Party Vs. State in Post-1949 China Shiping Zheng, 1997-07-13 This book provides the most comprehensive analysis of one of the most important issues in China today the tensions between the Chinese Communist Party and the Chinese state legislative judicial administrative and military institutions Taking the neo institutionalist approach the author suggests that the Communist Party in post 1949 China faces an institutional dilemma the Party cannot live with the state and it cannot live without the state Zheng demonstrates that it is not only conceptually constructive but analytically imperative to distinguish the state from the Communist Party Secondly he integrates detailed study with broader generalizations about Chinese politics thus making efforts to overcome the tendency toward specialized scholarship at the expense of comparative and systemic understanding of China He also opens a new dimension of Chinese politics the uncertain and conflictual relationship between the Communist Party and the Chinese state

The Chinese Communist Party as Organizational Emperor Zheng Yongnian, 2009-12-16 The Chinese Communist Party CCP is the largest and one of the most powerful political organizations in the world today which has played a crucial role in initiating most of the major reforms of the past three decades in China China's rapid rise has enabled the CCP to extend its influence throughout the globe but the West remains uncertain whether the CCP will survive China's ongoing socio economic transformation and become a democratic country With rapid socio economic transformation the CCP has itself experienced drastic changes Zheng Yongnian argues that whilst the concept of political party in China was imported the CCP is a Chinese cultural product it is an entirely different breed of political party from those in the West an organizational emperor wielding its power in a similar way to Chinese emperors of the past Using social and political theory this book examines the CCP's transformation in the reform era and how it is now struggling to maintain the continuing domination of its imperial power The author argues that the CCP has managed these changes as a proactive player throughout and that the nature of the CCP implies that as long as the party is transforming itself in accordance to socio economic changes the structure of party dominion over the state and society will not be allowed to change

**From Mao to Market** Andrew H. Wedeman, 2003-07-10 Andrew Wedeman argues that China succeeded in moving from a Maoist command economy to a market economy because the central government failed to prevent local governments from forcing prices to market levels Having partially decontrolled the economy in the early 1980s economic reformers balked at price reform opting instead for a hybrid system wherein commodities had two prices one fixed and one floating Depressed fixed prices led to resource wars as localities battled each other for control over undervalued commodities while inflated consumer goods prices fuelled a headlong investment boom that saturated markets and led to the erection of import barriers Although local rent seeking and protectionism appeared to carve up the economy in reality they had not only pushed prices to market levels and cleared the way for sweeping reforms in the 1980s they had also pushed China past the pitfalls of reform that entrapped other socialist economies

Laliberte, Marc Lanteigne, 2007-12-18 As the Chinese Communist Party continues to move away from socialism it faces a growing number of challenges to the claim that it represents the sole legitimate governing body in China In order to reaffirm itself as the most effective force for keeping the country together the CCP has adapted to contemporary political conundrums in a variety of ways Rejecting pessimistic perspectives which predict an erosion of state power or naive optimism that state society relations will evolve towards a Western style pluralist democracy in the foreseeable future the contributions to this volume explore many ways in which the CCP selectively adapts to the challenges that have arisen from its strategy of rapid economic growth at the expense of political reform in order to maintain its authority and relevance Examining trends such as the reliance on religious charities originating from outside the PRC the revival of local governance in urban settings the passing of legislation for workers or the multiplication of environmental non governmental organizations this book tackles the question of whether the Chinese government can overcome these challenges *The Chinese Party State in the 21st Century Adaptation and the Reinvention of Legitimacy* will appeal to students and scholars of Chinese politics Asian politics comparative politics and political sociology *The Chinese Communist Party in Reform* Kjeld Erik Brødsgaard, Zheng Yongnian, 2006-04-18 Contrary to the expectations of many people China's recent economic growth has not led to the collapse of the Chinese Communist Party In fact the Party has recently carried out a peaceful and orderly transition to the so called fourth generation of leadership has revitalised itself and created a new younger and better trained cadre corps Despite this successful transformation there continue to be many problems that the Party will need to overcome if it is to remain in power including pressures for democratization in both urban and rural areas widespread corruption the emergence of new social groups and increasing dissatisfaction among workers who seem to be losing out in the present transition process *The Chinese Communist Party in Reform* explores the current state of the Chinese Communist Party and the many challenges that it faces It considers the dynamics of development in China the Party organization recruitment and management and the Party's role in society more widely It concludes by examining the prospects for the future of the Party including whether it will continue to be able to accommodate socio economic changes within China and pressures from abroad and the likely nature of its evolution Overall this book provides a comprehensive assessment of the internal dynamics of the Chinese Communist Party and its role in Chinese society **Asian Comparative Constitutional Law, Volume 2** Ngoc Son Bui, Mara Malagodi, 2024-08-22 This is the second in a 4 volume set that provides the definitive account of the major issues of comparative constitutional law in Asian jurisdictions Volume 2 looks at constitutional amendments and offers answers to questions about the formal rules for amending the constitution such as Who initiates an amendment proposal How is the amendment proposal adopted How are the amendments codified and the neo institutional questions regarding amendment practices such as Why is the constitution amended Who engages in the amendment process How does the amendment affect the political system and the society Volume 2 covers 17 Asian jurisdictions including Bangladesh Cambodia mainland China

Hanson, 2014-07-21 Twelve in depth country studies explore how the concepts of interests identities and institutions shape the politics of nations and regions      *China Since Tiananmen* Joseph Fewsmith, 2001-07-30 China Since Tiananmen is the first book to look comprehensively at the intellectual and political trends in the decade since the Tiananmen Incident 1989 to assess the ways in which China has changed Fewsmith looks on the one hand at the intellectual critique of the enlightenment tradition which had previously held a sacrosanct position in the thinking of liberal intellectuals since the May Fourth Movement of 1919 to explain the rise of neo conservatism and nationalism over the past decade On the other hand he examines the maneuverings of elite political actors to understand the constraints they operate under and how the conduct of elite politics has changed since Tiananmen Together these two approaches give a more comprehensive and realistic assessment of the forces that drive China today These trends are of great importance for anyone trying to understand Sino US relations      **Entrepreneurship in China** Keming Yang, 2016-04-29 The emergence of China as a major world economy is of great importance to the global political economy and to international business There has been much research on the macro level of institutional reform but little detailed work on the grassroots level of entrepreneurship in China This innovative book addresses this gap by investigating how an economic system dominated by central plans communist ideologies and suppressing bureaucracies could generate such energy from the bottom of society fuelling the country's economic growth Keming Yang's theory of entrepreneurship is based on two interrelated concepts double entrepreneurship and institutional holes He argues that the two concepts bridge a gap between the neo classical institutionalism of economic development and entrepreneurship studies that emphasize individual choice The rigorous theoretical framework is supported by substantial empirical research offering statistical analyses of survey data as well as detailed case studies This timely book will appeal to an interdisciplinary readership in sociology economics business studies and Chinese and Asian Studies      China's Use of Military Force Andrew Scobell, 2003-09-08 In this unique study of China's militarism Andrew Scobell examines the use of military force abroad as in Korea 1950 Vietnam 1979 and the Taiwan Strait 1995 1996 and domestically as during the Cultural Revolution of the late 1960s and in the 1989 military crackdown in Tiananmen Square Debunking the view that China has become increasingly belligerent in recent years because of the growing influence of soldiers Scobell concludes that China's strategic culture has remained unchanged for decades Nevertheless the author uncovers the existence of a Cult of Defense in Chinese strategic culture The author warns that this Cult of Defense disposes Chinese leaders to rationalize all military deployment as defensive while changes in the People's Liberation Army's doctrine and capabilities over the past two decades suggest that China's twenty first century leaders may use military force more readily than their predecessors      *Globalization and State Transformation in China* Yongnian Zheng, 2004 As China develops its economy the author argues it will be held back by its

Gabriel, 2006 China's economy is now comfortably among the world's elite in terms of size This book examines the contemporary Chinese economy focusing on the production appropriation and distribution of surplus value      **The Chinese Communist Party** Jérôme Doyon, Chloé Froissart, 2024-01-25 This volume brings together an international team of prominent scholars from a range of disciplines with the aim of investigating the many facets of the Chinese Communist Party's 100 year trajectory It combines a level of historical depth mostly found in single authored monographs with the thematic and disciplinary breadth of an edited volume This work stands out for its long term and multiscale approach offering complex and nuanced insights eschewing any Party grand narrative and unravelling underlying trends and logics composed of adaption but also contradictions resistance and sometimes setbacks that may be overlooked when focusing on the short term Rather than putting forward an overall argument about the nature of the Party the many perspectives presented in this volume highlight the complex internal dynamics of the Party the diversity of its roles in relation to the state as well as in its interaction with society beyond the state Our historical approach stresses impermanence beyond the apparent permanence of the Party's organisation and ideology while also bringing to light the recycling of past practices and strategies Looking at the Party's evolution over time shows how its founding structures and objectives have had a long lasting impact as well as how they have been tweaked and rearranged to adapt to the new economic and social environment the Party contributed to creating      **Small Town China** Beatriz Carrillo Garcia, 2011-04-19 While much has been written about rural migrant workers' experiences in the big cities population movements into China's vast network of towns and small cities has been largely neglected This book presents a detailed case study of rural migrant workers' experiences in a small town in a north China county The author explores the processes and institutions that enable or preclude the social inclusion of rural workers into the town's socio-economic system Inclusion and exclusion are assessed through an examination of rural workers' immersion into the urban labour market their access to welfare benefits and to social services such as housing education and health The book proposes that outside the larger cities there are alternative accounts of urban social change and of the integration of rural migrant workers It stresses the fact that the particular socio-economic structure of towns where the state owned share of the economy has been smaller and where consequently social and private forces have been more active allowed for a more open inclusion of rural workers Though shortcomings are still observed the book suggests that China's transformation may not necessarily result in dysfunctional and socially polarized urban environments This book will be of interest to students and scholars of China's rural migrant workers bottom up urbanization and small town development social policy and more broadly on contemporary social change in China      *State and Society in China's Democratic Transition* Xiaoqin Guo, 2012-10-12 This study aims to fill the gap in the existing literature on China's Democratic development by presenting a comprehensive and detailed examination of the key factors that have created and sustained state domination over society in China      *Urban Schools and*
