The Politics of Protestant Churches and the Party-State in China Carsten Vala, 2017-09-06 Among China's restive religious and social groups Protestants have arguably created the most sustained structural challenges to the Chinese Communist Party's ordering of society By drawing on grassroots fieldwork conducted across the country this book therefore charts the ambition of the government to restrain Protestant population growth and direct it towards regime purposes In particular interviews with key church leaders who founded illegal Protestant congregations with hundreds of participants reveal how officials and illegal congregational leaders have developed ties of trust and information that have permitted church growth even as they preserve a public image of Party domination Thus by tracing the rise of large illegal Protestant congregations apart from Party state structures this book highlights the importance of the public behaviour of religious actors and regime officials in understanding the dynamics of negotiation domination and resistance in 21st century China Ultimately The

Politics of Protestant Churches and the Party State in China paradoxically demonstrates that societal actors can alter the boundaries set by the Chinese Communist Party and the ways in which the Party is both more adaptive and resilient in its relations with society than first imagined Offering the first book length analysis of how ambitious Protestants have founded large unregistered churches despite regime pressure this book will be useful for students and scholars of Chinese Politics Chinese Religion and Sociology **Making Religion, Making the State** Yoshiko Ashiwa, David L. as a potential threat to socio political cohesion or even as a source of violent conflict Yet in Asia as elsewhere the degree of this diversity is not consistently associated with socio political problems Indeed while religious difference is implicated in some social challenges there are also many instances of respectful multi faith engagement practical collaboration and peaceful debate Whether or not religious worldview difference is part of a positive pluralism depends on a complex array of legal and cultural conditions This book explores these dynamics and contingencies in Asia structuring the inquiry according to the theory of covenantal pluralism Covenantal pluralist theory calls for a a constitutional order characterized by freedom of religion conscience and equality of rights and responsibilities combined with b a culture of practical religious literacy and virtues of mutual respect and protection Volume I offers a pioneering exploration of the prospects for this robust and non relativistic type of pluralism in East Southeast Asia Volume II examines South Central Asia The chapters in these volumes originally appeared as research articles in a series on covenantal pluralism published by The Review of Faith International Affairs
