Prospect Of Death:

The Prospect of Death Malcolm Muggeridge Foundation, William F. Buckley (Jr.), Malcolm Muggeridge, 1986 **On the prospect of death** Henry Kirke White, 1806 **Dream, Death, and the Self** J. J. Valberg, 2018-06-26 Might this be a dream In this book distinguished philosopher J J Valberg approaches the familiar question about dream and reality by seeking to identify its subject matter what is it that would be the dream if this were a dream It turns out to be a subject matter that contains the whole of the world space and time but which like consciousness for Sartre is nothing in itself This subject matter the personal horizon lies at the heart of the main topics the first person the self and the self in time explored at length in the book The personal horizon is Valberg contends the subject matter whose center each of us occupies and which for each of us ceases with death This ceasing to be presents itself solipsistically not just as the end of everything for me but as the end of everything absolutely Yet since it is the same for everyone this cannot be Death thus confronts us with an impossible fact something that cannot be but will be The puzzle about death is one of several extraphilosophical puzzles about the self that Valberg discusses puzzles that can trouble everyday consciousness without any contribution from philosophy Nor can philosophy resolve the puzzles Its task is to get to the bottom of them and in this respect to understand ourselves a task philosophy has always set itself **The Oxford Handbook of Philosophy of Death** Ben Bradley, Fred Feldman, Jens Johansson, 2015 This Handbook consists of 21 new essays on the nature and value of death the relevance of the metaphysics of time and personal identity for questions about death the desirability of immortality and the wrongness of killing

Dialogue on Grief and Consolation Terence O'Connell, 2009 Have you lost a loved one The loss can be inestimable the grief excruciating What helped you Did someone say something comforting Did someone offer a consolation which you resented Have you ever tried to comfort someone with a terminal illness or one who has lost a loved one Knowing how to help or what to say that is not trite insincere or superficial can be difficult The point of view of a grieving person is quite different from that of those who wish to offer comfort In a multicultural society such as ours anticipating the beliefs of the grieving person can be even more difficult This book explores the perspective of a grieving person It considers the merits and potential harm of alternative comfort strategies As a philosophical analysis of grief it emphasizes an understanding of the beliefs that underlie grief and the usefulness or dangers of emotions Because grief is so complex and sensitive a narrow approach runs the risk of alienating the grieving person The ideas in this book are expressed in a dialogue among three characters Their discussion is broad and fundamental Starting from the familiar consolation She s no longer suffering and the grieving person s resentment toward the expression the three friends articulate the value of life and the evils of death Their discussion enriches their understanding of grief Many consolations offered to mourners are poor arguments Even the better ones do their work best in the context of a greater understanding of grief *The Flame of Eternity* Krzysztof Michalski, 2013-12-26 The Flame of Eternity provides a reexamination and new interpretation of Nietzsche s philosophy and

the central role that the concepts of eternity and time as he understood them played in it According to Krzysztof Michalski Nietzsche's reflections on human life are inextricably linked to time which in turn cannot be conceived of without eternity Eternity is a measure of time but also Michalski argues something Nietzsche viewed first and foremost as a physiological concept having to do with the body The body ages and decays involving us in a confrontation with our eventual death It is in relation to this brute fact that we come to understand eternity and the finitude of time Nietzsche argues that humanity has long regarded the impermanence of our life as an illness in need of curing It is this pathology that Nietzsche called nihilism Arguing that this insight lies at the core of Nietzsche's philosophy as a whole Michalski seeks to explain and reinterpret Nietzsche's thought in light of it Michalski maintains that many of Nietzsche's main ideas including his views on love morality beyond good and evil the will to power overcoming the suprahuman or the overman as it is infamously referred to the Death of God and the myth of the eternal return take on new meaning and significance when viewed through the prism of eternity

The Metaphysics of Death John Martin Fischer, 1993 This collection of seventeen essays deals with the metaphysical as opposed to the moral issues pertaining to death For example the authors investigate among other things the issue of what makes death a bad thing for an individual if indeed death is a bad thing This issue is more basic and abstract than such moral questions as the particular conditions under which euthanasia is justified if it is ever justified Though there are important connections between the more abstract questions addressed in this book and many contemporary moral issues such as euthanasia suicide and abortion the primary focus of this book is on metaphysical issues concerning the nature of death What is the nature of the harm or bad involved in death If it is not pain what is it and how can it be bad Who is the subject of the harm or bad if the person is no longer alive how can he be the subject of the bad And if he is not the subject who is Can one have harm with no subject When does the harm take place Can a harm take place after its subject ceases to exist If death harms a person can the harm take place before the death occurs If death can be a bad thing would immortality be a desirable alternative This family of questions helps to frame the puzzle of why and how death is bad Other subjects addressed include the Epicurean view that death is not a misfortune for the person who dies the nature of misfortune and benefit the meaningfulness and value of life and the distinction between the life of a person and the life of a living creature who is not a person There is an extensive bibliography that includes science fiction treatments of death and immortality The Civil Law in Its Natural Order Jean Domat, 1850

The Psychology of Death Robert Kastenbaum, 2000-02-07 In this extensively updated and revised edition Dr Kastenbaum continues to examine and expand upon issues of dying and the ways in which we shape and reshape our conceptions of death New to the Third Edition are chapters on how we construct death Death in adolescence and adulthood including discussion on suicide physician assisted death and Regret Theory and Denial new approaches to the role of death anxiety Terror Management Theory and Edge Theory and much more A major contribution to the literature this book is must reading for professionals and students of psychology thanatology gerontology social work and

Stannard, 1977-10-13 The Puritan Way of Death is more than a book about Puritans or about death It is also about family community and identity in the modern world Even before publication eminent historians sociologists and religious scholars in the United States and Europe among them Gordon Wood Philippe Ari s William Clebsch and Robert Nisbet hailed it as a pathbreaking provocative and exciting work a terse urbane learned clear humane volume **Dickens and the Business of**

Shelley's Visions of Death Andrew Lacey, 2024-02-27 This book provides the first modern in depth analysis of Percy Bysshe Shelley's engagement with the phenomenon of death It argues that for Shelley this most nebulous of realities represents first and foremost possibility Shelley's poetic writings on death are both numerous and varied presenting his reader with differing degrees of confidence over the course of his brief but brilliant career with several key visions of what death might be or actually is Shelley's Visions of Death stresses the seldom appreciated fact that death was one of Shelley's most enduring preoccupations and also demonstrates the poet's power to imagine with startling variety that which lies beyond the boundaries of experience

Understanding Existentialism Dr. Jack Reynolds, 2014-12-18 Understanding Existentialism provides an accessible introduction to existentialism by examining the major themes in the work of Heidegger Sartre Merleau Ponty and de Beauvoir Paying particular attention to the key texts Being and Time Being and Nothingness Phenomenology of Perception The Ethics of Ambiguity and The Second Sex the book explores the shared concerns and the disagreements between these major thinkers The fundamental existential themes examined include freedom death finitude and mortality phenomenological experiences and moods such as anguish angst nausea boredom and fear an emphasis upon authenticity and responsibility as well as the denigration of their opposites inauthenticity and Bad Faith a pessimism concerning the tendency of individuals to become lost in the crowd and even a pessimism about human relations more generally and a rejection of any external determination of morality or value Finally the book assesses the influence of these philosophers on poststructuralism arguing that existentialism remains an extraordinarily productive school of thought

The AIDS Crisis and the Modern Self S. Rinken, 2013-04-17 In industrialized countries HIV AIDS is now increasingly perceived as a chronic condition Yet initially before combination therapy became available this pandemic was widely associated with premature or even imminent death Receiving the diagnosis typically led to a dramatic biographical disruption This highly original book turns this basic feature of life with HIV into the vantage point for a fascinating analysis of Western subjectivity Combining a host of empirical observations with the debate on the modern self the author argues that the self construction of people with HIV highlights the precarious yet indispensable status of the self in contemporary Western society Constructing one's biography in terms of self actualization is in fact a manifestation of nihilism it evokes a standard of certainty which on closer examination cannot be sustained Written in a lucid style this unique book will appeal to scholars and students in the fields of sociology social psychology social anthropology social theory and philosophy as well as anybody interested in the relationship between the self and society or the experience of living with HIV AIDS
