Religion In Aging And Health Theoretical Foundations And Methodological Frontiers:

Religion in Aging and Health Jeffrey S. Levin, 1994 This book brings together key scholars and practitioners from a range of fields in order to advance epidemiological and gerontological research into the role of religion in physical psychosocial and mental health Part One addresses such issues as hope forgiveness the psychodynamics of faith and belief and coping in a theoretical context Part Two seeks to advance the methodological sophistication of research in this area with an emphasis on measurement and design issues

Methods in Religion, Spirituality & Aging James W. Ellor, 2013-10-18 Since the 1971 White House Conference on Aging in the United States the need to move from religiosity into new areas such as Spiritual Assessment and Spirituality has emerged This movement has picked up momentum among scholars particularly in terms of research in the area of Spirituality While spirituality as a term is employed in many new studies this term continues to defy the quest for a single definition and method This book is divided into three sections In the first the authors reflect on the philosophical and theological issues presented by these terms from a variety of both cognate and practical methodological approaches The second section offers insights from the major professions of sociology psychology public health nursing and social work The final section offers insight and assistance to researchers and authors on specific religious traditions This book will be important for anyone working to develop such practical tools as spiritual assessment forms to those who engage in more formal scholarly investigation

Religion, Spirituality, and Aging Harry R Moody, 2012-12-06 Learn how to make a more positive impact with your social work with the aged Religion is an important coping mechanism for many aging adults Religion Spirituality and Aging A Social Work Perspective presents the latest research that shows how religion and spirituality can improve quality of life for elders Respected social work researchers and scholars provide insight and practical methods for fostering positive aging while also considering how spirituality and religion can affect practitioners themselves The full range of advantages and ethical implications are discussed in clear detail from a social work viewpoint Case studies plainly illustrate the positive impact that the inclusion of spirituality and religion in an aging person's life may have on their physical and mental welfare Organized social work in the early twentieth century actively tried to distance itself from its

roots as a form of religious charity in favor of becoming a scientific and professional endeavor Religion Spirituality and Aging once again bridges the gap between social work and spiritual matters by presenting penetrating articles that discusses the issues of the aging soul while examining ways to improve care Creative strategies are offered to contribute to the spiritual side of aging while considering every implication and ethical question The compilation is extensively referenced and includes helpful figures and tables to clearly illustrate data and ideas Religion Spirituality and Aging discusses the latest social work trends and attitudes toward spirituality prayer meditation and acts of altruism as interventions an empirical study of how social workers use religion and spirituality as an intervention ethical considerations and best practices religion and spirituality during long term care the Postcards to God project dreams and their relationship to the search for meaning in later life a spiritual approach to positive aging through autobiography dementia and spirituality creating new rituals for sacred aging spiritual master Henri Nouwen s principles of aging and his approaches to caring for older people an interview study on elders spirituality and the changes manifested in their views of religion Religion Spirituality and Aging is a remarkable reminder that elders are our future selves This erudite well reasoned examination of aging and spirituality from a social work perspective is crucial reading for social workers human service professionals who work with the aged and gerontology scholars

Religion in the Lives of African Americans Robert Joseph Taylor, Linda M. Chatters, Jeffrey S. Levin, 2004 Religion in the Lives of African Americans Social Psychological and Health Perspectives examines many broad issues including the structure and sociodemographic patterns of religious involvement the relationship between religion and physical and mental health and well being the impact of church support and the use of ministers for personal issues and the role of religion within specific subgroups of the African American population such as women and the elderly Authors Robert Joseph Taylor Linda M Chatters and Jeff Levin reflect upon current empirical research and derive conclusions from several wide ranging national surveys as well as a focus group study of religion and coping Recommended for students taking courses in racial and ethnic studies multicultural and minority studies black studies religious studies psychology sociology human development and family studies gerontology social work public health and nursing

Faith, Medicine, and Science Harold G Koenig, Jeff Levin, 2013-10-11 A perfect introduction to the connection between religious faith and physical and mental health Faith Medicine and Science A Festschrift in Honor of Dr David B Larson is a comprehensive collection of groundbreaking work from one of the principal figures in the establishment expansion and acceptance of scientific research at the interface of religion spirituality and health Dr Jeff Levin and Dr Harold G Koenig honor their late colleague with a retrospective of his writings on the impact of religious faith and identity on physical and mental health and on a variety of social issues including criminal behavior substance abuse mental illness juvenile delinquency reproductive decisions marital satisfaction family functioning and the quality of life The book also features a concise history of the religion and health field a biography of Dr Larson and tributes essays and remembrances from the leading figures in the field Faith Medicine and

Science honors Dr Larson's role in raising awareness of the health effects of religious faith and his vision and efforts in establishing coursework on religion and spirituality within undergraduate and graduate medical education programs. His body of theoretical and empirical writings serves as a permanent record of the powerful role played by religion and spirituality and his work stands as a lasting contribution to science, medicine, and society. These articles combine with the book's supplemental features to provide social and behavioral scientists, medical researchers, and clinicians with an essential resource for clinical research and education. Topics examined in *Faith, Medicine, and Science* include the religious life of alcoholics, religion, spirituality, and mortality; the impact of religion on men's blood pressure; the systematic analysis of research on religious variables; a systematic review of nursing home research; religious affiliations in mental health research samples as compared with national samples; the associations between dimensions of religious commitment and mental health; and much more. *Faith, Medicine, and Science: A Festschrift in Honor of Dr. David B. Larson* documents the work of one of the most important writers on the interface of the human spirit and the healing arts. His death in 2002 at the age of 54 remains a profound loss, but through this book, his pioneering research will continue to serve as a thorough and accessible introduction to the religion and health field. *Handbook of Emotion, Adult Development, and Aging*, Carol Magai, Susan H.

McFadden, 1996-10-24 The field of emotions research has recently seen an unexpected period of growth and expansion both in traditional psychological literature and in gerontology. *The Handbook of Emotion, Adult Development, and Aging* provides a broad overview and summary of where this field stands today, specifically with reference to life course issues and aging. Written by a distinguished group of contributing authors, the text is grounded in a life span developmental framework while advancing a multidimensional view of emotion and its development and incorporating quantitative and qualitative research findings. The book is divided into five parts. Part One discusses five major theoretical perspectives including biological, discrete emotions, ethological, humanistic, and psychosocial. Part Two on affect and cognition discusses the role of emotion in memory, problem solving, and internal perceptions of self and gender. Part Three on emotion and relationships expands on the role of emotion in sibling and parent-child relationships as well as relationships between friends and romantic partners and the emotional reaction to interpersonal loss across the life span. Part Four on stress, health, and psychological well-being treats issues of stress and coping, religion, personality, and quality of life. The final part on continuity and change in emotion patterns and personality discusses emotion and emotionality throughout the life span. An ideal reference source for professionals across a wide range of disciplines, the text summarizes recent important developments in this fast-growing area of psychology and proposes many new directions for future research. Provides a biopsychological view on emotion in adulthood from a life span context. Presents the new perspective on emotion in older adults actively engaged in emotion self-regulation. Describes the intimate connection between emotion and the structure of personality. Demonstrates a new perspective on what emotion is, its importance across the life span, its connections with cognition, its role in interpersonal

relation and the way it influences both stability and change in adulthood Illustrates the interpersonal nature of emotion Provides theoretically based leading edge research from international authors Five areas of coverage include Theoretical perspectives Affect and cognition Emotion and relationships Stress health and psychological well being Continuity and change in emotion patterns and personality Coverage includes Five major theoretical perspectives including biological discrete emotions ethological humanistic and psychosocial The role of emotion in memory problem solving and internal perceptions of self and gender The role of emotion in sibling and parent child relationships relationships between friends and romantic partners and the emotional reaction to interpersonal loss across the lifespan Issues of stress and coping religion personality and quality of life Emotion and emotionality throughout the lifespan

Transforming Chaplaincy Steve Nolan, Annelieke Damen, 2021-10-28 Evidence based medicine has transformed contemporary medical practice For over twenty five years George Fitchett has been a pioneering advocate of the view that evidence based spiritual care can and should equally transform chaplaincy This book collects a key selection from his ground breaking research As models of good research practice these papers demonstrate the real world value of research and introduce their readers to issues that have continuing importance to spiritual care and professional chaplaincy As such this collection offers an ideal introduction to spiritual care research The collection is complemented by three essays specially commissioned from observers well positioned to comment on future directions for both professional chaplaincy and spiritual care research

Religious Influences on Health and Well-Being in the Elderly K. Warner Schaie, PhD, Neal Krause, PhD, Alan Booth, PhD, 2004-06-15 What makes the book's approach so captivating is that each chapter is written by a different researcher in the study of religion and health These researchers are responsible for significant portions of the existing literature and methodologies found in this field today The versatility of the book warrants special mention It is effective as a survey of work that has already been done on this topic At the same time it serves as a wellspring of ideas for new research This work makes a valuable contribution to the present understanding of research on religion and health It also serves as a road map to help chart directions for future endeavors in the field

Sociology of Religion This volume focuses on the ways in which religious institutions religious practices and religious organizations impact the health and well being of

older persons Topics examined include the conceptualization and measurement of religion in late life the relationship between religious coping and possible stress reduction the role of forgiveness as an alternate mediator how social class gender and race can influence the specific effect of religion and religious institutions in a diverse aging society Contributors include L Chatters K Ferraro L K George E Idler S McFadden and K Meador **Homo Religiosus?** Timothy Samuel Shah,Jack Friedman,2018-01-11 Examines whether religion is natural to human experience and whether this helps to ground a universal right to religious freedom **Marx, Critical Theory, and Religion** ,2006-08-01 The Sociology of Religion has had several frameworks guiding its analysis including functionalism interpretive sociology phenomenology symbolic interactionism and now rational choice theory Marxism has tended to ignore religion assuming it is something that would eventually disappear even though it retained theological elements This collection of essays brings together a group of scholars who use frameworks provided by Marx and Critical Theory in analyzing religion It s goal is to establish a critical theory of religion within the sociology of religion as an alternative to rational choice In doing so it engages in a critique of the positivism uncritical praise of the market neoconservatism and one dimensional conception of rationality of the rational choice theory of religion *Faith and Money* Lisa A. Keister,2011-09-05 For those who own it wealth can have extraordinary advantages High levels of wealth can enhance educational attainment create occupational opportunities generate social influence and provide a buffer against financial emergencies Even a small amount of savings can improve security mitigate the effects of job loss and other financial setbacks and improve well being dramatically Although the benefits of wealth are significant they are not enjoyed uniformly throughout the United States In the United States because religion is an important part of cultural orientation religious beliefs should affect material well being This book explores the way religious orientations and beliefs affect Americans incomes savings and net worth Patient Participation in Palliative Care Barbara Monroe,David Oliviere,2003 Patient participation and user involvement are central to current thinking about the effective delivery of desired healthcare outcomes Working with the person who lies behind every patient is core to palliative care A voice can only become significant when it is listened to and acted upon With palliative care increasingly addressing the needs of people with a variety of conditions in a range of settings as well as with advances in research technology and information the challenge to be a voice for the voiceless is greater than ever This book addresses key aspects in the provision of patient centred palliative care and tracks significant developments in user involvement It sets the philosophy within the cultural social and political context of modern healthcare particularly addressing issues of quality standards education and bereavement A key component in the delivery of high quality palliative care is the multi professional team Following a discussion of teamwork five core professions present a critical analysis of their working practices The book concludes with a commentary from a palliative care user and a bereaved carer It is often somewhat glibly asserted that the patient is or should be at the centre of care There have been few attempts to examine how to keep him or her there without professional needs

and protocols crowding him or her out This book asks how we listen and why we listen The book focuses on the challenges of how professionals can keep the needs of the patient central in clinical care and how the patient can influence the direction of that care
