Volume 2 of the Collected Works of Marie-Louise von Franz Marie-Louise von Franz, 2021-11-01 The Collected Works of Marie Louise von Franz is a 28 volume Magnum Opus from one of the leading minds in Jungian Psychology Volume 1 released on her 106th birthday is to be followed by 27 more volumes over the next 10 years Volume 2 turns to the Hero's Journey within fairytales The Hero's Journey is about the great adventure that leads to a cherished and difficult to obtain prize In these fairytales the Self is often symbolized as that treasured prize and the hero's travails symbolize the process of individuation In its many manifestations the hero embodies the emerging personality In the conscious world the hero is only one part of the personality the despised part and through his attachment to the Self in the unconscious is a symbol of the whole personality Von Franz's prodigious knowledge of fairytales from around the world demonstrates that the fairytale draws its root moisture from the collective realm This volume continues where Volume 1 left off as von Franz describes the fairytale suspended between the divine and the secular worlds creating a mysterious and pregnant tension that requires extreme power to withstand The resistance of the great mother against the hero and his humble origins as well as the hero freeing the anima figure from the clutches of the unconscious are universal archetypal patterns The spoils retrieved by the hero symbolize new levels of consciousness wrested from the unconscious *Volume 3 of the Collected Works of Marie-Louise von Franz: Archetypal Symbols in Fairytales* Marie-Louise von Franz, 2022-02-28 The Collected Works of Marie Louise von Franz is a 28 volume Magnum Opus from one of the leading minds in Jungian Psychology Volume 3 turns to the Maiden's Quest within fairytales The maiden heroine navigates a complicated maze of inner and outer relationships as she builds a bridge to the unconscious The heroine contends with the animus in many forms like a devouring and incestuous father demonic groom the beautiful prince an androgenous mother a cold dark tower and through conflict with the evil stepmother Dangers and pitfalls await her as the conscious feminine strives to make connections with the unconscious masculine The maiden is the undeveloped feminine and the promised fruit of her struggle with the animus is the coniunctio Volume 3 is a masterwork of cross cultural scholarship penetrating psychological insight and a strikingly illuminating treatise With her usual perspicacity and thoroughness von Franz gathers countless fairytale motifs revealing a myriad of facets to the maiden's quest *Phenomenology of Religion* Archana Barua, 2009-01-01 Out of the wide variety of themes covered by Husserl's phenomenology and later developed by Heidegger Merleau Ponty and others in different possible directions the present work attempts to indicate the few features of the method that derives from Edmund Husserl's basic themes of the phenomenological movement and its methodology Barua explores the manner in which this method has been applied to the study of art and religion by other phenomenologists and accordingly introduces the problem of this profound bulk namely the phenomenological approach to religion mostly in their terms *Classical Approaches to the Study of Religion* Jacques Waardenburg, 2017-01-23 Waardenburg's magisterial essay traces the rise and development of the academic study of religion

Biblical Studies, Theology, Religion and Philosophy N. Amanze, 2012-06-28 This book introduces the study of Biblical studies theology religion and philosophy from an African perspective The book comprises twenty six chapters divided into four sections The first section deals with Biblical studies the second with theology the third with religion and the fourth with philosophy The contributions are from 20 eminent scholars from African and Caribbean universities *Volume 1 of the Collected Works of Marie-Louise von Franz* Marie-Louise von Franz, 2021-09-20 This newly translated volume of the Collected Works of Marie Louise von Franz one of the most renowned authorities on fairytales presents a systematic and wide ranging approach Von Franz amplifies a variety of fairytale motifs to show that the magical realm is alien to the profane and mundane

realm of ordinary daily life She was one of Analytical Psychology's most original thinkers and here she presents a lucid concise exploration of the archetypal symbols found in fairytales Fairytales like myths provide a cultural and societal backdrop that helps the human imagination narrate the meaning of life's events The remarkable similarities in fairytale motifs across different lands and cultures inspired many scholars to search for the original homeland of fairytales While peregrinations of fairytale motifs occur the common root of fairytales is more archetypal than geographic A striking feature of fairytales is that a sense of space time and causality is absent This situates them in a magical realm a land of the soul where the most interesting things happen in the center of places like Heaven mountains lakes and wells At the age of eighteen Marie Louise von Franz was invited to meet Carl Gustav Jung at Bollingen Tower She immediately recognized that there exist two levels of reality one outer and the other inner Within months she had enrolled at the University of Zurich and began attending Jung's lectures at the Eidgenössische Technische Hochschule or the Swiss Federal Institute of Technology Less than a decade after meeting Jung von Franz had completed her doctorate in classical philology and begun seeing her first analysands She was a prolific writer a dedicated teacher and lecturer and was possessed of a far reaching and often non discriminating Eros that accepted everyone seeking help Alfred Ribi MD in *Fountain of the Love of Wisdom Chiron* 2006

The Social Scientific Study of Religion Paul S. Chung, 2022-01-01 In this study Paul S Chung charts the history of social scientific study of religion from the axial age to the present day and thereby lays a foundation for a new model of constructive theology in the comparative study of religion culture and society Analysing the thought of Max Weber Alfred Schutz Pierre Bourdieu Michel Foucault Edmund Husserl Max Horkheimer and others Chung deals effectively with material interests power relations and the history of race gender and sexuality The result is a synthesis that is at once innovative critical and applicable to current methodology in theology and the social sciences [Secularism and the Pursuit of Transcendence, Volume II](#) Stanley E. Porter, Wendy J. Porter, 2025-02-19 We live in a secular age or so we have been told Nevertheless the Christian church strongly believes that we still experience and in fact are surrounded by acts of transcendence encounters with God that often defy imagination and explanation And yet we do try to explain such phenomena whether theologically experientially biblically historically philosophically literarily or even or especially artistically These two volumes are more than just papers from a major conference on secularism and the pursuit of transcendence held at McMaster Divinity College in Hamilton Ontario They contain genuine attempts by people deeply engaged with their secular surroundings to explain what we mean by transcendence Transcendence has been a longstanding topic among the best thinkers of this and previous ages and the same is true for these volumes which include contributions by Charles Taylor Robert Wuthnow Merold Westphal and Christina Gschwandtner but also by a wide range of others who address the question from divergent vantage points The responses vary as much as the orientations of those involved in the pursuit of defining not only what it means to live in our secular age but to be involved in the pursuit of transcendence or even to perceive the Transcendent's pursuit of us

Naturalism and Protectionism in the Study of Religions Juraj Franek,2020-02-06

How should we study religion Must we be religious ourselves to truly understand it Do we study religion to advance our knowledge or should the study of religions help to reintroduce the sacred into our increasingly secularized world Juraj Franek argues that the study of religion has long been split into two competing paradigms reductive naturalist and non reductive protectionist While the naturalistic approach seems to run the risk of explaining religious phenomena away the protectionist approach appears to risk falling short of the methodological standards of modern science Franek uses primary source material from Greek and Latin sources to show that both competing paradigms are traceable to Presocratic philosophy and early Christian literature He presents the idea that naturalists are distant heirs not only of the French Enlightenment but also of the Ionian one Likewise he argues that protectionists owe much of their arguments and strategies not only to Luther and the Reformation but to the earliest Christian literature This book analyses the conflict between reductive and non reductive approach in the modern study of religions and positions the Cognitive Science of Religion against a background of previous theories ancient and modern to demonstrate its importance for the revindication of the naturalist paradigm

Standing on the Premises of God Fritz Detwiler,1999-12 The Christian Right is arguably the most significant social movement in the United States today In recent years these religious conservatives have loudly protested a public education system they believe no longer represents their interests or values Educators often dismiss critiques based on religious values as irrational or flimsy failing to appreciate the coherence of these criticisms from the Christian Right s own perspective While the Christian Right has become ever more sophisticated in its lobbying and powerful in its influence educators and parents find themselves lacking the background knowledge necessary to respond effectively to its efforts *Standing on the Premises of God* speaks directly to this dilemma explaining current incarnations of the Christian Right its leadership its intellectual and theological foundations and its tactics so that those interested in the debates over education will be better prepared to engage them constructively Taking the novel approach of framing the Christian Right as a revitalization movement Detwiler shows how it seeks to effect cultural transformation in order to bring public education and our society more generally in line with its worldview His theoretical model provides insights into why education is so pivotal to the Christian Right and also
