

THE RESTRUCTURING OF SOCIAL AND POLITICAL THEORY

**RICHARD J.
BERNSTEIN**

*"Richard Bernstein is uniquely
gifted among our contemporaries
to bring into focus the mutual
relevance of highly disparate
strands in modern social and
political theory. We are not
likely to have a better work
in the field."*

Restructuring Of Social And Political Theory:

The Restructuring of Social and Political Theory Richard J. Bernstein, 1978-03 In this volume Bernstein foresees and outlines the development of a social theory that is at once empirical interpretive and critical Contemporary Political Theory J. C. Johari, 1987 Logics of Critical Explanation in Social and Political Theory Jason Glynos, David Howarth, 2007-09-12 This book develops a novel approach to critical explanation as a function of logics taking a distinctive approach to social science explanation and political studies more specifically which avoids the problem of scientism

Hegel and the Metaphysical Frontiers of Political Theory Eric Goodfield, 2014-06-27 For over one hundred and fifty years G W F Hegel's ghost has haunted theoretical understanding and practice His opponents first and later his defenders have equally defined their programs against and with his In this way Hegel's political thought has both situated and displaced modern political theorizing This book takes the reception of Hegel's political thought as a lens through which contemporary methodological and ideological prerogatives are exposed It traces the nineteenth century origins of the positivist revolt against Hegel's legacy forward to political science's turn away from philosophical tradition in the twentieth century The book critically reviews the subsequent revisionist trend that has eliminated his metaphysics from contemporary considerations of his political thought It then moves to re-evaluate their relation and defend their inseparability in his major work on politics the *Philosophy of Right* Against this background the book concludes with an argument for the inherent metaphysical dimension of political theorizing itself Goodfield takes Hegel's reception representation as well as rejection in Anglo-American scholarship as a mirror in which its metaphysical presuppositions of the political are exceptionally well reflected It is through such reflection he argues that we may begin to come to terms with them This book will be of great interest to students scholars and readers of political theory and philosophy Hegel metaphysics and the philosophy of the social sciences

John Dewey: Political theory and social practice J. E. Tiles, 1992 **Pragmatism and Political Theory** Matthew Festenstein, 1997-12-22 Pragmatism has enjoyed a considerable revival in the latter part of the twentieth century but what precisely constitutes pragmatism remains a matter of dispute In reconstructing the pragmatic tradition in political philosophy Matthew Festenstein rejects the idea that it is a single cohesive doctrine His incisive analysis brings out the commonalities and shared concerns among contemporary pragmatists while making clear their differences in how they would resolve those concerns His study begins with the work of John Dewey and the moral and psychological conceptions that shaped his philosophy Here Festenstein lays out the major philosophic issues with which first Dewey and then his heirs would grapple The book's second part traces how Dewey's approach has been differently developed especially in the work of three contemporary pragmatic thinkers Richard Rorty Jurgen Habermas and Hilary Putnam This first full length critical study of the relationship between the pragmatist tradition and political philosophy fills a significant gap in contemporary thought

A Conflict of Paradigms Rebecca K. Webb, 2008-08-21 In this combined examination of the history theories and

practices in the teaching of English the author presents compelling insight and practical solutions to the crisis in English education and the conflict among critical theories radical pedagogy classroom practice epistemics the pressure to vocationalize the curriculum and the corporatization of institutes of learning

The Emergence of Dialectical Theory Scott Warren, 2008-09-15 Scott Warren's ambitious and enduring work sets out to resolve the ongoing identity crisis of contemporary political inquiry In the *The Emergence of Dialectical Theory* Warren begins with a careful analysis of the philosophical foundations of dialectical theory in the thought of Kant Hegel and Marx He then examines how the dialectic functions in the major twentieth century philosophical movements of existentialism phenomenology neomarxism and critical theory Numerous major and minor philosophers are discussed but the emphasis falls on two of the greatest dialectical thinkers of the previous century Maurice Merleau Ponty and Jürgen Habermas Warren's shrewd critique is indispensable to those interested in the history of social and political thought and the philosophical foundations of political theory His work offers an alternative for those who find postmodernism to be at a philosophical impasse

Political Theory and Social Science J. Gunnell, 2011-02-14 This work is devoted to a critical analytical examination of the history character and conduct of contemporary academic political theory and to a reconsideration of significant elements of this field of inquiry from the perspective of the philosophy of Ludwig Wittgenstein

Handbook of Critical Approaches to Politics and Policy of Education Kenneth J. Saltman, Nicole Nguyen, 2022-04-27 The *Handbook of Critical Approaches to Politics and Policy of Education* provides a broad overview of educational policy and politics from critical perspectives engaging with both foundational and cutting edge topics In critical perspectives educational policy debates and programs for reform are about more than narrow questions of efficacy say to raise test scores or for simply more educational inclusion fairer school spending or even cultural responsiveness Rather policy and reform debates represent contested visions for schools and society by social groups vying for hegemony Critical approaches to educational policy and politics see schooling and education more broadly as contested terrain in which competing visions for education are imbricated with the material and symbolic interests and cultural ideologies of different classes and cultural groups Chapters in this volume are organized into five sections The first three sections provide a foundational overview to educational policy and politics covering culture and politics of education political economy of education and subjectivity and education These chapters address longstanding and current policy and political debates as well as foundational theoretical debates The last two sections are organized around two themes that address some of the most significant recent directions of educational politics and policy disaster politics and technology
