

Things will happen in our  
lives that will confuse us  
or even threaten to  
weaken our faith, but  
we should remind  
ourselves that Krishna  
has allowed that thing to  
happen for a reason.  
There's always a lesson  
to be learned and an  
opportunity for spiritual  
growth.

**Phenomenological Reflections on Mindfulness in the Buddhist Tradition** Erol Čopelj,2022-06-24 This book offers an original phenomenological description of mindfulness and related phenomena such as concentration sam dhi and the practice of insight vipassan It demonstrates that phenomenological method has the power to reanimate ancient Buddhist texts giving new life to the phenomena at which those texts point

Beginning with descriptions of how mindfulness is encountered in everyday pre philosophical life the book moves on to an analysis of how the Pali Nikayas of Theravada Buddhism define mindfulness and the practice of cultivating it. It then offers a critique of the contemporary attempts to explain mindfulness as a kind of attention. The author argues that mindfulness is not attention nor can it be understood as a mere modification of the attentive process. Rather becoming mindful involves a radical shift in perspective. According to the author's account being mindful is the feeling of being tuned in to the open horizon which is contrasted with Edmund Husserl's transcendental horizon. The book also elucidates the difference between the practice of cultivating mindfulness with the practice of the phenomenological epoch which reveals new possibilities for the practice of phenomenology itself. *Phenomenological Reflections on Mindfulness in the Buddhist Tradition* will appeal to scholars and advanced students interested in phenomenology, Buddhist philosophy and comparative philosophy.
