Light Phenomena Mark Fox,2013-06-15 This book is a study of unusual light phenomena based on almost 400 unpublished accounts of modern day encounters with strange lights collected over a period of thirty years held at the University of Wales Lampeter It is an original and perennially topical book that goes beyond existing studies of unusual light phenomena such as lights encountered during angelic experiences near death experiences after death communications in a number of ways It shows for example that experiences of unusual spiritual religious and paranormal lights are cross cultural trans historical and are reported widely in the present day but not necessarily experienced when near to death It also demonstrates that these experiences share to a remarkable degree a common core showing by drawing on a large number of vivid unpublished and dramatic testimonies that unusual lights typically manifest at times of crisis and are overwhelmingly benign and loving producing turning points in the lives of experiencers and typically setting them in new spiritual and creative directions

Transformative Religious Experience Joshua Iyadurai, 2015-04-30 What makes a priest of one religion become a preacher of another religion How could a person embrace a religion suddenly that he or she had up to then opposed Why would young women risk their reputation and endanger their lives for the sake of newfound faith How could an alcoholic detest a sip of wine all of a sudden What drives an atheist to become an ardent worshiper of God How could an intelligent person relate to God as to an adult human being Transformative Religious Experience answers these questions with fascinating narratives of conversion These narratives together show how the transforming effects of conversion permeate the daily lives of converts in a multireligious context Joshua Iyadurai analyzes psychologically the mystical turning point in the conversion process and finds that the divine human encounter entails a cognitive restructuring a new set of beliefs values and desires replaces previously held religious beliefs values and desires By drawing insights from the fields of psychology sociology anthropology and theology Iyadurai develops an interdisciplinary step model from a phenomenological perspective to explain the conversion process that incorporates the religious practices and social psychological factors while giving a central place to religious experience

If Billy Sunday Comes to Town - Delusion as a Religious Experience? Cor Arends, 2014 This book explores how religious delusion can be acknowledged as a religious experience In addition the book presents a detailed case study of the life of Presbyterian minister Anton T Boisen 1876-1965 his crises and the religious delusion that brought him to the brink of the abyss after the

trauma he experienced during World War I Back cover *The Cambridge Companion to Religious Experience* Paul K. Moser, Chad Meister, 2020-07-16 For centuries theologians and philosophers among others have examined the nature of religious experience Students and scholars unfamiliar with the vast literature face a daunting task in grasping the main issues surrounding the topic of religious experience The Cambridge Companion to Religious Experience offers an original introduction to its topic Going beyond an introduction it is a state of the art overview of the topic with critical analyses of and creative insights into its subject Religious experience is discussed from various interdisciplinary perspectives from religious perspectives inside and outside traditional monotheistic religions and from various topical perspectives Written by leading scholars in clear and accessible prose this book is an ideal resource for undergraduate and graduate students teachers and scholars across many disciplines The Confusion of Worlds Heiner Schwenke, 2019-01-31 The idea of the resurrection of the physical body and the eternal continuation of life with this body in a future paradisiacal kingdom of God on earth is one of the most enigmatic of religious ideas It fully contradicts our knowledge of the transitoriness of all things in this universe According to the author the origin for this idea lies in certain forms of otherworld experiences as for example reported by people who had near death experiences encounters with the dead in brilliantly beautiful bodies and the experience of paradisiacal seemingly earthly landscapes He observes that cultures with a pre modern cosmology sometimes projected such otherworld experiences onto this world to distant and unknown locations on earth These experiences were the blueprint for an expectation of paradisiacal conditions on earth The author establishes parallels between the reports of otherworld experiences and the eschatological ideas of Zoroastrianism Judaism and Christianity He shows that otherworld experiences can indeed foster the expectation of paradisiacal conditions on earth by referring to the Ghost Dance movement of the Lakota people in 1890 He presumes that the confusion of worlds proved fatal not only for the Lakota people but also for Jesus of Nazareth Thoughts on Religious Experience Archibald Alexander, 1844 Present-Day Spiritualities, 2013-10-10 Many forms of present day Western spirituality contribute to people's well being whereas others have raised criticism The study of these different forms is however complicated by their continuously diverging practices and ideas By bringing to bear a multidisciplinary approach the ten specialists of this volume are able to analyze diverse new instances of spirituality e g in religious contexts Buddhism Christianity popular use organizations and enterprises alternative health service and works of art Most contributions also discuss methods and theories In their editorial chapters Elisabeth Hense Frans Jespers and Peter Nissen show the remarkable overlaps in the approaches definitions and evaluations of the contributions in this volume and provide a theoretical framework Both the fresh analyses and the theoretical reflections in this volume point the way to new approaches in this field of study Contributors include Jerry Biberman Mark Elliott Miguel Farias Johan Goud Paul Heelas Elisabeth Hense Frans Jespers Hubert Knoblauch Peter Nissen Paul van der Velde The Varieties of Religious Experience William James, 1902 On t p Being the Gifford lectures on natural religion delivered at Edinburgh in 1901 1902 **Religious**

Sharing the Sacred Anna Bigelow, 2010-01-28 Inter religious relations in India are notoriously fraught not infrequently erupting into violence This book looks at a place where the conditions for religious conflict are present but active conflict is absent Bigelow focuses on a Muslim majority Punjab town Malkerkotla where both during the Partition and subsequently there has been no inter religious violence With a minimum of intervention from outside interests Muslims Hindus and Sikhs have successfully managed conflict when it does arise Bigelow explores the complicated history of the region going back to its foundation by a Sufi saint in the fifteenth century Combining archival and interview material she accounts for how the community's idealized identity as a place of peace is realized on the ground through a variety of strategies As a story of peace in a region of conflict this study is an important counterbalance to many conflict studies and a corrective to portrayals of Islamic cultures as militant and intolerant This fascinating town with its rich history will be of interest to students and scholars of Islam South Asia and peace and conflict resolution

Religious Experience in Modern Poetry Ewa Panecka, 2019-10-17 This study on religious experience in modern poetry features innovatory and accessible close readings of some of the most beloved authors of English verse In today's seemingly secular age religion still remains a highly contested subject The selection of texts analysed here is representative of a wide spectrum of attitudes including a sharply critical refusal to acknowledge Christianity as the basis of civilization Some poets see national religion as a framework for cultural identity while others worship nature as the omnipotent Force of Life trying to create their own gods Rather than reducing poetry to a background for philosophical analysis or theological deliberation this book presents diverse modes of the poetic endeavor to capture and convey the divine The chapters provide a range of perspectives on individual experience rendered into poetry as a subtle relationship between faith perception and language The text will be of interest to anyone looking for new ways of reading poetry as a spiritual quest

Encountering Mystery Dale C. Allison, 2022-07-26 Despite widespread skepticism on the matter a significant number of people today have stories of religious experience moments of inexplicable terror or rapturous joy visions near death experiences of the afterlife encounters with angels heavenly voices and premonitions How should rationally minded people respond What would your reaction be if someone told you that one night while sitting alone she saw through the window a brilliant light descend from the sky until it was so large that it filled the room and that it radiated a feeling of pure love And what would you say if a friend confided that one night he woke up and could not move felt he was being suffocated and sensed an evil spirit in the room By default in the secular age we are skeptical about anything mysterious or supernatural More likely than not most people would respond to the stories above with embarrassment and concern about the person's grasp of reality or they would attempt to explain them away

through rational or scientific means But the truth is that religious experiences like these are not as uncommon as they seem although talking about such experiences often is This is the case even in a faith tradition such as Christianity despite the Bible s numerous accounts of miraculous and mysterious happenings In *Encountering Mystery* noted biblical scholar Dale Allison makes the argument that stories of religious experience are meaningful and not to be marginalized and that we have a moral prerogative to lovingly engage with such stories regardless of whether we have had similar experiences Through a close look at phenomena such as moments of inexplicable terror or rapturous joy visions near death experiences of the afterlife encounters with angels heavenly voices and premonitions Allison shows how ordinary practices of faith need not be at odds with individual religious experiences Above all he enjoins us to be honest about the persistence of religious experience in a secular age and to make space for those who encounter mystery in their lives
