A History of Social Justice and Political Power in the Middle East Linda T. Darling, 2013-05-02 From ancient Mesopotamia into the 20th century the Circle of Justice as a concept has pervaded Middle Eastern political thought and underpinned the exercise of power in the Middle East The Circle of Justice depicts graphically how a government's justice toward the population generates political power military strength prosperity and good administration This book traces this set of relationships from its earliest appearance in the political writings of the Sumerians through four millennia of Middle Eastern culture It explores how people conceptualized and acted upon this powerful insight how they portrayed it in symbol painting and story and how they transmitted it from one regime to the next Moving towards the modern day the author shows how although the Circle of Justice was largely dropped from political discourse it did not disappear from people's political culture and expectations of government The book demonstrates the Circle's relevance to the Iranian Revolution and the rise of Islamist movements all over the Middle East and suggests how the concept remains relevant in an age of capitalism A must read for students policymakers and ordinary citizens this book will be an important contribution to the areas of political history political theory Middle East studies and Orientalism      **Architecture** Barnabas Calder, 2021-07-01 A groundbreaking history of architecture told through the relationship between buildings and energy The story of architecture is the story of humanity The buildings we live in from the humblest pre historic huts to today's skyscrapers reveal our priorities and ambitions our family structures and power structures And to an extent that hasn't been explored until now

architecture has been shaped in every era by our access to energy from fire to farming to fossil fuels In this ground breaking history of world architecture Barnabas Calder takes us on a dazzling tour of some of the most astonishing buildings of the past fifteen thousand years from Uruk via Ancient Rome and Victorian Liverpool to China's booming megacities He reveals how every building from the Parthenon to the Great Mosque of Damascus to a typical Georgian house was influenced by the energy available to its architects and why this matters Today architecture consumes so much energy that 40% of the world's greenhouse gas emissions come from the construction and running of buildings If we are to avoid catastrophic climate change then now more than ever we need beautiful but also intelligent buildings and to retrofit not demolish those that remain Both a celebration of human ingenuity and a passionate call for greater sustainability this is a history of architecture for our times

**Land Between the Rivers** Bartle Bull, 2024-09-10 The epic five millennia history of the region between the Tigris and Euphrates Rivers that was the birthplace of civilization and remains today the essential crossroads between East and West At the start of the fourth millennium BC at the edge of historical time civilization first arrived with the advent of cities and the invention of writing that began to replace legend with history This occurred on the floodplains of southern Iraq where the great rivers Tigris and Euphrates meet the Persian Gulf By 3000 BC a city called Uruk from which Iraq is derived had 80 000 residents Indeed as Bartle Bull reveals in his magisterial history if one divides the 5 000 years of human civilization into ten periods of five centuries each during the first nine of these the world's leading city was in one of the three regions of current day Iraq or to use its Greek name Mesopotamia Inspired by extensive reporting from the region to spend a decade delving deep into its history Bull chronicles the story of Iraq from the exploits of Gilgamesh almost certainly an historical figure to the fall of the Iraqi monarchy in 1958 that ushered in its familiar modern era The land between the rivers has been the melting pot and battleground of countless outsiders from the Akkadians of Hammurabi and the Greeks of Alexander to the Ottomans of Suleiman the Magnificent Here by the waters of Babylon Judaism was born and the Sunni Shia schism took its bloody shape Central themes play out over the millennia humanity's need for freedom versus the co eternal urge of tyranny the ever present conflict and cross fertilization of East and West with Iraq so often the hinge We tend to view today's tensions in the Middle East through the prism of the last hundred years since the Treaty of Versailles imposed a controversial realignment of its borders Bartle Bull's remarkable sweeping achievement reminds us that the region defined by the land between the rivers has for five millennia played a uniquely central role on the global stage

[Trouble in the West](#) Stephen Ruzicka, 2012-04-02 Trouble in the West provides the first full and continuous account of the Persian Egyptian War a conflict that continued for nearly the two hundred year duration of the Persian Empire Despite its status as the largest of all ancient Persian military enterprises including any aimed at Greece this conflict has never been reconstructed in any detailed and

comprehensive way Thus *Trouble in the West* adds tremendously to our understanding of Persian imperial affairs At the same time it dramatically revises our understanding of eastern Mediterranean and Aegean affairs by linking Persian dealings with Greeks and other peoples in the west to Persia's fundamental ongoing Egyptian concerns In this study Stephen Ruzicka argues that Persia's Egyptian problem and conversely Egypt's Persian problem were much more important in the eastern Mediterranean and Aegean worlds than our conventional Greek centered perspective and sources have allowed us to see In looking at this conflict as one stage in an enduring east west conflict between successive Near Eastern imperial powers and Egypt one which stretched across nearly the whole of ancient history it represents an important turning point by pulling in remote western states and peoples who subsequently became masters of Egypt western opposition to Near Eastern power was sustained right up to the 7th century Arab conquests For classicists and historians of the ancient Near East *Trouble in the West* will serve as a valuable and long overdue resource [Routledge Library Editions: Iran Mini-Set A: History 10 vol set](#) Various,2021-11-17 Mini set A History re issues 10 volumes originally published between 1902 and 1984 and examines the legacy of British control in Persia and the origins of the conflict between Iran Iraq For institutional purchases for e book sets please contact online sales tandf co uk customers in the UK Europe and Rest of World [Dreams of Subversion in Medieval Jewish Art and Literature](#) ,1997 Europe's Jewish minority culture was subjected to a barrage of public images proclaiming the dominance of the Christian majority This book is the first to explore the Jewish response to this assault in the development of a visual culture through which Jews could affirmatively construct their identity as a people It demonstrates how medieval Jews gave voice to messages of protest and dreams of subversion by actively appropriating and transforming the quintessential symbols of the dominant culture *Ethno-symbolism and Nationalism* Anthony D.
