Principles of Decorative Design Christopher Dresser, 1873 *Principles of Decorative Design* Christopher Dresser, 2023-10-21 Reprint of the original first published in 1873 Principles of Decorative Design Christopher Dresser, 2013-09 This historic book may have numerous typos and missing text Purchasers can usually download a free scanned copy of the original book without typos from the publisher Not indexed Not illustrated 1873 edition Excerpt Let me give one or two instances but perhaps I had better give treatments for the entire room including the ceiling and not for the wall simply A good effect of a very plain and inexpensive character would be produced by having a black skirting a cream colour wall this colour to be made of the Ffc 59 colour called middle chrome and white and to resemble in depth the best pure cream a cornice coloured with pale blue of greyish tint with deep blue white and a slight line of red and a ceiling of blue of almost any depth The ceiling colour to be pure French ultramarine or this ultramarine mixed with white and a touch of raw umber the cornice blues to be made in the same way The red WALL DECORATIONS 85 P in the cornice to be deep vermilion if very narrow one sixteenth of an inch or carmine if broad A room of a slightly more decorative character would be produced by making the lower three feet of the wall of a different colour by forming a dado from the upper part of the wall thus if the other parts of the room were coloured as in the example just given the lower three feet might be red vermilion toned to a rich Indian red with ultramarine blue or chocolate purple brown and white with a little orange chrome this lower portion of the wall being separated from the upper cream coloured portion by a line of black an inch broad or better by a double line the upper line being an inch broad and the lower line threeeighths of an inch the lines being separated from each other by fiveeighths of the red or chocolate I like the formation of a dado for it affords an opportunity of giving apparent stability to the wall by making its lower portion dark and furniture is invariably much improved by being seen **Ornamental**

buildings such as London's Syon House and Athenaeum Club and the Banqueting Hall at Whitehall. Few however appreciate the underlying geometrical principles that lend these buildings their elegant unity of expression. Form and Design in Classic Architecture explains in simple direct terms and with numerous photographic plates and line illustrations the ways in which the relationship of exterior and interior elements creates that unity and sense of completeness. Dozens of edifices by Inigo Jones, the Adam Brothers, Sir Christopher Wren and other renowned architects appear here in images accompanied by detailed analyses. The author presents a chapter by chapter view of buildings in a variety of shapes with separate treatments of vestibules, corridors, domed and vaulted ceilings, pavilions, loggias, interior and exterior staircases, porticoes and colonnades. The informative, readable text and handsome illustrations as well as the sheer beauty of the buildings themselves make this volume appealing not only to architects and architectural historians but also to anyone with even a casual interest in architecture and design.

Roberts' Illustrated Millwork Catalog Roberts & Co., 2013-01-23. When E. L. Roberts Co., a Chicago-based wholesale manufacturer of architectural woodwork, issued a catalog of its millwork products in 1903, the firm boasted that the publication included more novel and useful features than any sash and door catalogue yet published and that it was a book designed to satisfy critical buyers who demand stylish and tasteful goods. This volume reproduced directly from a rare turn of the century Roberts catalog displays a vast assortment of finely crafted products from window blinds, brackets, china closets, church fittings, doors, frames, gable finishes, linen closets, moldings and office furniture to parquet floors, sashes, shingles, side boards, side lights, store fronts, wainscoting and windows. Nearly 300 sharply defined line drawings and photographs also provide detailed close-ups of exquisitely carved rosettes, head blocks, grilles, arches and other decorative accents. Included in these illustrations are superb views of late Victorian interiors finished with ornately carved balusters and newel posts, paneled walls, exquisite filigree, lovely stained glass windows and magnificent fireplace mantels. Here's a practical source of plans and ideas for architects, students of architectural history, carpentry enthusiasts, preservationists, restorationists and anyone interested in the interior design and furnishings of a bygone era.
