communication *Inter-Act: Interpersonal Communication Concepts, Skills, and Contexts, Eleventh Edition and Now Playing: Learning Communication Through Film* Kathleen S. Verderber, Rudolph F. Verderber, Cynthia Berryman-Fink, Russell Proctor, T. J. Jenkins, 2006-05-25 Magical Suspension James Combs, 2015-09-04 This book builds upon the author's extensive previous work on the movies adopting a more comprehensive and inquisitive stance for the study of moving pictures as a cultural movement and ludenic innovation. It returns to earlier analysis and commentary on this new invention and recreation quickly termed the movies and develops the initial impression of both moviegoers and observers that the movies appealed because they were fun. As such, the book examines the characteristics that made films so enjoyable, namely their use of magic presentation of myth and persistence of mnemonic recollection. The enduring appeal of moving pictures remains consistent even though the medium has proliferated and diversified so much so that now a good portion of the human race spends a great deal of time looking at moving pictures. The book is eclectic and exploratory, designed to urge consideration of moving pictures in this larger perspective as something that has changed and perhaps enriched the lives of many people, leaving inquirers the task of calculating the enormous significance and consequences of our motion picture experience for the conduct of our lives. Such an effort is not without merit since it now seems quite clear that the whole world is watching. *In the Company of Others* J. Dan Rothwell, 2016 Combining current research with humor, vivid examples, and practical advice, Rothwell brings human communication to life for students. Now in its fifth edition, *In the Company of Others* continues to use the communication competence model to help students apply theoretical lessons to their own skills.
