Jürgen Moltmann and the Work of Hope M. Douglas Meeks, 2018-10-31 These essays reflect on the future of Christian theology in light of the contributions Jürgen Moltmann has made in his prolific career as one of the world's foremost theologians They are not a prediction of what is coming in the future of theology since God's own actions and human history for that matter are not predictable Expressed here is hope for what future theology should take seriously from Moltmann's work Moltmann broke the mold of 19th and 20th century theology by focusing consistently on God's promises of a new heaven and a new earth The result was a theological imagination that is utterly realistic delighting in the creative tension of theology that lives in an unfinished open field of negations and possibilities Hope for the promised future of God casts its light on present sufferings that contradict that future The prominent themes here focus on the contradictions of God's promises and God's justice The essays see clearly the human domination that leads to the oppression of nature the hatred of the poor the dominance of one gender over the other the migration of those who find no home in their homeland and the wounds of neocolonialism For Moltmann these sufferings do not belong simply to ethics but to the heart of theology The doctrines of creation redemption and new creation are fully engaged in the political economic ecological and social problems of this time Here lies the way ecumenism will be reborn in the future The essays argue that theology should not turn aside

from Moltmann's main theme of the resurrection of the Crucified One and of the presence of God's future in the present. Hope opens our eyes to the work of God's Spirit of Life and the affirmation of eternal life in the present. The future of Christian theology should not miss the theme of joy in the face of sin, death and evil and the celebration of God's cosmic all-inclusive future in which God will be at home in God's creation.

**Jürgen Habermas, Volumes I and II** Camil Ungureanu, Klaus Günther, 2018-10-26 Jürgen Habermas is widely regarded as one of the outstanding intellectuals of our time. This collection focuses on the theory of law which can be distilled from his vast compendium of work. At the same time the collection places this theory in the context of Habermas' overall contribution to the theory of society, political theory and social philosophy. Volume I on The Discourse Theory of Law and Democracy identifies the theoretical foundations. Volume II focuses on the critical debate of Habermas' discourse theory of law and democracy on the challenges posed by the postnational constellation, Europeanization and processes of globalization and on particular strands within his work such as genetic technology and religion. Each volume is prefaced by a comprehensive introduction by the editors.

Discourse, Desire, and Fantasy in Jürgen Habermas' Critical Theory Kenneth MacKendrick, 2008-03-25 This book argues that Jürgen Habermas' critical theory can be productively developed by incorporating a wider understanding of fantasy and imagination as part of its conception of communicative rationality and communicative pathologies. Given that meaning is generated both linguistically and performatively, MacKendrick argues that desire and fantasy must be taken into consideration as constitutive aspects of intersubjective relations. His aim is to show that Habermasian social theory might plausibly renew its increasingly severed ties with the early critical theory of the Frankfurt School by taking account of these features of practice life, thus simultaneously rekindling the relevance of the nearly forgotten emancipatory intent in his earlier work and rejuvenating an emphasis on the contemporary critique of reason. This innovative new study will be of interest to those focusing on the early writings of Habermas, the writings of the Frankfurt School and the relation between critical theory, hermeneutics and psychoanalysis.

**The Philosophy of Jürgen Habermas** Uwe Steinhoff, 2009-06-18 This book provides a comprehensive and detailed analysis and sustained critique of Jürgen Habermas' Critical Theory. It will be essential reading for scholars and students alike.

The Languages and Linguistics of Africa Tom Güldemann, 2018-09-10 This innovative handbook takes a fresh look at the currently underestimated linguistic diversity of Africa, the continent with the largest number of languages in the world. It covers the major domains of linguistics, offering both a representative picture of Africa's linguistic landscape as well as new and at times unconventional perspectives. The focus is not so much on exhaustiveness as on the fruitful relationship between African and general linguistics and the contributions the two domains can make to each other. This volume is thus intended for readers with a specific interest in African languages and also for students and scholars within the greater discipline of linguistics.

Jürgen Moltmann Jürgen Moltmann, 2014 Jürgen Moltmann's life and work have marked the history of theology after the Second World War in Europe and North America like no other. He is the most widely read

quoted and translated theologian of our time His systematic work thrives on the cutting edge of Christian theology in the twenty first century challenging and stimulating a whole generation of theologians to work at theology in different and more comprehensive ways Jurgen Habermas Robert C. Holub,2013-01-11 The most important intellectual in the Federal Republic of Germany for the past three decades Habermas has been a seminal contributor to fields ranging from sociology and political science to philosophy and cultural studies Although he has stood at the centre of concern in his native land he has been less readily accepted outside Germany particularly in the humanities His theoretical work postulates the centrality of communication and understanding and as such his strategy of debate is marked by a politically informed unity of theory and practice Holub s book is the first detailed account of the major debates in which Habermas has engaged since the early sixties It stems from the conviction that his critics have not understood the political strategy behind his various interventions or the consistency that informs his intellectual activities Habermas is viewed in dialogue with important philosophical sociological and political currents in West Germany Holub demonstrates how Habermas pursues a course that incorporates various aspects of his opponents positions while simultaneously defending perceived threats to democracy and open discussion **Computational Logic in Multi-Agent Systems** Joao Leite,Paolo Torroni,Thomas Agotnes,Guido Boella,Leon

van der Torre,2011-07-06 This book constitutes the proceedings of the 12th International Workshop on Computational Logic in Multi Agent Systems CLIMA XII held in Barcelona Spain in July 2011 The 22 papers presented were carefully reviewed and selected from 43 submissions The purpose of the CLIMA workshops is to provide a forum for discussing techniques based on computational logic for representing programming and reasoning about agents and multi agent systems in a formal way This volume features five thematic special sessions secrets and trust knowledge and beliefs logics for games and social choice cooperation logic and languages and norms and normative multi agent systems **Jürgen Moltmann's Ethics of Hope**

Timothy Harvie,2016-05-06 This book develops a thorough account of the sphere of human moral action in sustained dialogue with Jürgen Moltmann By examining God s role as promise giver particularly in the Christian understanding of resurrection this work describes the occupancy of both history and space in moral terms This leads to an understanding of Jesus description of the kingdom of God to feature prominently in describing both the possibility and content of human moral action By offering an account of each of the main doctrines found in Moltmann s corpus the role of the future the Trinity the Holy Spirit and anthropology this book locates how each contributes to the understanding of ethics from a Christian perspective and subsequently applies these findings to the contemporary issue of poverty and global economics
