 is the essence of poetry In the virginal innocence of the world poetry was a term that meant discourse of the gods A world
 grown grey has learned to regard the gods as diseases of language Conceived it may be in fevers of fancy perhaps originally
 they were but deified words Yet it is as children of beauty and of dream that they remain Mortal has made the immortal the
 Rig Veda explicitly declares The making was surely slow In tracing the genealogy of the divine it has been found that its root
 was fear The root dispersed by light ultimately dissolved But meanwhile it founded religion which revealed in storm and
 panic for prophets had ignorance and dread The gods were not then There were demons only more exactly there were
 diabolized expressions invented to denominate natural phenomena and whatever else perturbed It was in the evolution of the
 demoniac that the divine appeared Through one of time s unmeasurable gaps there floated the idea that perhaps the
 phenomena that alarmed were but the unconscious agents of superior minds At the suggestion irresistibly a dramatization of
 nature began in which the gods were born swarms of them nebulous wayward uncertain that through further gaps became
 concrete became occasionally reducible to two great divinities earth and sky whose union was imagined a hymen which the
 rain suggested and from which broader conceptions proceeded and grander gods emerged CONTENTS Brahma Ormuzd

 Marshall,2015-08-13 In the 1990s alone more than 400 works on angels were published adding to an already burgeoning
 genre Throughout the centuries angels have been featured in among others theological works on scripture studies in
 comparative religions works on art architecture and music philological studies philosophical sociological anthropological
 archeological and psychological works and even a psychoanalytical study of the implications that our understanding of angels
 has for our understanding of sexual differences This bibliography lists 4 355 works alphabetically by author Each entry
