Late Medieval England Douglas Biggs, Sharon Michalove, Compton Reeves, 2021-10-25 This volume deals with political military social architectural and literary aspects of fifteenth century England The essays contained in the volume range across the century from some of the leading scholars currently working in the period Contributors Mark Addison Amos Douglas Biggs Kelly DeVries Matthew Boyd Goldie Virginia Henderson Gwyn Meirion Jones Michael Jones Helen Maurer Sharon D Michalove Michael D Myers Anthony J Pollard A Compton Reeves and Joel Rosenthal Church And Society In England 1000-1500 Andrew Brown, 2017-03-14 What impact did the Church have on society How did social change affect religious practice Within the context of these wide ranging questions this study offers a fresh interpretation of the relationship between Church society and religion in England across five centuries of change Andrew Brown examines how the teachings of an increasingly universal Church decisively affected the religious life of the laity in medieval England However by exploring a broad range of religious phenomena both orthodox and heretical including corporate religion and the devotional practices surrounding cults and saints Brown shows how far lay people continued to shape the Church at a local level In the hands of the laity religious practices proved malleable Their expression was affected by social context status and gender and even influenced by those in authority Yet as Brown argues religion did not function simply as an expression of social power hierarchy patriarchy and authority could be both served and undermined by religion In an age in which social mobility and upheaval particularly in the wake of the Black Death had profound effects on religious attitudes and practices Brown demonstrates that our understanding of late medieval religion should be firmly placed within this context of social change The Antichrist and the Lollards: Apocalypticism in Late Medieval and Reformation England Curtis V. Bostick, 2021-10-11 This study examines expectations of imminent judgment that energized reform movements in Late Medieval and Reformation Europe It probes the apocalyptic vision of the Lollards followers of the Oxford professor John Wycliff 1384 The Lollards repudiated the medieval church and established conventicles despite officially sanctioned prosecution While exploring the full spectrum of late medieval apocalypticism this work focuses on the diverse range of Wycliffite literature political and religious treatises sermons biblical commentaries including trial records to reveal a dynamic strain of apocalyptic discourse It shows that sixteenth century English apocalypticism was fed by vibrant indigenous Wycliffite well springs The rhetoric of Lollard apocalypticism is analyzed and its effect on carriers and audiences is investigated illuminating the rise of evil in church and society as perceived by the Lollards and their radical reform program *New Worlds, Lost Worlds* Susan Brigden, 2002-09-24 No period in British history has more resonance and mystery today than the sixteenth century *New Worlds Lost Worlds* brings the atmosphere and events of this great epoch to life Exploring the underlying religious motivations for the savage violence and turbulence of the period from Henry VIII's break with Rome to the overwhelming threat of the Spanish Armada Susan Brigden investigates the actions and influences of such near mythical figures as Elizabeth I Thomas More Bloody Mary and Sir Walter Raleigh Authoritative and accessible *New Worlds*

Lost Worlds the latest in the Penguin History of Britain series provides a superb introduction to one of the most important compelling and intriguing periods in the history of the Western world *Lord of the Sacred City: The Episcopus exclusus in Late Medieval and Early Modern Germany* Jeff J. Tyler, 2021-10-11 Urban histories have emphasized the rise of civic autonomy and proto democracy Based on chronicle and archival sources this volume focuses on German bishops former lords of the city and fierce opponents of civic freedom The author investigates how bishops contested exclusion from political economic and religious dimensions of civic life Episcopus exclusus which culminated in the Protestant Reformation Four chapters are devoted to episcopal expulsion throughout Germany and the cities of Constance and Augsburg in particular A remarkable section explores the puzzle of the bishop s civic survival in the later Middle Ages made possible through episcopal ritual The emphasis on city bishop and ritual will be of special interest to urban historians as well as to scholars of medieval religion the reformation church history church state relations and social history Art and Politics in Early Modern Germany: Jörg Breu the Elder and the Fashioning of Political Identity, ca. 1475-1536 Cuneo, 2021-10-11 An exploration of the interaction between art and politics in early modern Germany this work focuses on art political in content produced by the Augsburg artist Jörg Breu the Elder during the second and third decades of the sixteenth century The book argues for the function of the art as fashioning political identities The artist Jörg Breu is first introduced His work for the city of Augsburg and for Habsburg and Wittelsbach rulers are examined These works are placed within their historical context and analyzed according to how they articulate themes of warfare ceremony and history in order to construct political identity The analysis of Breu s city chronicle and of the response of his art to political contest is particularly useful for historians of art and of politics The Sainly Politics of Catherine of Siena F. Thomas Luongo, 2018-07-05 Saint Catherine of Siena 1347-1380 has become a defining figure in the history of medieval religion and one of the main exemplars of the feminine turn in late medieval religious culture Despite a hagiographical tradition and historiography that has placed Catherine at a mystic remove from the politics of her day Catherine s public authority was shaped by politics both locally in Siena and broadly within late fourteenth century contests between the papacy and the Republic of Florence for hegemony in central Italy In *The Sainly Politics of Catherine of Siena* F. Thomas Luongo combines literary critical readings of Catherine s letters she was the author of one of the largest collections of medieval letters with political and social analysis Drawing on a wide range of archival sources Luongo investigates how Catherine s spiritual authority and sanctity were linked with contemporary political and cultural developments He shows how the political situation of the church in Italy and a culture that privileged female spirituality and prophetic speech facilitated Catherine s emergence into a public role The Catherine who emerges from Luongo s well written pages is a splendid example of what can result when a historian asks fresh questions about a familiar figure s life and brings new materials and methods to bear in formulating answers *The Sainly Politics of Catherine of Siena* offers a woman more complex and interesting than the figure portrayed in most contemporary scholarship **Early Modern**
