Jazz and Postwar French Identity Elizabeth Vihlen McGregor, 2016-06-23 In the context of a shifting domestic and international status quo that was evolving in the decades following World War II French audiences used jazz as a means of negotiating a wide range of issues that were pressing to them and to their fellow citizens Despite the fact that jazz was fundamentally linked to the multicultural through its origins in the hands of African American musicians happenings within the French jazz public reflected much about France s postwar society In the minds of many jazz was connected to youth culture but instead of challenging traditional gender expectations the music tended to reinforce long held stereotypes French critics musicians and fans contended with the reality of American superpower strength and often strove to elevate their own country s stature in relation to the United States by finding fault with American consumer society and foreign policy aims Jazz audiences used this music to condemn American racism and to support the American civil rights movement expressing strong reservations about the American way of life French musicians lobbied to create professional opportunities for themselves and some went so far as to create a union that endorsed preferential treatment for French nationals As France became more ethnically and religiously diverse due immigration from Africa Asia and the Caribbean French jazz critics and fans noted the insidious appearance of racism in their own country and had to contend with how their own citizens would address the changing demographics of the nation even if they continued to insist that racism was more prevalent in the United States As independence movements brought an end to the French empire jazz enthusiasts from both former colonies and France had to reenvision their relationship to jazz and to the music s international audiences In these postwar decades the French were working to preserve a distinct national identity in the face of weakened global authority most forcefully represented by decolonization and American hegemony Through this originally African American music French listeners commentators and musicians participated in a process that both challenged and reinforced ideas about their own culture and nation
