Mr Eric Gill Further Thoughts By An Apprentice:

Mr. Eric Gill David Kindersley,1990 *Eric Gill* David Kindersley,1982 **Eric Gill** Fiona MacCarthy,2011-06-16 A gorgeous new edition of Fiona MacCarthy's ground breaking biography of the artist craftsman typographer and lettercutter master wood engraver and sculptor Eric Gill Fascinating on the work and fair to the man a brilliant biography Independent Scrupulous and sensitive A wise and foolish English eccentric in full glory Observer Full of insight and interest A considerable addition to modern biography Times Eric Gill was the greatest English artist craftsman of the twentieth century a typographer and lettercutter of genius and a master in the art of sculpture and wood engraving He was a devoted family man and key figure in three Catholic art and craft communities yet he also believed in complete sexual freedom In her controversial landmark biography originally published in 1989 celebrated biographer Fiona MacCarthy delves into the complex dark and contradictory sides of the man and the artist for the first time and the result is his definitive portrait

Eric Gill, the Inscriptions David Peace,1995 When the prolific master artist craftsman Eric Gill turned his talents to inscriptional lettering he created some of the most elegant monuments known All 900 are catalogued here from his first stone inscription in 1901 to his design for his own gravestone in 1940 *Eric Gill* David Kindersley,1982 Type Simon Loxley,2006-03-31 Type is the bridge between writer and reader between thought and understanding Type is the message bearer an art form that impinges upon every literate being and yet for most of its history it has conformed to the old adage that good typography should be invisible it should not distract with its own personality It was only at the end of the nineteenth century that designers slowly realised that they could say as much with their lettering as writers could with their words Form of course carries as much meaning as content Now anyone within reach of a computer and its limitless database of fonts has the same power Type The Secret History of Letters tells its story for the first time treating typography as a hidden measure of our history From the tempestuous debate about its beginnings in the fifteenth century to the invention of our most contemporary lettering Simon Loxley with the skill of a novelist tells of the people and events behind our letters How did Johann Gutenberg in late 1438 come to think of printing Does Baskerville have anything to do with Sherlock Holmes Why did the Nazis re-invent Blackletter What is a Zapf Type is a guide through the history of our letters and a study of their power From fashion through propaganda and the development of mass literacy Loxley shows how typography has changed our world **The Book Collector** ,1990 **The APHA Letter** ,1982 Wood Engraving & the Woodcut in Britain, C.1890-1990 James Hamilton,1994 This book traces the history of xylography the art of wood engravings and woodcut
