Baggett, 2009 For this work Jerome Baggett conducted 300 intensive interviews with members of six parishes to explore all aspects about whether American Catholics are really so nonchalant about how they integrate the ancient devotional practices of Catholicism with the everyday struggles of the modern world *The Legitimation Crisis of the Orthodox Church in the United States* Cezara O. Crisan, 2019-09-13 As immigration and religion remain important topics in contemporary social political and academic debates The Legitimation Crisis of the Orthodox Church in the United States From Assimilation to Incorporation analyzes the assimilation and incorporation of contemporary Eastern European Christian immigrants into American society by using the theory of the legitimation crisis This book illustrates how these immigrants perceive the role and meaning of the Church and the extent to which they embrace the Americanization of this institution

Crisan explores the Orthodox Church's willingness to respond to the changes in the composition of its immigrant churchgoers and their needs in a context where the Church must choose between promoting its traditional religious message and supporting the ethnic identity of its congregation *The Migration Conference Abstracts Book* The Migration Conference Team, 2022-09-07 The Migration Conference is the largest international annual academic event on migration with a global scope and participation Participants of the TMC2022 Rabat have come from all around the world presenting and discussing migration Researchers from over 70 countries have presented their work at the Conference The conference entertained 3 plenary sessions 6 panel discussions 4 workshops and 1 movie screening over four days 8 sessions were held in French and Arabic while 6 sessions in Spanish and 3 sessions were in Turkish The topics covered in the conference included integration acculturation migration policy and law labour markets theory and methods in migration studies culture communication climate change conflicts insecurities media gender remittances high skilled migration and several other key topics Several sessions have focused on migration in Morocco and North Africa [www.migrationconference.net](http://www.migrationconference.net) [migrationevent fb me](https://www.facebook.com/migrationevent) [MigrationConference Email migrationscholar gmail com](mailto:MigrationConference@gmail.com) **Congregations in America** Mark Chaves, 2009-07-01 This book provides a comprehensive overview of the most significant form of collective religious expression in America local congregations Among its more surprising findings the book reveals that despite media focus on the political and social activities of religious groups the arts are far more central to the workings of congregations [The SAGE Handbook of the Sociology of Religion](#) James A Beckford, Jay Demerath, 2007-10-29 In their introduction to this Handbook the editors affirm Many sociologists have come to realise that it makes no sense now to omit religion from the repertoire of social scientific explanations of social life I wholeheartedly agree I also suggest that this wide ranging set of essays should become a starting point for such enquiries Each chapter is clear comprehensive and well structured making the Handbook a real asset for all those engaged in the field Grace Davie University of Exeter Serious social scientists who care about making sense of the world can no longer ignore the fact that religious beliefs and practices are an important part of this world This Handbook is a valuable resource for specialists and amateurs alike The editors have done an exceptionally fine job of incorporating topics that illuminate the range and diversity of religion and its continuing significance throughout the world Robert Wuthnow Princeton University At a time when religions are increasingly affecting and affected by life beyond the narrowly sacred sphere religion everywhere seems to be caught up in change and conflict In the midst of this contention and confusion the sociology of religion provides a rich source of understanding and explanation This Handbook presents an unprecedentedly comprehensive assessment of the field both where it has been and where it is headed Like its many distinguished contributors its topics and their coverage are truly global in their reach The Handbook's 35 chapters are organized into eight sections basic theories and debates methods of studying religion social forms and experiences of religion issues of power and control in religious organizations religion and politics individual religious behaviour in social context

religion self identity and the life course and case studies of China Eastern Europe Israel Japan and Mexico Each chapter establishes benchmarks for the state of sociological thinking about religion in the 21st century and provides a rich bibliography for pursuing its subject further Overall the Handbook stretches the field conceptually methodologically comparatively and historically An indispensable source of guidance and insight for both students and scholars Choice Outstanding Academic Title 2009      **2009 SANACS Journal** Isaac,Russell Yee,2009-11-25      *People and Land* Jione Havea,2019-11-06 Empires rise and expand by taking lands and resources and by enslaving the bodies and minds of people Even in this modern era the territories geographies and peoples of a number of lands continue to be divided occupied harvested and marketed The legacy of slavery and the scapegoating of people persists in many lands and religious institutions have been co opted to own land to gather people to define proper behavior to mete out salvation and to be silent The contributors to *People and Land* writing from under the shadows of various empires from and in between Africa Asia the Americas the Caribbean and Oceania refuse to be silent They give voice to multiple causes to assess and transform the usual business of theology and hermeneutics to expose and challenge the logics and delusions of coloniality to tally and demand restitution of stolen commodified and capitalized lands to account for the capitalizing touristy and forced movements of people and to scripturalize the undeniable ecological crises and our responsibilities to the whole life system watershed This book is a protest against the claims of political and religious empires over land people earth minds and the future

**Christianity and Migration** Peter C. Phan,Oxford Editor,2025-10-07 This book essays a not the Christian theology of migration The phenomenon of human migration that is the movement of people to and settlement temporary or permanent in a new area or country its causes and reasons and its historical anthropological social political legal and cultural dimensions have been widely studied and reasonably well understood and the next chapter will discuss them in detail By contrast theology as an academic discipline seems least capable of illuminating this human phenomenon It appears to most people outside the church and its educational institutions to be at best an esoteric subject and at worst a convoluted and useless mumbo jumbo especially when liberally sprinkled with Greek and Latin phrases Why not leave the study of migration to scholars in history sociology anthropology economics politics and law who albeit no less infected with highfalutin language than theologians do at least try to offer practical policies and effective strategies either for or against immigration Provided by publisher
