

RELIGIOUS EXPLANATIONS: A MODEL FROM THE SCIENCES BY EDWARD L. SCHOEN

Ernan McMullin

The author of a forthright recent book¹ tells us that he is engaged "in the struggle to show not only that religious truth claims can be patterned along strictly scientific lines, but also that such claims are capable of meeting rigorously scientific standards for theoretical adequacy" (p. viii). Edward Schoen's aim is the "cognitive rehabilitation of religious discourse" in the face of modern skeptical attack (p. ix). The "cognitive integrity" of religion is to be secured by showing that religious discourse "may be used successfully to provide explanations strictly parallel with those offered in the sciences" (p. 23). This, he insists over and over, is what is required to "salvage effectively the cognitive respectability of religious discourse" (p. 127).

Schoen is well aware that he travels a lonely road. Even those "religious theorists" (his label for the audience he is addressing) who are most sympathetic to analogies between science and religion, he suggests, always suffer in the end from failure of nerve. He chides Basil Mitchell, Fred Ferré and Ian Ramsey, for example, because they are "convinced that any attempt to provide religious explanations of a rigorously scientific type must be abandoned as a hopelessly impossible task" (p. 79). It is just this task that he considers essential; religion must be shown "capable of the same kinds of explanations as can be offered by the sciences," if it is to survive the potent challenge of critics like Huxley, Freud or Kai Nielsen (p. 22).

Ian Barbour is the author who comes closest to drawing the desired parallel between the modes of explanation in religion and science (p. 25). But Schoen argues that the notion of metaphor to which Barbour constantly returns is too weak. It leads Barbour to deny that theories and their associated models can be a "literal picture of the world" (p. 27). Whereas for Schoen, (partially) literal pictures are just what successful theories are. Though theory relies on analogy, the analogy can function properly only if it rests ultimately on univocal predication of at least some features. Still, Schoen affirms that his "general strategy for rehabilitating the cognitive integrity of religious discourse" will be exactly the same as Barbour's (p. 34), except that vague notions like *metaphor* and *symbolic construct* will be avoided because they permit the desired parallel between religious and scientific explanation to become too hazy.

Religious Explanations A Model From The Sciences

George R. Ross

Religious Explanations A Model From The Sciences:

Religious Explanations Edward L. Schoen, 1985 **Scientific Explanation and Religious Belief** Michael G. Parker, Thomas M. Schmidt, 2005 Contributions from an international conference held December 11-13 2002 at the Institute for Philosophy of Religion at the Johann Wolfgang Goethe University in Frankfurt **Religion and Science** W. Mark Richardson, Wesley J. Wildman, 2012-10-12 Emphasizing its historical methodological and constructive dimensions Religion and Science takes the pulse of pertinent current research as the interdisciplinary study of science and religion gains momentum *Conjunctive Explanations in Science and Religion* Diarmid A. Finnegan, David H. Glass, Mikael Leidenhag, David N. Livingstone, 2023-02-28 This book investigates the nature and relevance of conjunctive explanations in the context of science and religion It explores questions concerning how scientific and religious explanations for features of the world or phenomena within it relate to each other and whether they might work together in mutually enriching ways The chapters address topics including the relationship between Darwinian and teleological explanations non reductive explanations of mind and consciousness and explanations of Christian faith and religious experience while others explore theological and philosophical issues concerning the nature and feasibility of conjunctive explanations Overall the contributions help to provide conceptual clarity on how scientific and religious explanations might or might not work together conjunctively as well as exploring how these ideas relate to specific topics in science and religion more generally

Scientific Models for Religious Knowledge Andrew Ralls Woodward, 2018-08-14 Most comparisons of science and religion are really comparisons of science and Christianity or science and Islam and so forth In *Scientific Models for Religious Knowledge* the author aims to get outside typical polarized debates between traditional a priori theism and radical scientific naturalism Instead a new science and religion compatibility system between a scientific study of religion and a religious epistemology is our new elusive problem Moreover we shall look at a comparison and contrast of modern science with the simple deference of the human mind to the actions of culturally postulated superhuman agents This book pays critical attention to the contributions of scholars in the philosophy of religion the philosophy of science and the scientific study of religion *Scientific Models for Religious Knowledge* is useful for readers looking to expand their learning in the philosophies of science and religion as these subjects are taught and analyzed in modern research universities **Essays in Postfoundationalist Theology** Jacobus Wentzel Van Huyssteen, Wentzel Van Huyssteen, 1997 This collection of essays boldly addresses many of the challenges faced by Christian theology in the context of contemporary postmodern thought Handling abstract topics in a remarkably clear and concise way J Wentzel van Huyssteen presses the case for a postfoundationalist theology as a viable third option beyond the extremes of foundationalism and nonfoundationalism Van Huyssteen discusses themes related to rationality epistemology and philosophy of science In the process he critically engages the work of such thinkers as Wolfhart Pannenberg Nancey Murphy Jerome Stone and Gerd Theissen The result is a

convincing argument that only a truly accessible and philosophically credible notion of interdisciplinarity will be able to pave the way for a plausible public theology that can play an important intellectual role in our fragmented culture today

When Religious Faith Collides with Science Jan M. Long, 2016-08-17 A 2014 Gallup Poll indicated that 26 percent of Americans believe that humans came into existence less than 10 000 years ago with a much larger 37 percent believing the world was created in six 24 hour days Those percentages represent around 83 million and 118 million people respectively suggesting these to be ideas that resonate with a large swath of the population Given the prevalence of such thinking the question looms Is it possible that so many people could be wrong or is science simply mistaken about some of these matters This book is very much about the importance process plays in the conclusions that are reachable with Jan Long proposing that process itself can answer such questions doing so in a way that offers credibility He proposes that process entails a set of well established rules for how knowledge is acquired and these can help guide the formation of a sacred construct about beginnings In the final analysis it is a process that seeks to replace dogmatic thinking with humble and tentative expressions about that which is knowable about the many mysteries of reality that convey to sentient beings awe and wonder

New Models of Religious Understanding Fiona Ellis, 2018 What does it mean to understand the world religiously How is such understanding to be distinguished from scientific understanding What does it have to do with religious practice transfiguring love and spiritual well being New Models of Religious Understanding investigates these questions to set a new and exciting agenda for philosophy of religion Featuring contributions from leading scholars in the field the volume cuts across the supposed divide between analytic and continental approaches to the subject and engages the interest of a broad range of philosophical and theological readers

Philosophy, Science and Religion for Everyone Duncan Pritchard, Mark Harris, 2017-07-20 Philosophy Science and Religion for Everyone brings together these great truth seeking disciplines and seeks to understand the ways in which they challenge and inform each other Key topics and their areas of focus include Foundational Issues why should anyone care about the science and religion debate How do scientific claims relate to the truth Is evolution compatible with design Faith and Rationality can faith ever be rational Are theism and atheism totally opposed Is God hidden or does God simply not exist Faith and Science what provides a better explanation for the origin of the universe science or religion Faith and physics can they be reconciled Does contemporary neuroscience debunk religious belief Creationism and evolutionary biology what constitutes science and what constitutes pseudo science Practical Implications is fundamentalism just a problem for religious people What are the ethical implications of the science and religion debate Do logic and religion mix This book is designed to be used in conjunction with the free Philosophy Science and Religion MOOC massive open online course created by the University of Edinburgh and hosted by the Coursera platform www.coursera.org This book is also highly recommended for anyone looking for a concise overview of this fascinating discipline

The Cognitive Science of Religion James A. Van Slyke, 2016-03-23 The cognitive science of religion is a

relatively new academic field in the study of the origins and causes of religious belief and behaviour The focal point of empirical research is the role of basic human cognitive functions in the formation and transmission of religious beliefs However many theologians and religious scholars are concerned that this perspective will reduce and replace explanations based in religious traditions beliefs and values This book attempts to bridge the reductionist divide between science and religion through examination and critique of different aspects of the cognitive science of religion and offers a conciliatory approach that investigates the multiple causal factors involved in the emergence of religion The Blackwell Companion to Science and Christianity J. B. Stump, Alan G. Padgett, 2012-05-21 A cutting edge survey of contemporary thought at the intersection of science and Christianity Provides a cutting edge survey of the central ideas at play at the intersection of science and Christianity through 54 original articles by world leading scholars and rising stars in the discipline Focuses on Christianity's interaction with Science to offer a fine grained analysis of issues such as multiverse theories in cosmology convergence in evolution Intelligent Design natural theology human consciousness artificial intelligence free will miracles and the Trinity amongst many others Addresses major historical developments in the relationship between science and Christianity including Christian patristics the scientific revolution the reception of Darwin and twentieth century fundamentalism Divided into 9 Parts Historical Episodes Methodology Natural Theology Cosmology Evolution The Human Sciences Christian Bioethics Metaphysical Implications The Mind Theology and Significant Figures of the 20th Century Includes diverse perspectives and broadens the conversation from the Anglocentric tradition Religion Defined and Explained P. Clarke, P. Byrne, Scotney Evans, 1993-03-12 This book examines a selection of major types of theory explaining religion religious philosophical sociological socio economic and psychological It treats of the presuppositions behind such theories and the grounds of their necessity and validity It looks at major styles in the definition of religion It argues that the case for making religion the subject of large scale theorising has not been made and contends that the explanation of religion proceeds better by concentrating on the specifics of religious history and the interconnections between religious ideas Evaluating Models of Christian Counseling George R. Ross, 2011-03-14 Initially developed as a classroom resource Evaluating Models of Christian Counseling serves as a primary example of the complexities involved in integrating psychology theology and spirituality into the counseling process The would be counselor and the experienced professional are each introduced to a systematic evaluation model for determining how effectively a specific Christian Counseling Program incorporates psychological spiritual and theological constructs into their milieu After presenting a working definition of the counseling process and its relationship to psychology theology and spirituality an application of the evaluation model to four Christian Counseling programs is demonstrated **Religion as Orientation and Transformation** Jan-Olav Henriksen, 2017-05-12 Religions are not primarily expressed in people's heads and their thoughts but in what they do People use religious symbols in order to orientate or change themselves In this way religion is related to all realms of

human life Jan Olav Henriksen shows that only against this backdrop can we understand the role of religions in human life
Book jacket **Models-Based Science Teaching** Stephen W. Gilbert, 2011 Humans perceive the world by constructing

mental models OCotelling a story interpreting a map reading a book Every way we interact with the world involves mental models whether creating new ones or building on existing models with the introduction of new information In *Models Based Science Teaching* author and educator Steven Gilbert explores the concept of mental models in relation to the learning of science and how we can apply this understanding when we teach science *Research in Early Childhood Science Education*

Kathy Cabe Trundle, Mesut Saçkes, 2015-04-15 This book emphasizes the significance of teaching science in early childhood classrooms reviews the research on what young children are likely to know about science and provides key points on effectively teaching science to young children Science education an integral part of national and state standards for early childhood classrooms encompasses not only content based instruction but also process skills creativity experimentation and problem solving By introducing science in developmentally appropriate ways we can support young children s sensory explorations of their world and provide them with foundational knowledge and skills for lifelong science learning as well as an appreciation of nature This book emphasizes the significance of teaching science in early childhood classrooms reviews the research on what young children are likely to know about science and provides key points on effectively teaching young children science Common research methods used in the reviewed studies are identified methodological concerns are discussed and methodological and theoretical advances are suggested *Navigating Faith and Science* Joseph

Vukov, 2022-09-15 Religious belief is often perceived as being in conflict with science but does it have to be Not usually says Joseph Vukov In this short accessible guide Vukov advances three models for Christians to utilize when navigating the relationship between science and faith conflict independence and dialogue He argues that dialogue is the ideal model to follow most of the time but not necessarily all the time Through a philosophical approach grounded in compelling real world examples Vukov shows how no single model can be universally adequate and how Christians must proceed with discernment according to the nature of the matter at hand Considering a wide variety of illustrative issues including cosmology evolutionary biology extraterrestrial life miracles brain death and theoretical physics Vukov introduces and describes each of the three models of interaction between faith and science surveys their applications and evaluates the effectiveness of each Throughout he encourages Christians to embrace a spirit of intellectual humility and remember that at their best faith and science converge in their relentless human pursuit of truth **Explanation from Physics to Theology** Philip Clayton, Dean

of Claremont School of Theology Philip Clayton, 1989-01-01 A valuable exposition of the thesis that the explanatory work of theology possesses formal similarities with that of the physical sciences the social sciences and philosophy Clayton exhibits an impressive command of a broad area of scholarship and his reflections are balanced and carefully argued Michael J Buckley S J Jesuit Theological Seminary *A New Science of Religion* Gregory W. Dawes, James Maclaurin, 2013 Religious

belief once in the domain of the humanities has found a new home in the sciences Promising new developments in the study of religion by cognitive scientists and evolutionary theorists put forward empirical hypotheses regarding the origin spread and character of religious beliefs Different theories deal with different aspects of human religiosity some focus on religious beliefs while others focus on religious actions and still others on the origin of religious ideas While these theories might share a similar focus there is plenty of disagreement in the explanations they offer This volume examines the diversity of new scientific theories of religion by outlining the logical and causal relationships between these enterprises Are they truly in competition as their proponents sometimes suggest or are they complementary and mutually illuminating accounts of religious belief and practice Cognitive science has gained much from an interdisciplinary focus on mental function and this volume explores the benefits that can be gained from a similar approach to the scientific study of religion

Cognitive Science and the New Testament István Czachesz, 2017 Over the last few decades our knowledge of how the human mind and brain works increased dramatically The field of cognitive science enables us to understand religious traditions rituals and visionary experiences in novel ways This has implications for the study of the New Testament and early Christianity How people in the ancient Mediterranean world remembered sayings and stories what they experienced when participating in rituals how they thought about magic and miracle and how they felt and reasoned about moral questions all of that can be now better understood with the help of insights from cognitive science Istvan Czachesz argues that the field of New Testament Studies witnesses the beginning of a cognitive turn He surveys relevant developments in the Cognitive Science of Religion and explores the field of cognitive and behavioral sciences in search of opportunities of gaining new insights about biblical materials Czachesz presents some methodological tools and initial steps together with a large number of examples of applying the cognitive approach to the New Testament and related ancient literature

Religious Explanations A Model From The Sciences Introduction

In this digital age, the convenience of accessing information at our fingertips has become a necessity. Whether its research papers, eBooks, or user manuals, PDF files have become the preferred format for sharing and reading documents. However, the cost associated with purchasing PDF files can sometimes be a barrier for many individuals and organizations. Thankfully, there are numerous websites and platforms that allow users to download free PDF files legally. In this article, we will explore some of the best platforms to download free PDFs. One of the most popular platforms to download free PDF files is Project Gutenberg. This online library offers over 60,000 free eBooks that are in the public domain. From classic literature to

historical documents, Project Gutenberg provides a wide range of PDF files that can be downloaded and enjoyed on various devices. The website is user-friendly and allows users to search for specific titles or browse through different categories. Another reliable platform for downloading Religious Explanations A Model From The Sciences free PDF files is Open Library. With its vast collection of over 1 million eBooks, Open Library has something for every reader. The website offers a seamless experience by providing options to borrow or download PDF files. Users simply need to create a free account to access this treasure trove of knowledge. Open Library also allows users to contribute by uploading and sharing their own PDF files, making it a collaborative platform for book enthusiasts. For those interested in academic resources, there are websites dedicated to providing free PDFs of research papers and scientific articles. One such website is Academia.edu, which allows researchers and scholars to share their work with a global audience. Users can download PDF files of research papers, theses, and dissertations covering a wide range of subjects. Academia.edu also provides a platform for discussions and networking within the academic community. When it comes to downloading Religious Explanations A Model From The Sciences free PDF files of magazines, brochures, and catalogs, Issuu is a popular choice. This digital publishing platform hosts a vast collection of publications from around the world. Users can search for specific titles or explore various categories and genres. Issuu offers a seamless reading experience with its user-friendly interface and allows users to download PDF files for offline reading. Apart from dedicated platforms, search engines also play a crucial role in finding free PDF files. Google, for instance, has an advanced search feature that allows users to filter results by file type. By specifying the file type as "PDF," users can find websites that offer free PDF downloads on a specific topic. While downloading Religious Explanations A Model From The Sciences free PDF files is convenient, it's important to note that copyright laws must be respected. Always ensure that the PDF files you download are legally available for free. Many authors and publishers voluntarily provide free PDF versions of their work, but it's essential to be cautious and verify the authenticity of the source before downloading Religious Explanations A Model From The Sciences. In conclusion, the internet offers numerous platforms and websites that allow users to download free PDF files legally. Whether it's classic literature, research papers, or magazines, there is something for everyone. The platforms mentioned in this article, such as Project Gutenberg, Open Library, Academia.edu, and Issuu, provide access to a vast collection of PDF files. However, users should always be cautious and verify the legality of the source before downloading Religious Explanations A Model From The Sciences any PDF files. With these platforms, the world of PDF downloads is just a click away.

FAQs About Religious Explanations A Model From The Sciences Books

How do I know which eBook platform is the best for me? Finding the best eBook platform depends on your reading

preferences and device compatibility. Research different platforms, read user reviews, and explore their features before making a choice. Are free eBooks of good quality? Yes, many reputable platforms offer high-quality free eBooks, including classics and public domain works. However, make sure to verify the source to ensure the eBook credibility.
