Nova To The Moon:

Tengu and the Sage Jacques Margain, 2015-10-30 Tengu and the Sage is a thrilling action love story that defies the ages In a time and place beyond anything and anyone a man questions all that he has come to know to understand a smile that captures his heart When the heart overrides destiny which will you choose **From Passaic to the Moon** Bob Rosenthal, 2001-11 A series of true adventures is described in the life of Bob Rosenthal one of the aerospace engineers who put the first man on the moon **Cullman County, Alabama Cemeteries, Volume 3** Robin Sterling, 2013-07-23 Cullman County was established in 1877 in large part from the west side of Blount and the east side of Winston counties Today the few old cemeteries which existed in those counties in the early days are found within the borders of Cullman The cemetery listings in this four volume set were conducted by the author beginning in 2003 and ending in early 2006 An attempt was made to personally visit every cemetery in Cullman County and record information from each readable monument Volume 3 of this series covers alphabetically cemeteries G through M beginning with the Good Hope Baptist Church Cemetery and concluding with the Mt Vernon West Baptist Church Cemetery The volumes are filled with photos of many of the old cemetery sites and notes describing the company and unit of most of the old Civil War era veterans This set of books is vital to any serious student of Cullman County genealogy and history **The Star of Bethlehem** Mark Kidger, 2017-03-14 Two thousand years ago according to the Bible a star rose low in the east and stopped high above Bethlehem Was it a miracle a sign from God to herald the birth of Christ Was there a star at all or was it simply added to the Bible to fulfill the Old Testament prophecy concerning the birth of the Messiah Or was the Star of Bethlehem an actual astronomical event For hundreds of years astronomers as prominent as Johannes Kepler have sought an answer to this last baffling question In The Star of Bethlehem Mark Kidger brings all the tools of modern science years of historical research and an infectious spirit of inquiry to bear on the mystery He sifts through an astonishing variety of ideas evidence and information including Babylonian sky charts medieval paintings data from space probes and even calculations about the speed of a camel to present a graceful original and scientifically compelling account of what it may have been that illuminated the night skies two millennia ago Kidger begins with the stories of early Christians comparing Matthew's tale of the Star and the three Magi who followed it to Bethlehem with lesser known accounts excluded from the Bible Crucially Kidger follows the latest biblical scholarship in placing Christ's birth between 7 and 5 B C which leads him to reject various phenomena that other scientists have proposed as the Star In clear colorful prose he then leads us through the arguments for and against the remaining astronomical candidates Could the Star have been Venus What about a meteor or a rare type of meteor shower Could it have been Halley's Comet as featured in Giotto's famous painting of the Nativity Or as Kidger suspects was the Star a combination of events a nova recorded in ancient Chinese and Korean manuscripts preceded by a series of other events including an unusual triple conjunction of planets Originally published in 1999 The Princeton Legacy Library uses the latest print on
