Kenneth Jamal Lighty,2013-08 A DISTANT CONNECTION is an absolute must read for all who find themselves intrigued by the criminal lifestyle in its many facets From a hi maximum security prison cell constructed to maximize human loneliness a site designed to kill the mind Kenneth Jamal Lighty manages to not only live but thrive Through self cultivated intellect and hard earned wisdom he uses the single most powerful weapon known to a prisoner the ink pen to not only bring the plight of the incarcerated into the consciousness of many throughout the world but also to make a difference by inspiring and informing those whom he manages to come into contact with In his book debut Kenneth s efforts to warn a generation of youth who appear to be enamored with street life are nothing short of remarkable Reaching out to several of his peers spanning several states across the country and with various affiliations he manages to create a pseudo panel providing a platform for prisoners to be able to share the hard earned wisdom attained from years of making their own mistakes in an effort to alter the trajectory of a generation that is seemingly on a road that will only lead to one or two places the penitentiary or the cemetery Via letters filled with rawness and empathy each reader is challenged to try a different route to success Each individual opens up to reveal the pain beneath the exterior and offers sound advice on how not to end up a victim of bad choices before it is too late Long overdue A Distant Connection is a much needed intervention that will hopefully inspire change and place our young people back on the path that will lead to a productive healthy future **The**

Four-Category Ontology E. J. Lowe,2005-12-01 E J Lowe sets out and defends his theory of what there is His four category ontology is a metaphysical system that recognizes two fundamental categorial distinctions which cut across each other to generate four fundamental ontological categories The distinctions are between the particular and the universal and between the substantial and the non substantial The four categories thus generated are substantial particulars non substantial particulars substantial universals and non substantial universals Non substantial universals include properties and relations conceived as universals Non substantial particulars include property instances and relation instances otherwise known as non relational and relational tropes or modes Substantial particulars include propertied individuals the paradigm examples of which are persisting concrete objects Substantial universals are otherwise known as substantial kinds and include as paradigm examples natural kinds of persisting objects This ontology has a lengthy pedigree many commentators attributing it to Aristotle on the basis of certain passages in his apparently early work the Categories At various times during the history of Western philosophy it has been revived or rediscovered but it has never found universal favour perhaps on account of its apparent lack of parsimony as well as its commitment to universals In pursuit of ontological economy metaphysicians have generally preferred to recognize fewer than four fundamental ontological categories However Occam s razor stipulates only

that we should not multiply entities beyond necessity Lowe argues that the four category ontology has an explanatory power unrivalled by more parsimonious systems and that this counts decisively in its favour He shows that it provides a powerful explanatory framework for a unified account of causation dispositions natural laws natural necessity and many other related matters such as the semantics of counterfactual conditionals and the character of the truthmaking relation As such it constitutes a thoroughgoing metaphysical foundation for natural science Contents List **Castro's Network in the United States (Fair Play for Cuba Committee)**. United States. Congress. Senate. Committee on the Judiciary,1963 Truth, etc. Jonathan Barnes,2007-01-25 Truth etc is a wide ranging study of ancient logic based upon the John Locke lectures given by the eminent philosopher Jonathan Barnes in Oxford Its six chapters discuss first certain ancient ideas about truth secondly the Aristotelian conception of predication thirdly various ideas about connectors which were developed by the ancient logicians and grammarians fourthly the notion of logical form insofar as it may be discovered in the ancient texts fifthly the question of the justification of deduction and sixthly the attitude which has been called logical utilitarianism and which restricts the scope of logic to those forms of inference which are or might be useful for scientific proofs In principle the book presupposes no knowledge of logic and no skill in ancient languages all ancient texts are cited in English translation and logical symbols and logical jargon are avoided so far as possible There is no scholarly apparatus of footnotes and no bibliography It can be read in an armchair Anyone interested in ancient philosophy or in logic and its history will find it interesting **Justification and the Truth-Connection** Clayton Littlejohn,2012-06-07 Presents and defends a bold new approach to the ethics of belief and to resolving the internalism externalism debate in epistemology The Morisot Connection (Book 8) Estelle Ryan,2015-09-14 Murdered criminals Flawless forgeries Encrypted operas The murder of an opera house director forces world renowned nonverbal communications expert Doctor Genevieve Lenard and her team into an impossible position protecting notorious criminals from what appears to be a serial killer Genevieve plunges into the world of opera uncovering secrets that a group of organised crime leaders would do anything to keep hidden She cannot allow her previous case unreliable witnesses or conflict with her team to distract her Not if she wants to prevent many innocent lives being lost in a shocking grand finale *Library Media Connection* ,1997 The Pontchartrain Connection John D.
