S. Eliot: Critical Essays* Mariwan N. H. Barznji, Latef S. N. Berzenji, 2017-08-02 This edited book is the work of four years where the writers try to present a different study and understanding of some of T S Eliot's poetry and his unique style of being a modern poet not exactly like the other modernist poets such as Ralph Waldo Emerson We have found that Eliot in his poetry and prose writings was a modernist writer who unlike other modernist poets did not accept the way others rejected the values of religion and tradition Eliot focuses more on the role of religion and tradition in the psychological state of the individual and its impact upon the social stability His

viewpoint regarding the vital role of spirituality in the life of the individual could be clearly seen in his poetic poems and prose writings but this aspect has been too little or not tackled as it is done with Homer      *The Ezra Pound Encyclopedia* Demetres P. culturally or morally prepared for their success A war won by technological superiority merely laid the groundwork for a post war society governed by technocrats These Christian intellectuals Jacques Maritain T S Eliot C S Lewis W H Auden and Simone Weil among others sought both to articulate a sober and reflective critique of their own culture and to outline a plan for the moral and spiritual regeneration of their countries in the post war world In this book Alan Jacobs explores the poems novels essays reviews and lectures of these five central figures in which they presented with great imaginative energy and force pictures of the very different paths now set before the Western democracies Working mostly separately and in ignorance of one another s ideas the five developed a strikingly consistent argument that the only means by which democratic societies could be prepared for their world wide economic and political dominance was through a renewal of education that was grounded in a Christian understanding of the power and limitations of human beings The Year of Our Lord 1943 is the first book to weave together the ideas of these five intellectuals and shows why in a time of unprecedented total war they all thought it vital to restore Christianity to a leading role in the renewal of the Western democracies

operations of gender and sexuality in these texts reveals conflicts concerning the definition of masculine heterosexuality which cut across the aesthetics of modernism She argues that canonical male modernism far from being a monolithic entity with a coherently conservative political agenda is in fact the site of errant impulses and unresolved struggles What emerges is a reconsideration of modernist literature as a whole and a recognition of the heterogeneous forces which formed and deformed modernism
