State and Society in the Philippines Patricio N. Abinales,Donna J. Amoroso,2017-07-06 This clear and nuanced introduction explores the Philippines ongoing and deeply charged dilemma of state society relations through a historical treatment of state formation and the corresponding conflicts and collaboration between government leaders and social forces Patricio N Abinales and Donna J Amoroso examine the long history of institutional weakness in the Philippines and the varied strategies the state has employed to overcome its structural fragility and strengthen its bond with society The authors argue that this process reflects the country s recurring dilemma on the one hand is the state s persistent inability to provide essential services guarantee peace and order and foster economic development on the other is the Filipinos equally enduring suspicions of a strong state To many citizens this powerfully evokes the repression of the 1970s and the 1980s that polarized society and cost thousands of lives in repression and resistance and billions of dollars in corruption setting the nation back years in economic development and profoundly undermining trust in government The book s historical sweep starts with the politics of the pre colonial era and continues through the first year of Rodrigo Duterte s controversial presidency

The Power of Institutions Andrew

MacIntyre, 2018-08-06 Conventional wisdom holds that institutions matter Here Andrew MacIntyre reveals exactly how they matter in the developing world Combining an eye for current concerns in international politics with a deep knowledge of Southeast Asia MacIntyre explores the impact of institutions on effective governance He examines the national political architecture the complex of rules that determine how leadership of a state is constituted and how state authority is exercised The Power of Institutions sets out an intriguing conundrum one well established body of literature decries the evils of highly centralized political systems while an equally vigorous school of thought outlines the dangers of political fragmentation MacIntyre presents the problems associated with institutional extremes common in developing countries as the power concentration paradox Either extreme is likely to be associated with distinctive governance problems MacIntyre illustrates his wider arguments by focusing on Indonesia Malaysia the Philippines and Thailand He shows how their diverse political architectures influenced their responses to the Asian economic crisis and played into pressures for political reform The Power of Institutions makes clear why the configuration of political institutions is one of the most pressing challenges in many parts of the developing world today
