the relationship between families and the law across a wide range of academic disciplines **Feminist Politics and Human Nature (Philosophy and Society)** Alison M. Sourcebook of Family Theories and Methods Pauline Boss,William J. Doherty,Ralph LaRossa,Walter R. Schumm,Suzanne K. Steinmetz,2008-11-19 Origins We call this book on theoretical orientations and methodological strategies in family studies a sourcebook because it details the social and personal roots i e sources from which these orientations and strategies flow Thus an appropriate way to preface this book is to talk first of its roots its beginnings In the mid 1980s there emerged in some quarters the sense that it was time for family studies to take stock of itself A goal was thus set to write a book that like Janus would face both backward and forward a book that would give readers both a perspective on the past and a map for the future There were precedents for such a project The Handbook of Marriage and the Family edited by Harold Christensen and published in 1964 the two Contemporary Theories about the Family volumes edited by Wesley Burr Reuben Hill F Ivan Nye and Ira Reiss published in 1979 and the Handbook of Marriage and the Family edited by Marvin Sussman and Suzanne Steinmetz then in production **Feminism and Methodology** Sandra G.
