Remains Concerning Britain 187:

The Age of Elizabeth in the Age of Johnson Jack Lynch, 2002-12-12 In *The Age of Elizabeth in the Age of Johnson* Jack Lynch explores eighteenth century British conceptions of the Renaissance and the historical intellectual and cultural uses to which the past was put during the period. Scholars, editors, historians, religious thinkers, linguists and literary critics of the period all defined themselves in relation to the last age or the age of Elizabeth. Seventeenth and eighteenth century thinkers reworked older historical schemes to suit their own needs, turning to the ages of Petrarch and Poliziano, Erasmus and Scaliger, Shakespeare, Spenser and Queen Elizabeth to define their culture in contrast to the preceding age. They derived a powerful sense of modernity from the comparison which proved essential to the constitution of a national character. This interdisciplinary study will be of interest to cultural as well as literary historians of the eighteenth century. **Report of the ... Concise and accessible, this guide provides an overview of the process of British decolonisation. Dr White synthesises recent historical debate by looking at the demise of British imperial power from three main perspectives: the shifting emphases of British imperial policy, the rise of populist colonial nationalism and the international political, strategic and economic environment dominated by the USA and the USSR. The book also positions the British experience within the context of European decolonisation and contains many documents which have only recently become available. Introducing the reader to the key debates, it is the ideal introductory text on the subject. *Report of the ... Meeting* British Association for the
