## **Religious Organizations In Community Services A Social Work Perspective:**

**Religious Organizations in Community Services** Terry Tirrito, Toni Cascio, 2003-01-16 This book explores the scope and breadth of religious organizations in social work practice. It begins by tracing the origins of the social work profession back to the earliest civilizations and their religious traditions, establishing the precedent for a fruitful commingling of religion and social welfare. The contributors propose that religious faith organizations can assume responsibilities for social welfare in the 21st century, using the Korean Church as one example of an effective provider of social services. A 12-step model for religious organizations to use to develop community action programs is also presented. Social Work and Faith-based Organizations Beth R. Crisp, 2014-04-29 Faith-based organizations continue to play a significant role in the provision of social work services in many countries, but their role within the welfare state is often contested. This text explores their various roles and relationships to social work practice, includes examples from different countries and a range of religious traditions, and identifies challenges and opportunities for the sector. Social Work and Faith-based Organizations discusses issues such as the relationship between faith-based organizations and the state, working with an organization's stakeholders, ethical practice and dilemmas, and faith-based organizations as employers. It also addresses areas of debate and controversy such as providing services within and for multi-faith communities and tensions between professional codes of ethics and religious doctrine. Accessibly written by a well-known social work educator, it is illustrated by numerous case studies from a range of countries including Australia, the UK, and the US. Suitable for social work students taking community or administration courses or undertaking placements in faith-based organizations, this innovative book is also a valuable resource for managers and religious personnel who are responsible for the operation of faith-based agencies. **Spiritual Diversity in Social Work Practice** Edward R. Canda, Leola Dyrud Furman, 2010 Weaving together interdisciplinary theory and research, as well as the results from a national survey of practitioners, the authors describe a spiritually oriented model for practice that places clients' challenges and goals within the context of their deepest meanings and highest aspirations. Using richly detailed case examples and thought-provoking activities, this highly accessible text illustrates the professional values and ethical principles that guide spiritually sensitive practice. It presents definitions and conceptual models of spirituality and religion, draws connections between spiritual diversity and cultural, gender, and sexual orientation diversity, and offers insights from Buddhism, Christianity, Confucianism, Hinduism, Indigenous religions, Islam, Judaism, Existentialism, and Transpersonal theory. Eminently practical, it guides professionals in understanding and assessing spiritual development and related mental health issues and outlines techniques that support transformation and resilience, such as meditation, mindfulness, ritual, forgiveness, and engagement of individual and community-based spiritual support systems.
