The Politics of Chinese Communism Ilpyong J. Kim, 2023-07-28 The political system established by the Chinese Communist Party in 1949 had its origins in many respects in the Chinese Soviet Republic of 1931-1934 based in southern Kiangsi province about 400 miles southwest of Shanghai The Kiangsi period was important because it gave the Chinese Communists their first opportunity to govern an extensive area and a large population and in so doing to develop methods of mass mobilization as well as new techniques for conducting party and government affairs Kim explores the evolution of the Chinese Communist movement during the Kiangsi soviet period especially its organizational concepts behavioral patterns and development techniques of mass line politics He seeks answers to several questions What notions of organization shaped the Kiangsi political system Who formulated the policies How were they implemented at the rice roots level of government By analyzing Mao Tse tung's writings on organization and comparing them with those of other Chinese Communist theoreticians he achieves fresh insights into Mao's approach to administration and bureaucratic organization The distinct contribution of this book lies in its focus on such issues as how the Chinese Communist leaders viewed organizational problems within their movement especially following the failure of the 1947 revolution how they responded to these problems and how they maintained a balance of power among the party the government and the Red Army while administering the expanding territorial base and managing complex organizations This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1973

Politics in China William A. Joseph, 2019-04-25 On October 1 2019 the People's Republic of China PRC will celebrate the 70th anniversary of

its founding And what an eventful and tumultuous seven decades it has been During that time under the leadership of the Chinese Communist Party CCP China has been transformed from one of world s poorest countries into one of its fastest growing economies and from a weak state barely able to govern or protect its own territory to a rising power that is challenging the United States for global influence But in the late 1950s the PRC experienced the most deadly famine in human history caused largely by the actions and inactions of its leaders Not long after there was a collapse of government authority that pushed the country to the brink of and in some places actually into civil war and anarchy And in 1989 the CCP unleashed the army to brutally crush demonstrations by students and others calling for political reform China is now for the most part peaceful prospering and proud The CCP maintains a firm grip on power through a combination of harsh repression and popular support largely based on its recent record of promoting rapid economic growth Yet the party and country face serious challenges on many fronts including a slowing economy environmental desecration pervasive corruption extreme inequalities ethnic unrest and a rising tide of social protest Politics in China provides an accessible yet authoritative introduction to how the world s most populous nation and rapidly rising global power is governed today The third edition has been extensively revised thoroughly updated and includes a new chapter on the internet and politics in China The book s chapters provide overviews of major periods in China s modern political history from the mid nineteenth century to the present examinations of key topics in contemporary Chinese politics and analyses of developments in four important areas located on China s geographic periphery Tibet Xinjiang Hong Kong and Taiwan

The Spirit of Chinese Politics Lucian W. Pye,1992 Lucian Pye one of the most knowledgeable observers of China unfolds in this book a deep psychological analysis of Chinese political culture The dynamics of the Cultural Revolution the behavior of the Red Guards and the compulsions of Mao Tse tung are among the important symptoms examined But Pye goes behind large events exploring the more enduring aspects of Chinese culture and the stable elements of the national psychology as they have been manifested in traditional Republican and Communist periods He also scans several possible paths of future development The emphasis is on the roles long played by authority order hierarchy and emotional quietism in Chinese political culture as shaped by the Confucian tradition and the institution of filial piety and the resulting confusions brought about by the displacements of these traditions in the face of political change and modernization In this new edition Pye adds a chapter on the basic tension between consensus and conflict in the operation of Chinese politics illustrating the spirit in action and another discussing the great gap that persists between the worlds of the political leadership and of society at large in post Tiananmen China

Communist Politics in Action A. Doak Barnett, 1969 These pioneering studies representative of the best research now being done on China by a new generation of young scholars focus on particular aspects of the Chinese Communist political system and the course of its development By analyzing the characteristics of the system at the subnational level as it affects local areas and particular groups they attempt to provide new insights into the nature of the system as a whole At the same time they move toward more effectively integrating China studies into the mainstream of political science The Chinese Communist Party as Organizational Emperor Zheng Yongnian, 2009-12-16 The Chinese Communist Party CCP is the largest and one of the most powerful political organizations in the world today which has played a crucial role in initiating most of the major reforms of the past three decades in China China's rapid rise has enabled the CCP to extend its influence throughout the globe but the West remains uncertain whether the CCP will survive China's ongoing socio economic transformation and become a democratic country With rapid socio economic transformation the CCP has itself experienced drastic changes Zheng Yongnian argues that whilst the concept of political party in China was imported the CCP is a Chinese cultural product it is an entirely different breed of political party from those in the West an organizational emperor wielding its power in a similar way to Chinese emperors of the past Using social and political theory this book examines the CCP's transformation in the reform era and how it is now struggling to maintain the continuing domination of its imperial power The author argues that the CCP has managed these changes as a proactive player throughout and that the nature of the CCP implies that as long as the party is transforming itself in accordance to socio economic changes the structure of party dominion over the state and society will not be allowed to change *New Perspectives on the Chinese Communist Revolution* Tony Saich, Hans J. Van de Ven, 1995 The result of a conference cosponsored by the Sinological Institute Leiden U and the International Institute of Social History Amsterdam and held during January 1990 this collection of essays presents new perspectives on the history of the Chinese Communist Party CCP between its founding in 1920 and its conquest of China in 1949 Employing the voluminous primary sources that have become available in the last decade and a half the authors draw attention to events and places that until now have suffered historiographical neglect or offer revisionist interpretations of the signal events and leading figures of CCP history in many cases relating them to new theoretical perspectives on culture and local society including language and gender relations Paper edition unseen 32 50 Annotation copyright by Book News Inc Portland OR **Chinese Communist Politics in Action** Arthur Doak Barnett, 1972 **China in World Politics** Judith F.
